GURNEY'S

AT YANKTON, SOUTH DAKOTA
1946 SEED & NURSERY BOOK & SPRING CATALOG

Gurney's New Early HYBRID SWEET CORN You'll Really Like This One

If you want corn quick (within 68 days) and want it large and 12 rowed and sweet and tender then plant this new hybrid of ours. It has everything we've tried beat a mile and we know you'll be "crazy" about it once you grow it. Extra large, heavy yielder. Sweet, tender like all good hybrid corn. 178

—Triple size
pkt. 15c; ½ lb. 33c; 1 lb. 55c; 3 lbs. \$1.49, pp.

Gurney's All Season Hybrid Sweet Corn

Here's the grand mixture of all the best new, tender big-yielding HYBRID SWEET CORNS—early, medium and late to give you sweet corn all season long. With this mixture, you can have roasting ears for weeks and weeks instead of all at one time and all with one planting.

All the best hybrids. All yellow varieties.

Order No. 173—Price: Triple Size Pkt., 14c; ½ lb., 23c; 1 lb., 45c; 3 lbs., \$1.15, postpaid.

I know how well you all like Sweet Corn, and you all plant a lot of it. So because I really want you to try out the two above, I'm offering you a special price for the two of them. Here it is: 1 triple size packet of each for only 25c.

Gurney's New Broadleaf ELM HYBRID

(Grows Faster than Chinese Elm)

Here is America's coming tree. Not only does it grow straight but it has leaves like an American Elm and it grows faster than any of our Chinese Elms. It is the fastest growing shade tree you can set. Very hardy. Not even harmed by the Armistice Day freeze in 1940. We have grown this tree for over 10 years. It has proved perfectly hardy—has a fine form. It is a wonderful shade tree. Supply very limited. Should we run out we will book your order for delivery next spring, unless you would rather have us refund. Get your order in early—first come, first served.

PRICES—Each

2-4 ft. grade \$1.25

3 GENERATIONS in the Seed and Nursery Business

1st Generation

COL. C. W. GURNEY, Founder
1840-1913

2nd Generation

GEO. W. GURNEY
President and Manager

Dear Seed and Nursery Friends:

This has been another good year for us up here in Gurneyland. We've sent out more seed and nursery stock than any time in our history. And I know all you customers were glad to get it, and glad to save the food bills, too. Nothing like growing your own.

We're expanding again this year to take care of demands. Another 40-acre nursery has been planted and is really flourishing. Wish you could have seen it last fall. A real beautiful thing to look at, and really producing things for you already.

And we've bought and furnished a brand new Hatchery, so we'll be better able to take care of your orders. It is the finest I've ever seen, with all new equipment, air-conditioning and everything. We've made the old hatchery building over into another modern cleaning plant. It is now equipped with modern, new seed cleaning equipment, including a large 29-D Clipper, a gravity mill, roller mill, scarifier and other fine machines.

This is our 80th year in business at Yankton. That's a long time, but it seems short to me, and I've been in it for about 50 years myself. Have been trying to find out how many seed companies have a record that long. Not many, near as I can find out. Anyway, we're proud of our 80 years. Prouder still that you customers keep coming back for more seed and nursery, every one of them.

Only thing I don't like to think about is the shortage of most everything. We've had difficulties getting labor, like everybody else. And more difficulties buying the few things we don't grow. So get your orders in early. Get first choice.

Sincerely,
Geo. W. Gurney,
President.

3rd Generation

SIDNEY GURNEY
Office Manager

Like a lot of other dads I'm sure glad to have "Sid" back home. As you know he's been away for 2 years, as "Captain" of a B-24, flying over Germany. He did his thirty missions, came back to the states as an instructor, and now he's released and back on the job. When you see the better service we're going to give this spring, you can credit a big part of it to Sid.

For 80 Years (3 Generations)

America's Foremost NORTHERN Seed and Nursery House

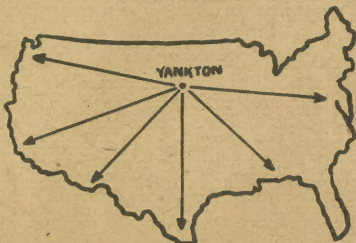

A View of Part of Gurney's Buildings—Seed & Nursery Headquarters for the Great Northwest

If you come to see us at Yankton this is about what you'll see. This view only includes part of our buildings, and some of those you do see have been remodeled or torn down and rebuilt. Didn't have time to take a new one. The picture doesn't include our big elevator, just behind the main build-

ing. And the farthest building down the street, which used to be the hatchery, has now been made over into a secondary cleaning plant. We've built a new hatchery. 80 years have taught us a lot about seed and nursery. We're proud of our plant, so come see us; we'd like to visit with you.

Gurney's — Home of NORTH-ERN-GROWN SEEDS and PLANTS

Hardy, northern-grown nursery stock that will survive through cold winters and dry summers is important to gardeners everywhere. That's why for over 78 years, gardeners have turned to Gurney's for hardy stock that they know will survive.

Located as we are in a climate that has severely cold winters and hot dry summers, stock grown here in our fields is bound to be more hardy, more satisfactory wherever planted. And this hardy stock costs you no more. This year, do better—buy from Gurney's.

Buy DIRECT and SAVE

Buying direct from a large grower and producer like Gurney's, you are bound to make savings. Buying direct cuts out hauling and dealer's profits and this saving is passed on to you in Gurney's low prices.

You get the benefit, also, of knowing that what you buy has been grown and

handled by EXPERT SEED AND NURSERY-MEN and that you are getting exactly what you are paying for. That's important. It is disappointing to wait a year or more for something to grow and produce for you only to find that it isn't what you bought. This you avoid, buying direct from the grower.

24-HOUR SERVICE

When you send your garden seed, field seed or nursery or baby chick order, you want service and that's what we specialize in. Everything will go out to you the same day your order is received, if humanly possible. Everything, of course, but nursery stock and this is shipped when weather is correct for planting in your locality. Early nursery orders (and we hope you send them early) are booked, stock is reserved for you, and then shipped when your weather opens up for planting.

EASY TO ORDER

Buying direct by mail is the easy way to order. Study and look through the catalog. You'll find a lot of interest and a lot of good helps. Then simply list down what you need on the order blank enclosed and we'll do the rest. And remember, every variety listed in this catalog, is a selected, tested and approved variety. You take no chances on whatever you buy when you buy from Gurney's.

WE GROW OUR OWN STOCK

The picture above gives you a glimpse of one of our many acres of growing nursery stock. All around Yankton, we have field after field of nursery stock all growing under our direct supervision and handled by our own experts.

This way we KNOW what our stock is and are able to see that it has the best of care from the time it is planted until it is dug, ready for your gardens.

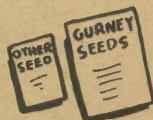

You are sure of better seeds and plants when you buy from Gurney's.

NURSERY STOCK INSPECTED

All our nursery stock carries a state inspection label certifying that our nursery stock is clean and free of disease and passes all state laws as to quality of nursery stock sold. This is another protection for you when you send your order to Gurney's. Don't be satisfied with ordinary stock. Get the best from Gurney's—it costs no more.

FAIR MEASURE

Fair measure and a little more has always been the motto at Gurney's. You'll find our packets of seed extra large and extra generous. On an average order of garden seed, this makes a big difference. You'll find you can always plant a bigger garden with Gurney's seeds than others.

CANADIAN CUSTOMERS

The importation of all nursery stock entering Canada from other countries is subject to a permit. Nursery stock includes all trees, shrubs, plants, roots, bulbs, corms, rhizomes, but does not include true seed.

Permits are supplied with no charge to Canadian customers and they should apply to the Plant Protection Division, Department of Agriculture, Ottawa, for same before placing orders for nursery stock.

We have put this page here because we believe you would like to know about the company you are doing business with. We are proud of our years of service selling northern-grown seed and nursery stock and think you will be, too. We hope you enjoy this catalog and find lots of useful information. Everything listed in it is reliable and trustworthy, and you can count on it.

Gurney's Planting Magazine Is FREE to Customers

We have a friendly business here at Yankton, and we want to get acquainted with our customers and help them with their gardens as much as we can. That's the big reason for publishing our Planting Magazine. If you haven't seen a copy of it, the Planting Magazine is devoted to friendly tips on how to grow seed and nursery items. It tells how to garden and when, and what to do if trouble arises.

More important, it's sortuva meeting place for Gurney customers and friends. Every issue, and it comes out once in the spring and once in the fall, carries dozens of pictures of Gurney gardens and farms, and dozens more of letters and tips from planters who have learned a new way of growing this or that.

The Gurney Planting Magazine is FREE to all Gurney customers. Watch for it, and if you don't get your copy, write and ask for it. The first big 1945 issue will be published in March. If you've sent in your order before then, you'll be sure of getting a copy.

FREE GIFTS FOR EVERYBODY

We have always followed the practice of giving more than we bargain for, and we think it's still a good practice, even in these days of high values.

Every order at Gurney's calls for a free gift. This goes for both garden seed and nursery stock. We aren't going to tell what these gifts are ahead of time, but you can be sure they will be good, and really useful or decorative in the garden.

Our free gift policy goes for orders even lower than a dollar, but the bigger the order, the bigger the gift, or the more gifts. Watch for them in your orders, and remember you always get your money's worth at Gurney's—and a little bit more to boot!

New Nursery, New Hatchery, New Seed Mill at Gurney's

This has been a year of progress up here in Gurneyland. First, we bought a new Hatchery building, and equipped it with the most modern machinery made. It's air-conditioned, too, and everything is set to give you the best baby chicks, and the best service in the country.

Second, we have bought and planted a new 40-acre nursery. Mainly it is being used to grow ornamentals for you. Some of the beautiful flowers you see pictured in this catalog came from it. Many more will in the years to come.

Third, we have completely remodeled the old hatchery building into a supplemental seed cleaning plant. Now we have a brand new elevator and cleaning plant, besides the remodeled one, so we are really in a position to give you the best in field seeds.

Gurney's Strawberries

ALL VARIETIES LISTED ARE SELF-FRUITFUL
(Will Produce Fruit When Planted Alone)

You Get Strong-Rooted Plants at Gurney's

There is a lot of difference between good strawberry plants and poor ones and you want to make absolutely certain that you do not spend your money for any but the best.

Some nurseries send out old plants that will not give results or weak, spindly rooted plants that just could not grow properly.

But here at Gurney's, where strawberries are a specialty, we absolutely guarantee that the strawberry plants you get will be:

1. **YOUNG PLANTS**—The vigorous kind with plenty of vigor to give you heavy crops.
2. **STRONG ROOTED**—Large root systems that go deep for food and moisture making stronger plants.
3. **FROM THE BEST STRAINS**—There are good strains and bad in strawberries like everything else. OUR STRAWBERRIES ARE ONLY FROM THE BEST STRAINS.

In addition, all plants are carefully inspected before shipping and then shipped to you in a separate, specially-ventilated package so they will reach you in absolutely perfect condition for planting.

Gurney's strawberries are superior in every way—BUT COST YOU NO MORE.

BEAVER STRAWBERRIES

Firm—Good for Canning

Beaver is rapidly becoming one of the most popular of our strawberries. Extra large, high quality, extremely hardy and drought resistant.

Beaver has an extremely heavy yield, very early season, good color and excellent shipping qualities which partially account for its popularity.

BUT BEST OF ALL, Beaver is extremely firm and RED CLEAR THROUGH, which make it especially desirable for canning, for it will retain its beautiful coloring and shape in the can. You folks who can will appreciate this.

This is one berry you can't go wrong on, especially if you plan to put up many strawberries this year.

How to Plant Strawberries

There is nothing difficult about planting strawberries if one simple precaution is taken during planting. That consists of making sure that the crown of the plant (where the leaves join the roots) comes just at the surface of the soil. The roots should be spread out well when planting and not doubled up in a small hole.

Set plants in garden 16 inches by three feet. In field planting 16 inches apart in rows 3½ feet apart. This latter distance takes about 8000 plants for the acre. All varieties listed will be self-pollinating—that is, they will bear even if no other varieties are planted nearby. Also, none of these varieties will mix with other varieties in your patch.

Everyone should have a strawberry patch even if it is no larger than a blanket. You will be amazed at the amount of fruit you will get even off of a small space and it's of a quality you can't begin to get at the market. Then, too, this year, fruits and vegetables of all kinds will be hard to buy—WE ALL MUST GROW OUR OWN or in too many cases go without.

NEVER SAW
STRONGER PLANTS
Gentlemen:

I received the Gem everbearing strawberry plants. They were in fine condition and I've never seen stronger, healthier plants. They all grew.—Leeman McWilliams, Guernsey, Iowa.

GURNEY'S NEW "HARDY"—A New, Better Everbearer (Minn. 1166—Evermore)

If this extremely hardy, drouth resistant, high quality strawberry is not the most popular everbearing strawberry on the market this season, it will be another year. Fruit is large, rich red. Will produce an almost unbelievable amount

from June until November the first season planted. Even the new plants or runners will produce the first year. The plants are extra large and thrifty.

Heavy-Yielding GEM EVERBEARER

The Favorite Strawberry for Constant Bearing

We have grown and sold the "Gem" for many years. Throughout the drouth years, and from all sections of the Middle Northwest, reports have come back from customers saying, "We never saw a Strawberry that could beat the Gem." Most vigorous plant and heaviest bearer... Are the biggest, reddest, juiciest strawberries we ever grew. That's what others say and our experience bears it out. They "make" new plants stand drouth and bear lots of fruit all summer long. For Commercial Growers or Home Gardeners GEM is the STRAWBERRY YOU WANT.

WHY YOU SHOULD INSIST ON "GURNEY-GROWN" FRUIT TREES

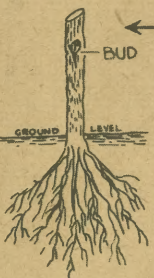

Gurney Fruit Trees Are "Whole-Root Budded"—Not Grafted

All desirable varieties of fruit trees are grafted or budded on hardy root seedlings to propagate these varieties, BUT THERE IS DEFINITELY A DIFFERENCE IN THE WAY IT'S DONE. Here's the difference:

← THIS IS AN ORDINARY FRUIT TREE GRAFT as done by most nurseries. Just a small piece of seedling root is used and a piece of the desired variety is "grafted" on this little chunk of seedling rootstock. In this method the tree is liable to

have a small root system as it has to re-grow it after grafting and there is danger of root disease from cutting these roots. Don't take a chance on stock like this. You want as much rootstock on your plant as you can possibly get.

← THIS IS THE GURNEY "WHOLE-ROOT" BUD-DING METHOD

Here the ENTIRE SEEDLING ROOT is used and the desired variety is "budded" into its top. It's bound to make you a larger, earlier-bearing, healthier tree than the common grafting method used by so many nurseries because the Gurney WHOLE-ROOT budding method gives you the ENTIRE ROOT not just a piece of a root. Always insist on Gurney's "Whole-Root" Trees. They grow faster, bear earlier.

All Gurney Fruit Trees Are Budded on Hardy Root Stock

Here's another difference in trees that isn't apparent just looking at trees. Some fruit trees are budded or grafted on tender, southern-grown seedlings, BUT AT GURNEY'S ALL FRUIT TREES ARE BUDDED ON THE HARDEST ROOT-STOCK KNOWN EVEN THOUGH IT COSTS US A GOOD DEAL MORE. Gurney's apples are budded on hardy Baccata stock, not tender French apple seedlings. Peaches are budded on hardy plum, not tender peach seedlings, etc.

← Roots Are Important—

and the trouble is, you can't tell just by looking at the tree, if the root stock used is hardy. BUY YOUR

HARDY FRUIT TREES FROM GURNEY'S THIS YEAR AND BE SURE YOU GET THE BEST.

Gurney's HARDY BERRY PLANTS

Plant Plenty of BERRIES

Don't restrict your victory garden to growing just the vegetables you need. Grow your own fruit, too. Plant plenty of raspberries, blackberries, strawberries, too. They don't take much space and they give you worlds of fruits in a hurry.

How to Plant RASPBERRIES

Set three feet apart in rows 6 feet apart. Cut out fruiting cane or branches to the ground immediately after fruit is picked. Takes 2500 plants per acre. Set blackberries and handle same as raspberries, except setting them farther apart—about 4 to 5 feet apart in the row and the rows 7 feet apart. Takes around 1400 plants to the acre.

How to Plant BOYSEN- BERRIES

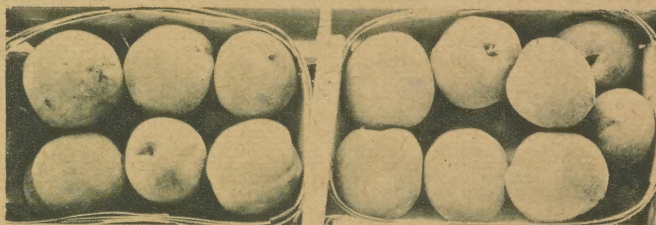

Boysenberries should be planted 6 feet apart each way and this will take 1100 plants to the acre. You should leave these on the ground the first winter, cut off half the tops and mulch with straw after cold weather. These should then be trained on wires and each year after fruiting cut out the canes that bore fruit. Leave the new growth each year on the ground, and cover, then put up over wires which should be three-foot high on each side of the row. All these plants could be set closer for garden planting and you can generally find a corner here and there in the garden where you can use berry plants.

All Gurney Nursery Stock Is GUARANTEED

We guarantee our nursery stock to be absolutely true to name and we will replace free of charge any items that prove otherwise. We guarantee the stock to be of high quality, and guarantee it to reach you in good growing condition. If you are not satisfied upon receiving the stock, report at once and a satisfactory adjustment will be made.

We are very careful in digging, handling, and packing all nursery stock but if any items fail to grow, we will stand part of your loss, and replace any items that fail to grow at one-half the purchase price but you must report your loss before August 1, 1946.

Gurney Fruit Trees Are True-To-Name

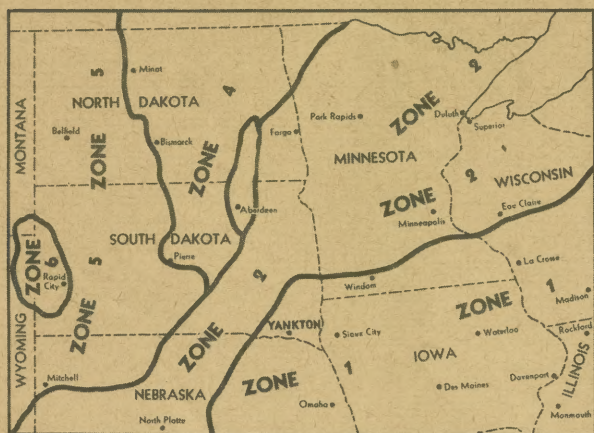

It's the Results That Count

One of a grower's most disappointing experiences is to find after buying and caring for a tree for a year or two or three, to have it bear the wrong kind of fruit. That means wasted money, wasted time, wasted effort.

THAT WON'T HAPPEN AT GURNEY'S. Only experts work on our trees, and checkers constantly check on everyone's work. Every tree goes through many inspections to assure perfectly-graded, strong, healthy trees and MORE IMPORTANT—THAT YOU GET EXACTLY WHAT YOU ORDER. You plant now for years to come. Be sure you get the best stock when you order NOW.

Gurney Trees Grow in ALL ZONES

ZONE 1

All Trees, Small Fruits, Flowers, Shrubs, and Vines found in the Gurney Catalog are recommended for this Region.

ZONE 2

All hardy except the following:
Apples: Hardy except Red Delicious, Jonathan, Yellow Delicious.
Plums: All hardy.
Cherries: Pie cherries hardy except in northern one-half.
Apricots: All hardy.
Small Fruits: All hardy except need winter covering. Boysenberry, Black Raspberry, Blackberry and Dewberry need extra protection and covering.
Forest Trees: All hardy.
Ornamental Shrubs: All hardy except the following need winter protection: Hydrangea, Butterfly Bush, Spirea Anthony Waterer.
Vines: All hardy except Clematis,

Wisteria, Silver Lace Vine—give winter covering.

ZONES 4 and 5

Recommended best for planting:
Apples: Haralson, Duchess, Wealthy, Anoka, Manitoba, Yellow Transparent, Early Harvest, Prairie Spy.
Crab Apples: All hardy.
Plums: All hardy. For EXTRA hardiness plant Hansen Hybrids, Waneta and Tecumseh.
Apricots: Hansen's Siberian.
Cherry: None except Hybrids.
Forest Trees: All hardy, unless otherwise noted.
Ornamental Shrubs: Spirea Van Houttei, Lilacs, Coralberry, Snowberry, Honeysuckles, Snowball, Bush Roses, Sumac, Buckthorn, Cotoneaster, Dogwood, Wahoo, Tamarix.

ZONE 6

Same as Zone 1.

TRANSPORTATION CHARGES ON NURSERY STOCK

Unless otherwise stated, all prices are f.o.b. Yankton. On Parcel Post shipments of Nursery Stock, the average postage is 10% of the cost of the stock (or add 10c for each \$1.00). This will vary considerably according to items purchased—send not less than 15c even on small orders.

Balled and burlapped Evergreens and trees 5 feet and taller should not be sent by parcel post. In such case any

postage sent will be applied on transportation, balance of transportation, if any, will be sent collect.

THE ABOVE FIGURES ARE ESTIMATED. IF YOU SEND TOO MUCH POSTAGE, WE WILL REFUND THE BALANCE—IF YOU SEND TOO LITTLE, WE WILL SEND YOU A NOTICE OF THE AMOUNT DUE. WHEN POSTAGE IS NOT SENT WITH ORDER WE WILL SEND EXPRESS COLLECT, IF POSSIBLE.

Gurney's Hardy Hazelnut

This hardy Hazelnut produces large quantities of high quality nuts every year. The Hazelnut is a native of the Black Hills, eastern S. D., Minnesota, and Iowa and is perfectly hardy. Besides being useful on account of the quantities of nuts they produce, it makes a very pretty shrub. It may be included anywhere in your landscape. Plant a large number of these plants.
18/24", 39c each; 5 for \$1.80; 10 for \$3.50; 25 for \$7.50.

No C.O.D.'s Please

As much as we want to accommodate our customers, we just cannot accept C.O.D. orders. Our business is strictly cash with order. That's one of the reasons why we can offer so many things at such low prices. Please help us to keep up this policy by sending cash with your order.

RUDY Raspberry

The Giant Improved Purple Raspberry
Hardest for Dakota

With the introduction of this North Dakota blizzard belt raspberry, you can now grow raspberries where it was impossible to grow them before. They have consistently produced heavy crops when all other varieties have failed. The Rudy is a rank grower, productive, high quality and iron clad in hardiness. Excellent for jams, jellies, and eating fresh.

3 for 69c	6 for \$1.29	12 for \$2.29	25 for \$4.49
--------------	-----------------	------------------	------------------

Gurney's RASPBERRY BARGAIN

Here at a real bargain price you get enough red raspberries and enough black raspberries to give you enough fruit for the average family. Both are superior varieties. You get:

12 Latham Red Raspberries
12 Cumberland Black Raspberries **\$3.49**
24 Plants in all
FREE: 2 Mammoth Boysenberries—The much talked about, giant berry plant.

Gurney's GIANT BERRY COLLECTION

Here's a real bargain giving you some of the best of all kinds of berries for your garden berry patch. You get:
3 Latham—Red Raspberries
3 Cumberland — Black Raspberries
3 Rudy — Purple Raspberry
3 Boysenberries — The Miracle Giant Berry
all 12 berries **\$1.99**
only
FREE: 2 Flare Rubarb plants with each collection.

BLACKBERRIES

ALFRED

Practically Seedless and Coreless

This is sometimes called the Coreless Blackberry. The color is a glossy, jet black, the flavor, sweet and delicious, and it is nearly seedless. It is a hardy plant that produces mammoth berries. It does very well in cold sections as well as warm. Hardy with winter protection of a straw mulch in the North.

Prices: 6 for 98c; 12 for \$1.79; 25 for \$3.19; 50 for \$6.00; 100 for \$10.49.

ELDORADO

The Small Seeded Blackberry

Ripens over a long period with loads of juicy sweet fruit. Liked particularly for its small seeds and heavy bearing qualities. Very resistant to rust.

Prices: 6 for 89c; 12 for \$1.69; 25 for \$3.19; 50 for \$5.89; 100 for \$10.75.

BLACK RASPBERRIES

CUMBERLAND

The Favorite Black

You will want this delicious BLACK RASPBERRY. It produces enormous crops, of large, firm berries of the finest flavor. Berries are juicy, not seedy. Fine for shipping, market or home use. A profitable crop that is always in demand. In fact, wherever you go, you will find that Cumberland is, by far, the most popular of black raspberries and well deserves to be. Be sure to plant at least 25.

Prices: 6 for 98c; 12 for \$1.79; 25 for \$3.25; 50 for \$6.25; 100 for \$11.00.

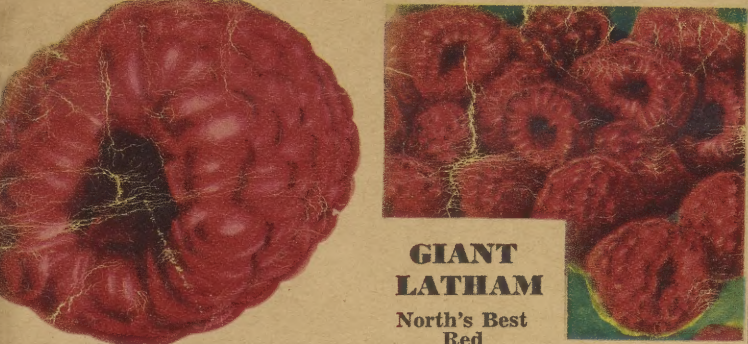

JOHN ROBERTSON'S

Best for Dakota's

In a letter to us, John Robertson said, "We have grown raspberries, both black and red, for nearly forty years—and this is the best Black in all ways that we have found—in hardiness, yield, quality, size and appearance." Jet black, firm, and of more mild flavor. John died several years ago, but this raspberry is a real monument to a great South Dakota Horticulturist.

Prices: 4 for 79c; 8 for \$1.49; 12 for \$1.98; 25 for \$3.59; 50 for \$6.75; 100 for \$13.95.

RED RASPBERRIES

GIANT LATHAM

North's Best Red

CHIEF Raspberry

The Early, Dry-Weather Berry

Do you want your Raspberries early in the season? Chief is an early Raspberry. . . . A good dry-weather berry; because of its earliness it usually produces a crop before the dry weather sets in. It is unusually hardy and free from disease. 4 for 89c; 8 for \$1.59; 12 for \$2.19; 25 for \$3.98; 50 for \$7.75; 100 for \$13.95.

Regardless of where you live, this Raspberry is good, for it does well, North, South, East, and West. The fruit is large, many are an inch long. It has a real red Raspberry flavor. Firm and solid. Delicious eaten fresh and makes the finest preserves and sauce. It is a vigorous grower and bears enormous crops. Minnesota's Great Market Berry and good no matter where it is planted. 4 for 89c; 8 for \$1.59; 12 for \$2.19; 25 for \$3.98; 50 for \$7.75; 100 for \$13.95.

Mammoth BOYSENBERRY

Biggest Fruit of All Berries

This is really an amazing berry. A cross of Blackberry, Raspberry, and Loganberry, and is far more vigorous than any of them. They are of immense size with a supreme flavor. It is almost seedless but firm. It is the best berry of its kind ever grown, delicious flavor, heavy bearer and quite hardy with winter covering of straw. 2 for 39c; 10 for \$1.49; 25 for \$3.49.

BOYSENBERRY

The Mammoth Boysenberry now without thorns. For easy picking and cultivating, plant this variety. Bears as well as regular type and still you have the advantage of large, luscious berries and no thorns to bother you when picking. Supply is limited. Order early. Each 89c; 3 for 98c; 5 for \$1.29; 10 for \$2.19.

3 GOOSEBERRIES \$1.79

PIXWELL GOOSEBERRY

It "Picks Well"

The big, luscious berries hang from the branches, well away from the thorns. Pixwell "Picks well." It's new. It's scarce. Can be grown farther north than any other named gooseberry. Produces heavy crops even under adverse conditions.

69c ea.; 3 for \$1.89; 10 for \$5.95.

CHAMPION

Heavy Bearer—Fine Quality

A steady and heavy bearer of fine quality attractive pale green berries reddening slightly when ripe. Berries hang on underside of branches, making them easy to pick. Grow anywhere.

65c ea.; 3 for \$1.79; 10 for \$5.89.

NATIVE GOOSEBERRY

Iron clad in hardness, productive, fruit of good quality. Very drought resistant, an annual bearer. Excellent for pies and preserves.

Strong Plants \$0.35 \$0.98 \$1.49

CURRANTS 49c each and up

RED LAKE CURRANT

The Hardy, Heavy Bearer

A vigorous productive bush producing immense quantities of high quality, large, red currants the first year after planting. Very hardy. Growers say, "This is the red currant to stop all other red currants." It has everything—size, quality, color, and productivity. It makes up into a sparkling bright red jelly. A Minn. introduction. Gurney's recommend it.

NEW LOW PRICES: Each 59c; 3 for \$1.59; 10 for \$4.39.

PERFECTION Currant

The One for Jelly

All of you folks will want some currant jelly for winter. Perfection Currant is the one to raise for good jelly. The berry is at least twice as large as the ordinary currant, and can produce twice the crop. Some of the Perfection in our Nursery are nearly as big as cherries and are borne in huge clusters.

Each 49c; 3 for \$1.29; 10 for \$3.39.

FAY'S PROLIFIC

The Large Prolific One

Large beautiful red currant. Very prolific, and of superior flavor. It is easily picked and bears a heavy crop at two years after planting.

Each, 49c; 3 for \$1.29; 10 for \$3.39.

About Gurney's Currants: Set currants 3 ft. apart each way. The varieties we list are fine for the northwest. Particularly want you to try the new Red Lake which is an extremely hardy, heavy bearing. If you plant Currants around the garden, put them in the corners or around the fence so they won't be in the way when you are doing your plowing.

FREE: 3 Red Rhubarb

ALL \$2.79

GURNEY'S RHUBARB

3 for 54c and up

The varieties of Rhubarb which we list are improved better strains—not the common old rhubarb that is green and stringy. Our two varieties are really the best. Plant plenty of Rhubarb, setting the plants about 3 ft. apart each way.

FLARE RHUBARB

The Heaviest Yielder

The big stalks with red base shading to pink and green, are beautiful in the garden, and when made up into red juicy sauce and pies, FLARE RHUBARB just "can't be beat." We have found it to be the most vigorous grower we have ever seen. Plant lots of Rhubarb. It is said, "an apple a day keeps the doctor away," and the same goes for this delicious "fruity" plant. Prices: Standard size, 3 for 69c; 5 for 89c; 12 for \$1.89. Extra heavy size, 3 for 84c; 5 for \$1.19; 12 for \$2.49.

GURNEY'S SEEDLING RHUBARB

This is the very early, heavy producing rhubarb, noted for its rich, tender stalks. Especially fine for sauce and pies. Rhubarb should be in every garden for health's sake. Plant this fine variety at a very low cost.

Standard Size 3 for 54c; 6 for 98c; 12 for \$1.59
Extra Heavy Size 3 for 74c; 6 for \$1.39; 12 for \$1.98

ASPARAGUS

25 Plants for Only 84c

MARY WASHINGTON ASPARAGUS

Tender, Rust Resistant

ASPARAGUS THAT MELTS IN YOUR MOUTH. Mary Washington is practically immune to rust which often kills other varieties. It keeps coming up fresh and tender for three months and does not get tough and old. The best of all varieties.

In every garden there is room for some ASPARAGUS. Plant yours now. Set them 1 1/2 feet apart. This is one of the vegetables that is very RICH IN MINERALS AND VITAMINS.

	Per 25	Per 50	Per 100	Per 500
1 year old Plants.....	\$0.84	\$1.59	\$2.98	\$13.75
2 year old Plants.....	1.10	1.98	3.79	17.00

PARADISE ASPARAGUS

Bears First Year!

A large, fast growing variety that not only can be used the 1st year after planting, but is sweeter, more tender, and much more prolific in growth than other varieties. Here is a new asparagus that looks like it may soon replace other varieties entirely.

PRICES: 1 year old Plants, 25 for \$1.10; 50 for \$2.09; 100 for \$3.98.

HORSERADISH

New Bohemian—Best of All

New Bohemian is the horseradish. We have discarded all other kinds because this is so far superior. It is hardy anywhere and is very desirable as a relish. Its roots are dug in early spring, grated fine, vinegar added and it is ready for use. On this variety, the roots grow larger, are whiter and the quality is far superior.

Heavy Crowns: 5 for 79c; 10 for \$1.39; 25 for \$2.98. Cuttings: 12 for 49c; 25 for 89c.

SAGE

Grow Your Own Seasoning

This easy to grow perennial will provide you with the seasoning you want to flavor the dressing for your fowl, sausage and other meats. Sage is so easy to grow there is no reason for not growing your own. A few plants will give you a season's supply even the first year planted. Plants are attractive enough to be grown right in your perennial border.

35c Each, 3 for 89c

Gurney's Hardy Selected APPLES

Grown on Hardy Siberian Baccata Root Stock

GURNEY'S *Low* APPLE PRICES

Apple and Crab Apples

The below prices are for genuine Gurney apple trees—all budded on hardy Baccata root-stock making the tree hardy for all the northern states as well as extra hardy for southern planters. You pay no more for these superior trees. Don't take a chance on stock that is not from a nursery like Gurney's that are specialists in HARDY trees.

	Each	3 Rate	5 Rate	10 Rate	25 Rate
3 to 4 ft.....	\$0.85	\$0.82	\$0.79	\$0.75	\$0.70
4 to 6 ft.....	1.05	1.02	.98	.94	.90
5 to 7 ft.....	1.25	1.20	1.17	1.14	1.10

NORTHERN APPLE TREES

Northern Growers should, by all means, order northern-grown trees. Gurney's Dakota-grown trees are hardier—not only from the climate but from the fact that they are all budded on hardy Baccata roots. This means everything to the man planting trees who wants a tree 20 years from now. Gurney's orchards are producing fruits 600 miles north of Yankton. Our trees are all extra-strong grade and no tree without a perfect root system is sent out to our customers. You do get better trees for less money at Gurney's.

How to Plant Apples

Set apple trees 25 to 35 feet apart. Peach trees can be used as fillers as they will die out before the apple trees are full grown. In setting your apple trees, prune them back severely. Northern orchards do better where the trees are grown more in a bush form. Trimming year after year tends to make the tree broad and spreading. The ground may be cultivated in the orchard and for a number of years you may plant small fruits in between the trees or a cover crop may be used.

Now!

5-in-1 Apples for the North

5 Hardy Northern Varieties of Apples on 1 Tree!!

Think of It!

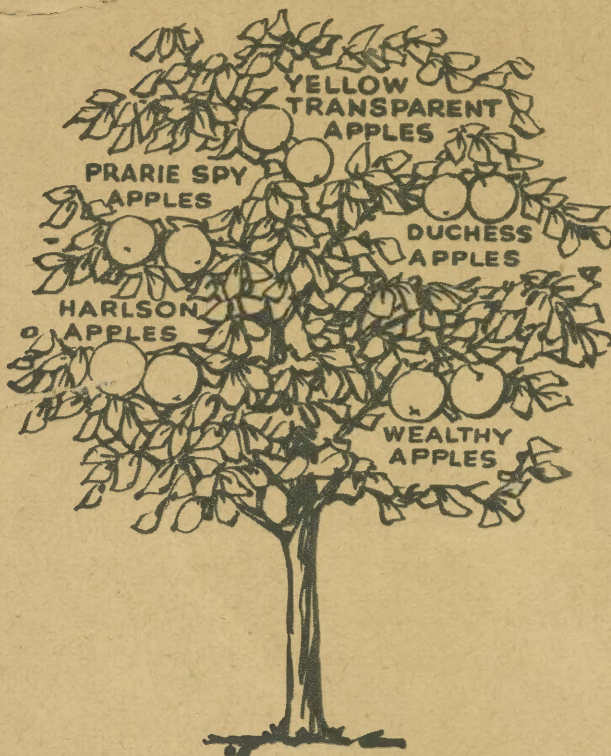

Think of having a tree in your yard that bears not 1 kind of apple, BUT 5 DIFFERENT KINDS. No yard is too small now to have many kinds of fruits—some of each of the fine varieties.

APPLES ALL SEASON

Even if you have only a small space for a fruit tree, you can have apples all season long—some coming on early, some mid-season and some late giving you apples for cooking and eating all season.

Now! Hardy Varieties

At last we have to offer a 5-in-one apple with all 5 varieties HARDY FROM THE NORTH! And each variety is a choice one in its own right.

5-in-1 Apple for the North

This 5-in-one apple will do well from Yankton NORTH. Varieties are: Red Duchess, Wealthy, Yellow Transparent, Prairie Spy and Haralson. Only few trees left.

\$2.89 Each

2 for \$4.98

3-in-1 \$1.98—2 for \$3.19

5-in-1 Apple for the South

This is the one to plant from Yankton SOUTH. Varieties are: Red Duchess, Yellow Transparent, Haralson, Wealthy, and Red Delicious.

\$2.89 Each

2 for \$4.98

3-in-1 \$1.98—2 for \$3.19

MANITOBA

OR Gurney's White Greening Juley Ivory White

This variety is a real discovery—a big juicy ivory-white apple. Has stood drouth and severe winters without injury. Vigorous upright grower.

Excellent for canning. Pear flavor and cans like a pear. If you want something different in apples, that is extra fine—here's the apple to plant.

Dark "All Red" DUCHESS

Best Summer Cooking Apple

If you like the Old Duchess of Oldenburg, you will go for the New Duchess in a Big Way. It ripens its juicy red fruit in August. For those delicious Apple Pies and Sauce, you'll find this New Duchess hard to beat. First degree of hardness.

EARLY HARVEST

For Both Eating and Cooking

This is the earliest ripening apple that is hardy in the Middle West. Ripens in July ahead of most other apples and at a time most of us are "hungry" for them. A yellow apple, good for cooking and eating, medium in size. For early apples, plant Early Harvest.

HARDY APPLE OFFER Giant 4 to 6 Foot Trees

These varieties grow well in the most Northern section. You'll have fruit the year around from this collection.

You get:
1 Anoka
1 Wealthy
1 Whitney
1 Haralson

Free—2 Hansen's Bush Cherry.

\$3.19

APPLE BARGAIN

All Season Quality Collection

Gives quality fruit all season. These varieties do well anywhere.

1 Duchess
1 Wealthy
1 Prairie Spy
1 Whitney

All big 3 to 4 ft. trees.

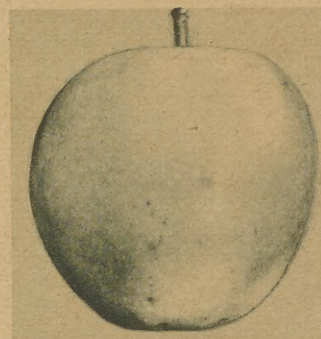

ALL FOUR ONLY

\$2.89

YELLOW DELICIOUS

Hardy Yellow' Winter Apple

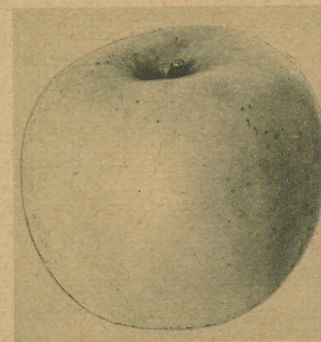

A luscious golden yellow, good keeping apple. Extra hardy on Siberian roots. It is not recommended for the North. It keeps well if you can keep folks away from it. It is DELICIOUS. Most popular yellow apple. Extra large.

Northwestern GREENING

Mammoth Beautiful Fruit

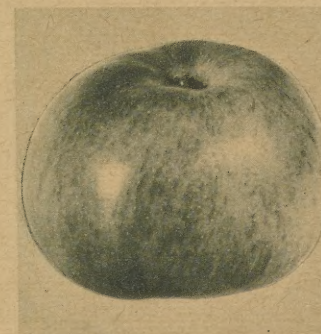

A very ATTRACTIVE winter apple, with smooth, waxy, clear pale yellow skin with a slight greenish tinge. The flesh is crisp and mild. One of the largest apples you can grow with apples measuring sometimes as large as 5" or more across. Very popular among people who know apples because of its good quality and good keeping ability.

McINTOSH RED

Proven in the Dakotas

Col. C. W. Gurney planted McIntosh Red on the home place in about 1900. These are the oldest trees in our orchard and are bearing heavy crops of dark red, fragrant, high quality apples each season. These trees are grown in bush form with branches to the ground. Drouth and cold weather have never affected them. We recommend the McIntosh Red.

**Two Hardest
NORTHERN
APPLES**

ANOKA

Often Bears First Year

Everybody plants Anoka. The earliest bearing apple. Little two-year old trees in the nursery often bear several of these red striped apples. The quality is good and the juice is rich in flavor. Anoka bears annually and is Extra Hardy. Medium size.

Northern APPLE Collection

2 Anoka
2 Haralson

Big 3' to 4' size

only \$2.98

HARALSON

Hardest of All Winter Apples

If I add up all of the good qualities of all of the other Apples and say "this is Haralson," I would not be saying too much for this big, red juicy fruit that keeps till summer, and is borne heavily and annually on a sturdy, strong branched tree. Bears fruit in three years.

Dark "ALL RED" DELICIOUS

Best Winter Apple

The name "Delicious" describes its QUALITY. It is "ALL RED" and Gurney's improvement by putting it on hardy Siberian roots makes it suitable for your orchard. The best of all eating apples. Large, red, with 5 points on base. You'll have to do a lot of cooking before you can find an apple that can equal this "ALL-RED" improvement on Delicious. Plant plenty of Gurney's Dark "ALL-RED."

Gurney's → WEALTHY

The Good Keeper

This is too well known to need description. You are all familiar with its yellow background and covering of red, its white juicy flesh; the fine pies that can be made from it. You should also know that Wealthy is hardy and a leader of commercial or Home Orchard Apples for the North. If picked early and properly stored will keep until Christmas.

JONATHAN Best All-Round Red Apple

The best winter Apple for every use. Red, juicy and "snappy" when eaten out of hand. Excellent baked or in pies, and it keeps well without special care. Many orchards are comprised principally of Jonathan as it is considered one of the standards by which other apples are judged.

YELLOW TRANSPARENT Early, Yellow Summer Apple

One of the earliest of the Harvest Apples. An excellent eating apple and "what apple pies you can make with it!" Bears immense crops of yellow thin-skinned apples just "tart" enough for the best sauce and pies.

PRAIRIE SPY Better Flavored Keeper

Attractive red color, very high quality, is productive, and hangs to the tree well. Because Prairie Spy is a good keeper and is so much better quality than Winesap and others on the market after Christmas, it is widely planted for home use and market.

The Crab Apples for Fruit and Beauty

There is nothing like beautiful crabs for a real display of bloom in early spring. The fruit makes wonderful butter and jelly, too.

WHITNEY

Our Favorite Crab Apple

A delicious Early Crab Apple when eaten fresh from the tree, and for pickling there is none to compare with Whitney. Large, sweet, juicy, colored yellow with lively red stripes. Hardy, vigorous and a heavy cropper. Order early.

Whitney Crab

DOLGO

Best Jelly Crab

This Crab is a beauty in flower, shape, and foliage, but its all red fruit is most beautiful of all. It makes up into a red jelly that has a flavor all its own, and you will like it. Fruits on two-year-old trees. Hardy.

Dolgo Crab

HOPA CRAB APPLE

Beautiful, upright growing tree covered with rose colored flowers in April. Fruit red inside and out. Big 3 ft. to 4 ft. size.

Hopa Crab

1 OF EACH COLLECTION

1 Whitney, 1 Hopa and 1 Dolgo,
ALL 3 big 3' to 4' size, only..... **\$2.29**

Gurney's Hardy PEARS

Hardy Understock Means Hardy Pears

Gurney's Pears are produced on hardy-northern understock which means longer-lived trees for you. Pears bear in a hurry and bear best crops, if you get Gurney's northern-grown trees. These grow upright and can be planted as close as 14 to 16 feet apart. At 16 feet it takes about 170 trees per acre.

GURNEY'S PEAR PRICES

	Each	3 Rate	5 Rate	10 Rate
2/3'.....	\$1.19	\$1.16	\$1.13	\$1.11
3/4'.....	1.39	1.36	1.33	1.30
4/6'.....	1.59	1.56	1.53	1.50

PEARS ARE VERY SCARCE ORDER EARLY

We list best size for transplanting and hardest of varieties. As easy or easier to grow as apples.

← LINCOLN—

Most Dependable

Large, good flavored. Has been producing heavy crop EVERY YEAR for 15 years on Geo. Gurney's farm. Ripens Sept. 15th. In big demand in markets. A good commercial variety.

The Giant BARTLETT

The Earliest Pear of All

Fanciest and finest of all pears. Rich golden yellow with rich pink blush. Good keeper, and shipper. Early. Pointed top and wide at base.

PETER PIPER

Produced Crop 20 Yrs. Straight

The name does remind one of the poem "Peter Piper Picked a Peck of Pickled Peppers," but this happens to be Pears we are talking about, and they're good for pickling and for eating; good sized, yellow, blight-proof pears, of excellent quality. We have trees over 20 years old which produce immense crops each year. Best variety for the Northwest.

PATTEN

This pear is healthy, hardy and productive. Bears a LARGE, YELLOW fruit with the RICHEST JUICE OF FINE FLAVOR. The skin is THIN, and QUALITY EXTRA GOOD. We recommend this pear to both northern and southern planters.

MING PEAR

Very hardy, blight resistant variety produced by Prof. Hansen. Early bearer. Rapid in growth. Fruit is high quality. Due to the extreme hardness of the tree you can grow this where you could not grow other fruit. Fruit medium sized. Excellent for eating, preserves or jam.

GURNEY'S PEAR BARGAIN

In this bargain collection, you get 1 each of the 3 hardest and heaviest bearing pears. All giant 3 to 4½-foot trees—the quick-bearing size. You get:

1 Lincoln Pear 1 Bartlett— 1 Kieffer— All **\$3.49**
Large, sweet, Fanciest and Hardy, Large, 3
juicy. finest. Heavy Bearer

Here's my brother Phil's grandson and some of the Pickwell Gooseberries he grew last summer in Rose, Nebr. Look close and you can see how thick the berries are on the bush. This bush was planted 3 years ago, and Phil says they canned 32 quarts last summer.

Who says they can't grow watermelons in the North? Here is ample proof to my mind. This picture was sent in by Herman Hinnenkamp, Rt. 1, Box 50, Metrose, Minnesota. He didn't say what variety he grew, nor whether these are his boys. Expect they are.

This is my good customer Herman Knock of Davis, South Dakota, in his Gurney Orchard. I think this is one of the Haralson apples I sent. Mrs. Knock says it was "an early producer and bears splendidly." Haralson is one of the best for the North.

"Dear Gurney's: These are my grandchildren. The cabbage was 11 1/4 lbs. and the onions each 1 lb. Thanks for your seed. We are very satisfied. Everybody admired the flowers, too."—Mrs. Gust Loetz, 3406 Noble Ave., Rt. 14, Minneapolis, Minn.

GURNEY'S HARDY, PRODUCTIVE

Headquarters for Plums

Gurney's have been headquarters in the northwest for Plums for over 70 years. Plums have been one of our specialties, and we believe we can grow them better. Our plums are budded on plum—not on peach. (Beware of southern plum trees for the northwest, as many of them are budded on peach and will not stand our climate. The plum itself is hardy enough but the peach roots will not be the type that will stand our condition.) Most varieties listed will grow any place in the Dakotas. If you want long lived hardy plums, order from Gurneys. Set 18 ft. apart, 130 trees to the acre. By the way, plums do extra well in the chicken yard. Here's a place where you can grow a lot of fruit and give shade to the chickens, and use up land that otherwise would not be producing anything.

Four Hardy Hansen Varieties

KAGA

"The Apricot Flavored Plum"

A deliciously flavored plum, fragrantly appetizing. Medium size, heavy producer, and bears in ONE YEAR after planting. Hardy like all of Hansen's hardy introductions. The flavor of this plum is the nearest to an apricot you could find.

KOTA PLUM

The One With the Spicy Apricot Flavor

Extremely vigorous and hardy. Productive. Firm flesh. One of the most delicious plums that grows. Very fragrant. Spicy apricot flavor. Deep red when ripe. Excellent for canning.

AMERICAN PLUM

TERRY

One of Largest—Good Pollinizer

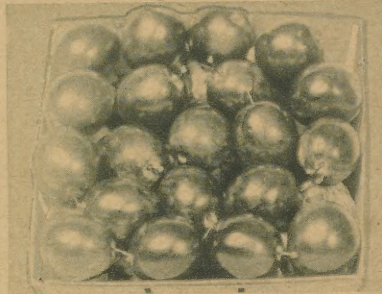

One of the largest Pure American Plums, dark red, of the very best quality; tree vigorous, healthy, hardy, and productive. A good pollinizer. Stands near the top of the list.

OKA Plum-Cherry

The Heavy Bearer

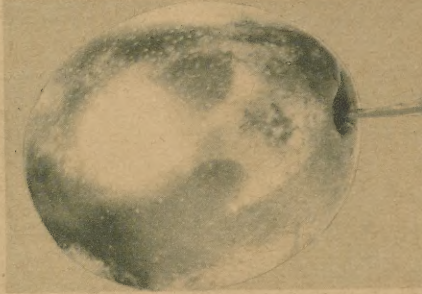

Almost black, juicy fruit, big Cherries, heavy production and extra hardy—that describes the Oka Cherry. It's hardy anywhere in the Middle Northwest. Oka will dry like a prune and can be kept and used like prunes. Plant lots of Oka; you'll find it profitable. Available in 3-4 ft. only.

TECUMSEH

Extra Hardy—Long Lived

Introduced by Dr. Hansen in 1918. Really one of the very best Hansens. Sweet, aromatic, of good size, firm, excellent in quality, this red Plum should be in your order this year. Often bears 1st year after planting. Rich dark red. Hardy in the far north and extra early.

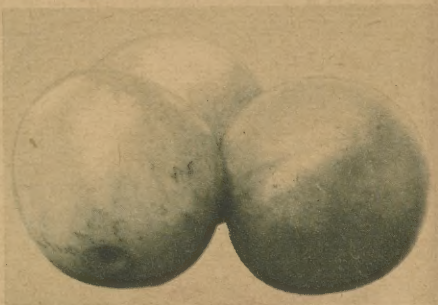

OMAHA PLUM

It Lengthens Plum Season by 10 Days

A good sized, high quality, red plum tree. Hardy, vigorous, producing heavy crop each year. Ripens later than other varieties. Just what you need to lengthen your plum season ten days.

MINNESOTA'S BEST PRODUCTION

UNDERWOOD

Bears in Canada!

This plum is the right type for the Northern States and Canada. It ripens early and grows well in North Dakota and even as far North as Winnipeg in Manitoba. It is really a splendid plum, the fruit is very large, red, sweet and juicy. It is of fine quality and is entirely hardy.

PIPESTONE PLUM

High Quality Red One

Here is a new Minnesota variety you should have. Extra large, high quality red plum. Excellent for preserving, canning and eating fresh. Makes a large, strong, hardy tree that does well under most conditions.

NORTHERN PLUMS

Professor Hansen's FAMOUS HARDY HYBRID PLUMS

- Hardy
- Bear Young
- Very Prolific

WANETA

Biggest Red Hardy Hansen Variety

Big, profitable crops from Waneta Plums. Prof. Hansen's "Masterpiece." Truly a delicious plum. It is an old favorite, one of Professor Hansen's most popular. The fruit is large and a gorgeous reddish-purple color. Waneta is of the finest quality. The flesh is tender, sweet and juicy. A sure bearer every year. One of the best of all market plums, plant at least an acre (130 trees). Perfectly Hardy.

SUPERIOR

One of the Best

This big plum will surprise you by bearing loads of fruit the first year after you plant the tree. Great clusters of big yellowish fruits appear; they gradually turn pink, then red. You can peel it like a peach, and, like a peach, you'll like it. It really is a "Peach of a Plum." Hardy.

↑ OPATÁ

The Early Bearing Plum

The earliest of the Hansen Hybrids, Opatá bears its ropes of fruit and ripens them in mid-July. A juicy, tangy plum of medium size. Extra hardy and bears in one year after planting.

SAPA →

The Rich Black Sweet One

This plum is black when ripe. Black outside and clear to the pit. It has a sweet flavor you can't forget and bears immense quantities annually. Ripe the latter part of July. Can't be beat in the hardy group. Bears the first year after planting. Best of all, it's extremely hardy.

A Word About Hansen's Hardy Plums

Prof. N. E. Hansen of the South Dakota State College has spent a lifetime developing hardy plants for the north. Working with hardy fruits and plants he gathered in the cold wastes of Siberia and Russia, he developed and crossed them with the large-fruited American trees over a period of several decades until he produced heavy bearing trees of good quality fruit **HARDY ENOUGH TO BE PLANTED ANYWHERE IN THE NORTH.**

Like Burbank worked on fruits for the south, Hansen is the Burbank of the NORTH developing Hardy fruits of good quality. In fact, he is claimed to be the greatest living plant breeder.

The hardy hybrid plums on this page are just one sample of the results of his years of intensive breeding work. These are hybrids he has made, and are some of the finest **HARDY** plums in the country. No one in the north (or south for that matter) can go wrong planting these wonderful hybrid plums.

KAHINTA

Big Juicy Flavored

A big Red Hansen Hardy Plum, juicy yet firm. A "sister" to Waneta, Kahinta compares favorably with that Masterpiece in size, quality and bearing ability. **VERY HARDY.** Like all famous Hansen varieties bears very young.

GURNEY'S COLLECTION of FINE PLUMS

Big size, quick bearing, strong trees.

- 1 Waneta 4-6 ft.
- 1 Sapa 4-6 ft.
- 1 Opatá 4-6 ft.

All for

\$4⁶⁹

PEACHES

We are listing the hardiest varieties of peaches. These varieties will produce fruit as far North as any peaches you can plant. The trees are strong, 2-yr.-old Northern grown for Northern planters.

Elberta
Favorite of
All!

J. H. HALE

A fine peach and one of the hardiest of the lot. Equal to Elberta in popularity this large yellow free-stone will produce a heavy crop of high quality. Hardy south of Yankton.

POLLY

Stands 15° Below

This comes closest to being a **HARDY** Peach. It has stood temperatures as low as 15° BELOW ZERO. Besides, **POLLY** PEACH has a wonderful flavor, produces abundantly, and is outstanding even in peach-growing sections. Plant **POLLY** the **HARDIEST** PEACH.

ELBERTA

"Daddy" of 'Em All

This is the standard market peach. Fruit is very large, yellow, freestone. Flesh is tender and skin firm, which makes it an excellent shipping peach. Ripens first week in September. Flesh turns to deep red near the pit. Good canning variety.

GURNEY'S LOW PEACH PRICES

	Each	3 Rate	5 Rate	10 Rate
2 to 3 ft.	67c	64c	59c	54c
3 to 4 ft.	90c	87c	82c	77c

PROTECT YOUR ORCHARD

Nearly all varieties of fruits and small fruits do better when planted on the east, north or northeast slope. Where you do not have such a slope, it is advisable to give it good wind-break on the south and west side of the planting. The north and east are not so important. The windbreak should be far enough away from the orchard so that snow will not drift in and damage the trees. For fruit trees, we advise the Pine and Spruce evergreens planted in connection with such hardy trees as Elm, Ash, Hackberry, Caragana and Russian Olive and also many other good varieties of trees listed in our catalog at low prices.

GURNEY'S HARDY APRICOTS

Our varieties of Apricots are those that will bear in the northwest. They're northern grown, budded on hardy root-stocks and will give you results. Plant lots of apricots. The varieties we have are excellent for either cooking or eating. Apricots also make a beautiful ornament in the lawn. Previous to the introduction of these hardy varieties, apricots could not be grown in the Dakotas but now can be and successfully. Set 16 to 20 feet apart.

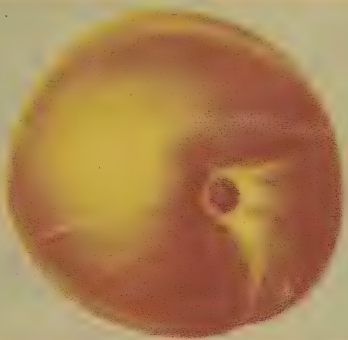

MANCHU APRICOT

Largest of Hansen's Hardies

Manchu is the largest Apricot that we offer and it really is excellent. Trees are very productive. Fruit is large and a lemon-yellow color. Cooks up into a fine-flavored, pale yellow sauce. Excellent to eat from trees.

3-4 ft. **\$1.98 Each**

Dr. Hansen's Apricots listed are the extremely hardy Manchurian introductions. They are excellent for cooking as well as eating fresh from the trees. The trees are beautiful and make an excellent ornamental. Since the introduction of these hardy trees North and South Dakota can produce their own apricots. Trees are rapid growing. If you have been unsuccessful in growing apricots in the past, plant the Manchurian varieties and you will be more than pleased with the results. These ripen between cherries and peaches when fresh fruit is needed.

SUPERB APRICOT

A delicious, sweet apricot for your own planting. It has a luscious flavor you get in no other fruit. Eat right off the tree. Ripens between cherries and peaches. Hardy south of here.

3-4 ft. **\$1.50 Each**

MOORPARK (Freestone)

Mild sweet flesh, dryer than peaches and easier to keep. Big, juicy, full-flavored apricot just right for canning and drying. Also one of the finest dessert varieties. Fuzzless skin. Ripens to a beautiful orange, both skin and flesh. Perfectly freestone. Trees hardy and thrifty as peach trees. Plant two or more for a good set of fruit.

3-4 ft. **\$1.49 Each**

Gurney's Hardy NATIVE FRUITS

CHOKE CHERRY

A beautiful ornamental with spicy fragrant flowers produced like great banks of snow. Later come the great clusters of purplish black cherries. Be sure to have these nursery grown Choke Cherries in your yard or windbreak.

Size	Each	Per 5	Per 10
2-4 ft.....	29c	\$1.39	\$2.60

WILD BLACK CHERRY

This is a very gorgeous tree. It bears flowers in large white clusters in early spring and then in August it bears a great abundance of edible fruit. It is hardy, rapid grower, and makes a large tree.

Size	Each	Per 5	Per 10
1 yr. Seedlings	20c	60c	\$1.00

BUFFALO BERRY

Jelly from Buffalo Berries is extra Delicious and Different. A hardy native bush fruit that everyone should grow. Plant a hedge of Buffalo Berry for fruit and beauty. Silvery leaves with Ropes of bright Berries. For HEDGES it is the nearest thing to the famous BOXWOOD. Nursery grown.

Size	Ea.	Per 10	Per 25
2-4 ft. Transplants	49c	\$4.49	\$9.98

BEST KNOWN HYBRID PLUM-CHERRY

COMPASS—This is a well known, hardy, early bearing cherry-plum cross. Will produce a heavy crop the second year of bright red fruit. Will grow and bear anywhere. Perfect for jams and jellies and excellent for eating fresh from trees.

Size	Each	3	5	10
3-4 ft....	\$1.44	\$1.41	\$1.38	\$1.33
4-6 ft....	1.69	1.66	1.63	1.58

SAND CHERRY

Another good bush fruit that makes an excellent ornamental or hedge. The fruit is good for canning or sauce; or to eat from the bush. It is a strong grower and perfectly hardy. Drouth resistant and the GRASSHOPPERS leave it alone. Sand cherry will produce heavy crop year after planting.

STRONG PLANTS
2 for 39c; 10 for \$1.59; 25 for \$3.29.

MOTHER GURNEY'S Everbearing Mulberry

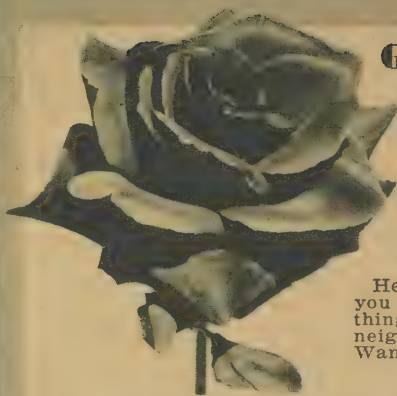

The "Mother Tree," a variety of the Russian Mulberry, has been growing for many years here at Yankton. It has a long season of fruiting, beginning early in July and continuing to ripen big, luscious, black fruits all summer. The fruit is excellent for canning, jams, jelly or eating from hand. The tree is a fast grower and should appear in all windbreaks. Plant a Mulberry hedge. When Mulberries are planted around orchards the birds will do much less damage to other fruit.

Gurney's NURSERY SPECIALS for 1946

Here are four real specials for 1946 that I want you to try. They're all brand new. The kind of things that are really talked about by the neighbors when they see them in the garden. Want you to try them.

Geo. Gurney.

George W. Gurney Rose

Named in honor of our president, George W. Gurney. A strong growing, very double, deep blood-red rose. One of the finest red roses we have ever seen. We have a stock of sturdy two year old plants which will give satisfaction wherever tea roses can be planted. They will bloom heavily the first year from June through to freezing. The flower holds its color and shape for days. It has a deep rich fragrance. Only a few this year, so not more than 3 to a customer.

Price: \$1.10 each; 3 for \$2.98.

PINK BALLOON FLOWER

Outstanding New Platycodon

The outstanding new perennial introduction for the year. Never before, to our knowledge, has there been offered a balloon flower of this color—a beautiful clear shell pink. You who have grown the well-known blue and white varieties of Balloon Flower know that this plant is a prolific bloomer bearing blossoms from June until freezing weather, is extremely hardy, and will grow 'most anywhere and under most conditions. It likes good soil, and plenty of sunshine, but will grow anywhere there is not standing water to rot the fleshy roots. It grows about 18 inches high, flowers are about 2 inches across, makes a grand cut flower and combination with Blue Delphiniums and many other flowers. Be the first to grow this brand-new hardy perennial in your town. Price: 75c each; 2 for \$1.39, postpaid.

GURNEY'S NEW HARDY STRAWBERRY (Minnesota 1166—Evermore)

This is absolutely the best Strawberry we know of for the Dakotas. It is everbearing, absolutely hardy, a vigorous grower, makes a tremendous amount of plants and bears in abundance—both in the spring and throughout the summer and fall. Berries are fragrant and sweet, having somewhat the flavor of the wild strawberry, are of good size and are borne in large clusters. You will often see blooms, green berries and ripe berries on the same clusters. We think you will get more for your money out of this new berry than any strawberry now on the market.

Price: 25 for \$2.10; 50 for \$3.65; 100 for \$5.98, postpaid.

Grow Your Own
Just Like This

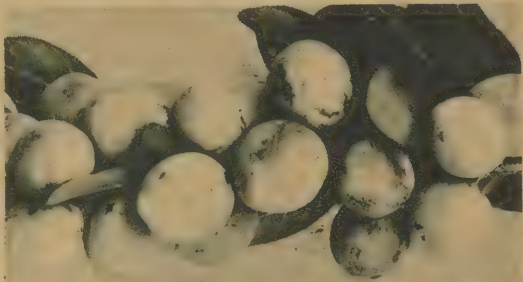

Gurney's Hardy CHERRIES

It Pays to Buy from a Northern Grower

The varieties of cherries listed in our catalog are those that do best in the midwest and northwest and we are very particular in our choice of the sorts we offer. All are extra heavy rooted, well branched, and will soon be producing good crops for you.

The production of cherry trees has been away below normal this year because there isn't anyone much left around the country to grow them. Therefore we are asking that you get your orders in early because it's absolutely going to be "first come, first served" this year and some of you folks who wait too long may get your money back and no cherry tree. We don't like to do this, but once the cherries are gone we have no other choice.

We want you to note the big fat caliper (the circumference of the tree at the butt). It seems the trees grew shorter but thicker this year. We always like a good stout trunk on a tree ourselves and we think perhaps you'll like these

trees even better than the usual ones—they look and are so sturdy.

Our cherries are always budded on a hardy understock to give a long-lived, heavy bearing tree.

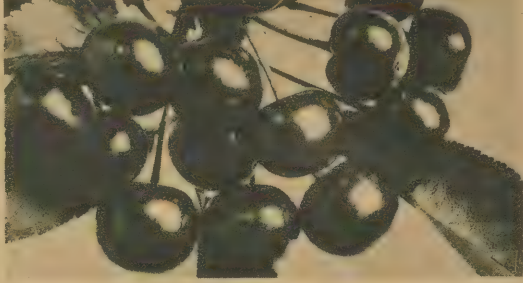

Set your trees 18 feet apart, each way, or 130 trees to the acre. Keep the ground around them cultivated if you can, but cherries are one fruit that will do very well, even when surrounded by a heavy sod.

ENGLISH MORELLO

The Late Rich Black

Ripens in late July when other Cherries are gone. Almost black in color, of good size, and a tangy, tart flavor, making it excellent for pies and canning. It bears young and heavy.

BLACK TARTARIAN

The Large Black Sweet One

Here is a Cherry that you will want. It is the fairly hardy, large black delicious sweet cherry. Harvest quantities of fruit of the most delicious quality. Every orchard should have some of these. Add 20c per tree more than regular Cherry prices.

**Plant
GURNEY-
GROWN**

GRAPES

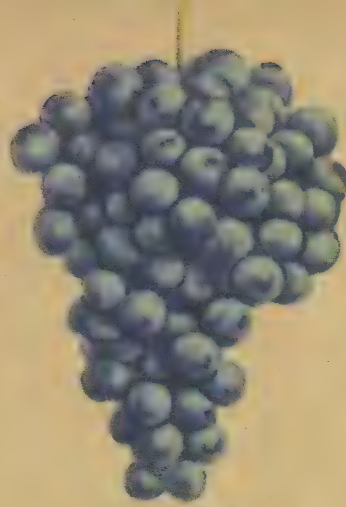

All are strong heavy plants that give quick results. They are well rooted and will please you. The varieties listed are the hardiest. They can be grown on a fence or an arbor, or in a vineyard. Plant about 5 to 8 ft. apart in rows 6 ft. apart. In planting cut the tops back to 3 to 4 buds, and prune the roots off about one-third. You will have better results this way. You don't need to put up a support for grapes until the second year if you do not wish to do so. Prune each year.

THESE GRAPES can be grown anywhere in the Middle Northwest. They are all exceptionally hardy and with very little attention have wintered the most severe conditions that have ever been produced in this part of the country. All they require is a light covering in winter to protect the new buds. . . . With that, Gurney Grapevines have produced Heavy Crops of HIGH QUALITY GRAPES—a sure crop each season.

WHITE NIAGARA

Niagara is the leading favorite in white grapes because the large fruit has such a delightful flavor. The vine is hardy and extremely productive.
2 for 69c; 4 for \$1.29; 8 for \$2.50; 12 for \$3.60; 25 for \$7.29.

CONCORD

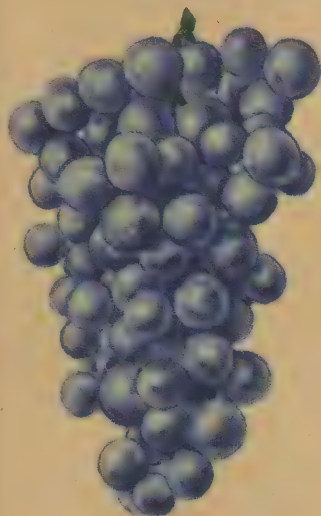

America's Most Popular

Your garden will not be complete without CONCORD. The Concord has become the most popular grape in the United States. It matures early, keeps well, ships well, and sells well. The berries are in enormous bunches and are blue-black, juicy and delicious. Great for grape juice.
2 for 49c; 4 for 89c; 8 for \$1.70; 12 for \$2.45; 25 for \$3.98; 100 for \$12.98.

RED DELAWARE

The Delaware's berries are rather small, juicy, and sweet. The bunches are compact and make a grand table grape. They are in all probability one of the finest American grapes. The berries are a red color and have a very spicy flavor.
2 for 69c; 4 for \$1.29; 8 for \$2.50; 12 for \$3.60; 25 for \$7.29.

BETA

Best Grape for Northwest

Here is a tame GRAPE with the TANG OF THE WILD. This is a good grape for the North, for it is fast (15 to 20 ft. in 1 yr.) in growth and hardiest of all. It produces large quantities of fruit of GOOD QUALITY . . . ALMOST BLACK JUICY . . . FINE FOR ARBORS. No winter covering needed.
2 for 69c; 4 for \$1.29; 8 for \$2.50; 12 for \$3.60; 25 for \$7.29.

CACO

Big Clusters

The sure crop red grape. Big clusters of rich red grapes bears in hottest summers. Makes most beautiful jelly. As Concord is the most popular of the blue black grapes, so Caco is the most popular of the red grapes.
2 for 69c; 4 for \$1.29; 8 for \$2.50; 12 for \$3.60; 25 for \$7.29.

Gurney's Red, White and Blue Grape Collection

1 Beta—Blue-Black
3 Concord—Blue
1 Niagara—White
1 Delaware—Red
6 CHOICE GRAPES \$1.49 FOR ONLY

Concord Bargain

10 Big Concord Vines—Enough for plenty of Canning, Jelly, Grape Juice and Wine

ALL FOR \$1.69

FREE GIFT: 1 fine hardy good flavored Beta Grape

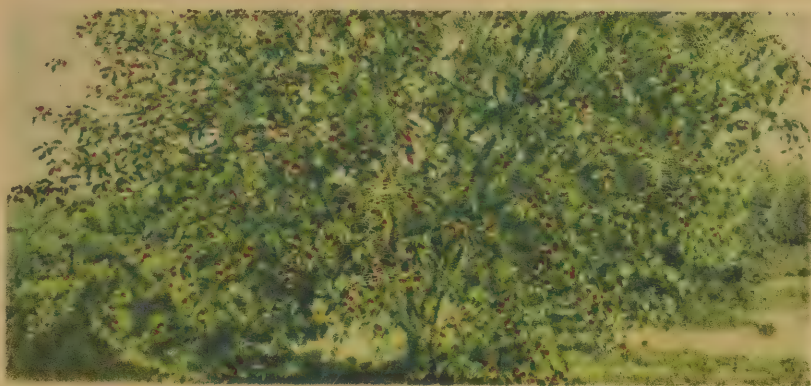

FREDONIA

THIS is the KING OF BLACK GRAPES. It is early, in fact, three weeks earlier than Concord, very hardy, a very heavy producer and a vigorous grower. The bunches are compact and the berries really have the most wonderful flavor.
2 for 69c; 4 for \$1.29; 8 for \$2.50; 12 for \$3.60; 25 for \$7.29.

PORTLAND

Holds first place among grapes as an early green variety for the market. Outstanding as a vigorous, hardy and highly productive vine. Both berries and bunches are larger than any other early green grape. 2 for 69c; 4 for \$1.29; 8 for \$2.50; 12 for \$3.60; 25 for \$7.29.

CORONATION CHERRY

New—Hardy—Better

Here is a cherry hardy enough to make it profitable for our South Dakota planters to grow a fine cherry. Good anywhere. A very large cherry of high quality. Bears early. Fine for jelly or for eating off the tree. If you are a northern planter, and can choose but one tree—choose Coronation. Strong Trees—Each \$1.98; 2 for \$3.75.

EARLY RICHMOND

The Early Pie Cherry

Try the EARLY RICHMOND, we know you will like it. The cherries have a bright red skin and red juicy flesh. The flavor is quite tart, marvelous for pies or canning. It is a strong grower and a heavy producer. You people south of Southern Minnesota and central So. Dakota have ideal conditions for Pie Cherries. Order Gurney's Early Richmond, we are sure you won't regret it.

MONTMORENCY

The World's Best Cherry

Here is the most widely planted Cherry. What everyone likes must be good. The fruit is large with firm flesh, of fine flavor. The cherry is a bright red, very handsome and wonderful for canning and preserves.

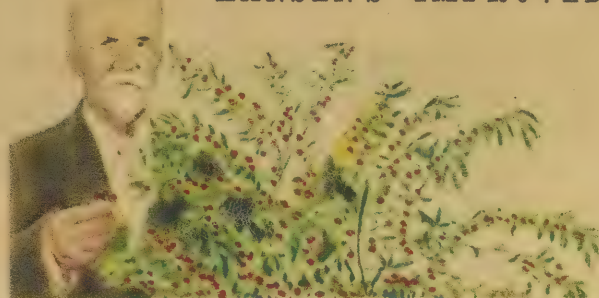

GOLDEN SWEET

Our Hardest Sweet Cherry—Birds Won't Touch!

Here's a real treat—a sweet cherry with fruit that birds won't bother. Absolutely loaded with beautiful golden cherries that are SWEET and juicy and delicious. Every yard should have several cherry trees, and whenever planted one of the first to plant is this unusually fine cherry. Not hardy in the Dakotas. Strong trees—Ea. \$1.98; 2 for \$3.75

HANSEN'S IMPROVED BUSH CHERRY

The Improved Bush Cherry

This is the improved strain of the original Hansen's hardy dwarf Bush Cherry. It's really a miracle plant. Grows like a bush from 4 to 5 feet high, makes a beautiful ornamental shrub, for landscape planting, especially in the spring when it is covered with blooms from one

end of the branches to the other. In fact, it's one of the most gorgeous sights in the spring. And, best of all, it yields almost as much fruit as a plum tree and there's no waiting for it. Bears large clusters of sweet cherries (shaped like plums) the first year, after planting.

GOOD EATING AND HARDY

This improved strain is better eating than ever, either fresh, canned or in preserves. Very hardy too. Plant 3 to 4 ft. apart. Price: 12/18 inch plants, 24c; 3 for 69c; 18/24 inch plants, 34c each; 3 for 79c.

2 Flowering Shrub Cherries

PRUNUS JAPONICA Flowering Shrub Cherry

This Cherry grows in bush form, rich foliage, narrow leaves, fine branched. Covered with beautiful cherry flowers in spring. Produces an abundance of bright red cherries that are excellent for pies, canning, preserves, etc. They may be planted in groupings along the border of your yard or as a foundation planting.

18 to 24 in., 59c; 3 for \$1.49. 2 to 3 ft., 69c; 3 for \$1.75.

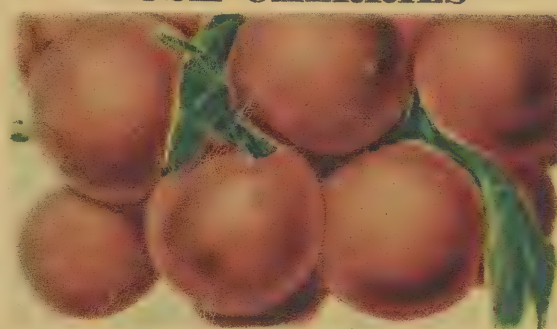

NANKING CHERRY

Both Fruit and Flowers

A FLOWERING CHERRY that is a tree or bush that will charm and delight you. It is beautiful with showy blooms all along the branches. Fruit is attractive red, juicy and delicious. Size about 1/2 inch. Good for pie or canning.

1 yr. 2-3'—59c Each; 3 for \$1.69
1 yr. 3-4'—79c Each; 3 for \$2.19

Prof. Hansen's Selected Large Fruiting BUSH CHERRIES

These are selected Bush Cherries introduced by Dr. N. E. Hansen. Plant at least 50 or 100 in rows where they can be cultivated and you will be amazed at the heavy yield of good fruit; drought resistant.

	Each	3	5	10	25	50	100

GOLDEN FLOWERING CURRANT

A large spreading, extremely hardy, drought resistant shrub, entirely covered with golden yellow flowers in the spring, followed by quantities of shiny black currants that are excellent for eating fresh or for canning. Does well in sun and shade. An excellent landscape shrub.

2-3'—39c Each; 5 for \$1.75.

Gurney Customers Are Proud of Their Gardens

Gurney Seed & Nursery Co.
Yankton, S. Dak.

Dear Sir:

Here is a picture of my grandson, Larry Dale Mock, 4 years old, and a watermelon I raised from your mixed seed last year. It weighed 40 lbs. Have always been more than satisfied with Gurney seeds.

E. C. MOCK,
Arapahoe, Nebr.

Dear Sirs:

I'm enclosing a snapshot which will give you an idea of how Gurney strawberry plants produced in Northern Minnesota.

These plants were set out 3 years ago and I sure have gotten my money out of them. We always depend on Gurney's for our seeds and nursery stock.

MRS. JOSEPH PELLIKKA,
Rt. 2, Box 208,
Menahga, Minn.

Dear Gurney's:

This is my daughter feeding the little orphan pig we raised on a bottle. We are users of your seed and always have a good word to say for your company. We find your seeds and shrubs satisfactory in every way.

MRS. L. R. SONNENBERG, Box 385, Donnybrook, N. D.

Dear Gurney's:

About 3 years ago I purchased some glad bulbs from you and they were simply gorgeous. They are shown in the picture, taken in our backyard. Also in the picture, besides myself and the Mrs., is my daughter Esther. I have bought and planted a lot of your seeds and nursery stock.

LOUIS UECKER,
1006 So. 4th,
Norfolk, Nebr.

Dear Mr. Gurney:

I am sending a picture of my son, who is in the Marine Corps. He was home on furlough in July, but is now on duty in the South Pacific, and has been in action for many months. The flower bed where he is standing is all petunias. It sure was beautiful and of course the seed came from you.

MRS. HARRY E. WEINER,
Geneva, Iowa.

Dear Gurneys:

This picture was taken at canning time and shows Marvin, 15, with an armful of beets, Ardella, 7, with carrots, Donna with the first melon, and myself with a pail of cucumbers and a cabbage. All was raised from Gurney seeds. All four of us worked in the garden and can truly say we had a big and wonderful one.

MRS. FRED KAMM & FAMILY, Rt. 1, Box 1, Leola, So. Dakota.

GURNEY'S BEANS

Burpee's Stringless
Green Pod
- 1 Pkt., 3 oz.
Improved Golden
Wax Beans

All for **24c**
Postpaid

Plant lots of Beans this year. 5 or 6 pounds aren't too many for a small family. A pound will plant 2 rows, 50 feet long. Cover beans about 2 inches. Space rows 20 to 30 inches apart in rich warm soil. Make first planting when severe frost danger is past. Make more plantings every two weeks.

And remember to buy a few extra pounds of beans when you send your order. Beans are the **WORLD'S CHAMPION "FILL-IN" CROP**. Wherever an early crop like radishes or lettuce is done with the ground, put in another row of beans. Beans like hot weather and this way you use your garden double and **GET 2 CROPS OFF** the same space.

INOCULATE ALL BEANS

Be sure to inoculate all beans, peas and sweet peas. **LEGUME AID** inoculation will help you get bigger yields and faster growth. It just takes a minute to dust the seed—no trouble at all. A 10c packet is enough for 5 lbs. of seed. Full directions on the packet. **LEGUME AID 10c per packet, postpaid.**

HOPI INDIAN LIMA Drought Resistant

135—(71 days)—This bean originated with the Hopi Indians in the Southwest. They have been growing it for centuries there on poor, rocky soil. It does unusually well here in the middle states, a very vigorous grower, has a typical Lima flavor, a heavy yielder, bears over a long period of time. Plant it on a trellis or fence or plant it with corn. Does exceptionally well on poor soil.

Price, Triple size packet, 15c; ½ lb., 26c; 1 lb., 45c; 3 lbs., \$1.10, postpaid.

FORDHOOK BUSH LIMA

The Early Big Bush Lima

126—(75 days to maturity)—The very best large seeded variety. The pods, which are produced in large clusters, are about 5 inches long, each containing four to five large beans of exceptionally fine quality. Grows very upright holding beans out of the dirt which is very helpful when it comes to shelling them.

Triple size pkt., 12c; ½ lb., 28c; 1 lb., 48c; 3 lbs., \$1.09. All Postpaid.

IMPROVED HENDERSON BUSH LIMA

or BABY LIMA Most Dependable Lima

127—(65 days to maturity)—These beans are produced on a small, bushy plant with many large clusters of pods which are filled with medium size flat beans. This bean is very early and is very productive. They are delicious either as a snap or dried bean.

Triple size pkt., 10c; ½ lb., 25c; 1 lb., 42c; 3 lbs., \$1.05. All Postpaid

GURNEY'S

For years we have been experimenting with many varieties of tomatoes. As you probably know it takes a pretty good tomato to grow successful crops up here in the Northern States. We have no hesitancy in saying any tomatoes listed in the Gurney catalog will make successful crops for you in either of the Dakotas or in the surrounding states. When you buy tomatoes from Gurney's you are buying the very best.

We have tried hundreds of different varieties and have selected only those that are well suited to this general territory every one of which is dependable and will give you a maximum of the best well fleshed tomatoes.

Because of our short seasons you should start the tomato seedlings in the house, in the hot bed or in a cold frame real early. Have good vigorous stocky plants ready to start blooming when frost danger is over. Tomatoes like reasonably rich soil but don't fertilize them too heavily. If your garden is exposed to hot southwest winds be sure to plant your tomatoes on the protected side. Plant them on the north or east side of corn, castor beans or buildings. This will help insure maximum crop.

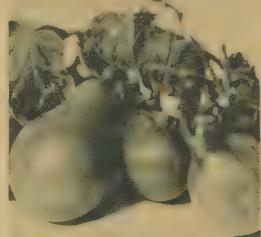

One packet of seed is generally enough for plants for one hundred feet of row. One ounce of seed should grow 2,000 plants if you have good luck with them. You will find complete culture printed on the packets.

← YELLOW PEAR

For Preserves and Sauce

419—If you want delicious preserves, plant this bright yellow, pear shaped tomato. Yeager's Yellow Pear is fully 2 weeks earlier than the common Yellow Pear and yields immense crops.

Pkt., 10c; ½ oz., 25c; 1 oz., 40c. All Postpaid.

SCARLET TOPPER or PRITCHARD

The Perfect Canner

423—A tomato with very small seed cavities and no core. Its productiveness is amazing, individual plants will sometimes produce nearly a bushel of fruit. It is medium early. The tomatoes are large globe shaped, smooth and of an intense scarlet color. Every time we sell a package of Scarlet Topper we make a friend.

Pkt., 5c; ½ oz., 25c; 1 oz., 40c. All Postpaid.

← ALL STATE

Produces When Others Fail

407—From NORTH-EAST NORTH DAKOTA, MONTANA, MINNESOTA and WISCONSIN with their short growing season, down through SOUTH DAKOTA, IOWA, and NEBRASKA, you will find THIS WONDERFUL NEW TOMATO IS BETTER than the variety you have been raising. The smooth red Tomatoes are as early as Bison or Earlbelle, and NEARLY TWICE AS LARGE.

Pkt. 15c. Postpaid.

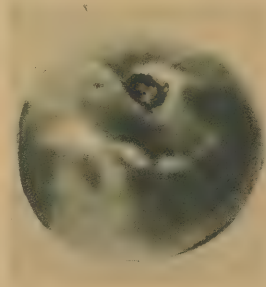

← PONDEROSA

Biggest of All

418—The largest tomato grown, often producing fruit weighing 2 pounds or more. The immense tomatoes are flat, nearly solid, and of a delightfully mild flavor. It is one of the best for slicing or canning. Ponderosa is a heavy yielder and ripens after the early varieties.

Pkt., 10c; ½ oz., 30c; 1 oz., 50c. All Postpaid.

← NEW TENDERGREEN

The Dark-Green Canner

106—An entirely new green podded bush bean, enormously prolific, entirely stringless, and bearing a profusion of finely flavored beans that are more tender than those of any other variety. The pods of Tendergreen are long and round, a lovely dark green in color, absolutely free from strings and fibre, and are of the finest eating qualities. Plants are of strong upright dwarf growth. Tendergreen is a bean of real merit, combining productiveness and hardiness with the highest quality, and we urge a generous planting. Splendid for canning. Matures in 55 days.

Triple size pkt., 10c; ½ lb., 26c; 1 lb., 45c; 3 lbs., \$1.12. All Postpaid.

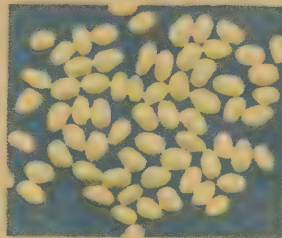

← BURPEE'S STRINGLESS GREEN POD

Drought and Heat Resistant

107—(50 days). This extra early dwarf green pod bean is a very heavy bearer. The medium size, meaty, green pods are absolutely stringless, of high quality, and excellent flavor. Besides their other good qualities, they will stand more drouth than any other variety. The seed is dark brown.

Triple size pkt., 10c; ½ lb., 24c; 1 lb., 43c; 3 lbs., \$1.05. All Postpaid.

DRY BEANS

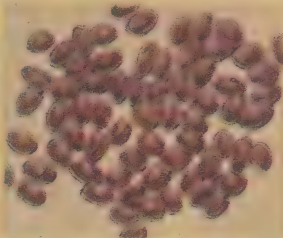

NAVY BEAN

The Small Soup Bean

102—Best yielder of any of the dry or soup beans. Erect bushes keep pod off damp ground. Long uniform pods. Raise a lot. They'll keep 'til you need them.

Triple size pkt., 10c; ½ lb., 19c; 1 lb., 33c; 3 lbs., 80c. All Postpaid.

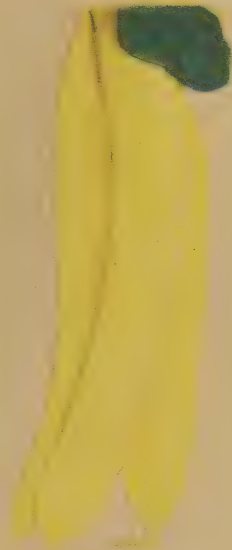

RED KIDNEY

For Baking or Soup

123—This is the RED soup bean, similar to the Navy except for color. Easy to grow and a very heavy yielder of large, dark red, dry beans. Ideal for baking or soup. Triple size pkt., 10c; ½ lb., 18c; 1 lb., 33c; 3 lbs., 80c. All Postpaid.

Remember These Points About Bean Planting
1. To help prevent rust, don't pick beans when plants are wet or damp.
2. To combat bugs and disease, use Gurney's BUG DUST regularly.

IMPROVED GOLDEN WAX Heavy Yielder—Good Canner

116—(52 days days to maturity)—This extra early wax bean is one of the best for the home garden. The long, straight, waxy yellow pods are absolutely stringless. They are heavy bearers of delicious quality beans, which are excellent for canning or pickles. The seed is white, mottled with red and purple.

Triple size pkt., 10c; ½ lb., 27c; 1 lb., 48c; 3 lbs., \$1.15. All Postpaid.

Everbearing Wax Rustproof Bush Bean Disease Resistant

112—This bean only takes 55 days to mature. Very best for canning and are also the most excellent, tasty beans you have ever eaten when used fresh as string or snap beans. The plants are very large, practically rust-proof, and bear enormous crops of beautiful long yellow pods.

Triple size pkt., 10c; ½ lb., 25c; 1 lb., 40c; 3 lbs., 98c. All Postpaid.

PENCIL POD BLACK WAX The Heavy Yielder

105—(55 days to maturity)—A wonderfully flavored, rich dark yellow stringless snap bean. It is a very vigorous and hardy plant, being one of the few to survive the heat and lack of moisture of our summers. The thick meaty pods are very brittle and cook up into a very appetizing dish. The seed is black when ripe.

Triple size pkt., 10c; ½ lb., 23c; 1 lb., 39c; 3 lbs., 98c. All Postpaid.

EARLIEST BRITTLE WAX The Early One

110—Five reasons why you should plant this bean:
1. Quality:—Absolutely stringless, very tender, and most delicious.
2. Yield:—The vines are large, vigorous and are completely covered with pods for long season.
3. Appearance:—The long straight pods are a beautiful yellow.
4. EARLY:—ready in only 50 days.
5. Hardiness:—Nearly blight proof and very drouth-resistant.

Triple size pkt., 12c; ½ lb., 24c; 1 lb., 43c; 3 lbs., \$1.05. All postpaid.

133—EDIBLE SOY BEANS

(90 days). You've heard a lot about edible soy beans. Well, here they are—the great big green kind, ready for the table in about 90 days after planting. Beans are bright green in color and when mature turn to yellow. Prepare them for the table just as you would lima beans, or dry beans. Soy beans shell easily if you let the pods stand in boiling water for about 3 minutes. Price: Pkt., 10c; ½ lb., 25c; 1 lb., 40c; 3 lbs., 98c. Postpaid.

Green Kentucky Wonder or Old Homestead

134—(65 days to maturity). This climbing variety is very vigorous and productive and bears its pods in large clusters. The pods are green, very long, often being nine or ten inches, nearly round, stringless and very crisp when young, and so fleshy that they are greater in width than breadth.

Triple size pkt., 10c; ½ lb., 27c; 1 lb., 46c; 3 lbs., \$1.15. All Postpaid.

Grow pole beans by the garden fence—on a trellis or in the corn—where the corn cultivator will tend them for you.

GURNEY'S BUG DUST

The Dust That Works 4 Ways

1. Stomach Poison
2. Contact Poison
3. Repellent
4. Fungicide

3 lbs. \$1.00 P.P. 2 lbs. & gun \$1.15 P.P.

TOMATOES

EARLY GIANT

This Tomato Has Everything

416—If you've been looking for the perfect tomato (or close to it) stop here. We think this is going to take your garden by storm. It's fairly large, with medium foliage—enough to protect the fruit—but its real merits are its EXTRA-HEAVY YIELD and its perfect quality fruits. The fruits are large, smooth, almost perfect globe shaped, have solid flesh of a bright scarlet color that DOESN'T CRACK. You'll think it's perfect. Supply of seed limited, so please order early. Price: Pkt., 15c; ½ oz., 50c, postpaid.

BOUNTY

The Early and Smooth One

417—Yes, we say it's the finest tomato grown. So SMOOTH and FIRM and with such a pleasing flavor. Outyielded six other commonly planted varieties from 10% to 90% in experiment station trials.

BOUNTY is EARLY RIPENING, SELF-PRUNING, UNIFORM IN COLOR and TOPS IN QUALITY. A North Dakota Station introduction ORDER EARLY, Seed Supply Very Limited.

Pkt. 15c; ½ oz. 20c; ½ oz. 35c. Postpaid.

GOLDEN QUEEN The Smooth and Prolific Yellow One

412—"Queen of the Yellows"—The largest yellow tomato. It is early and very prolific. The large yellow tomatoes are smooth and very mild.

Pkt., 10c; ½ oz., 25c; 1 oz., 39c. All Postpaid.

YELLOW HUSK or GROUND CHERRY

Easy to Grow

413—This early dwarf type is the only one suitable for the North. The fruit is about the size of a cherry, bright yellow enclosed in a husk. Makes wonderful preserves and pies.

Pkt., 7c; ¼ oz., 25c. All Postpaid.

EARLIANA

Earliest of the Lot

411—The earliest, large, smooth red tomato. This tomato is not only remarkable for its earliness but for its large size, handsome shape, and bright red colors. Enormously prolific. The finest for the Northern market and home garden.

Pkt., 5c; ½ oz., 26c; 1 oz., 40c. All Postpaid.

BISON

Best for the North

414—One of the best and earliest tomatoes developed by Professor A. F. Yeager. Instead of wasting its vitality making a large plant, Bison is self-pruning and forms a compact bush. It puts all its energies into producing and ripening a heavy and extra early crop of smooth, solid, meaty, medium sized red tomatoes. Pkt., 7c; ½ oz., 25c; 1 oz., 40c. All Postpaid.

EARLIBELL TOMATO

The Vigorous Early One

402—An immense yielder of beautiful crimson tomatoes of extra fine flavor. The fruits are smooth and do not split easily. The vines are thrifty with enough foliage to shade the fruit so it will not sun-burn. Again, I urge you to plant Earlibell.

Pkt., 8c; ½ oz., 24c; 1 oz., 45c. All Postpaid.

FIRESTEEL

The Drought Resistant

427—(62 days). This is the finest of the new tomato introductions, originating in Dakota where it takes a good tomato to make good. Firesteel is a large fruited sort, globe shape, deep crimson in color, unaffected by heat and drought, yields tremendously. Fine for slicing or for canning. Solid enough for shipping. Price: Pkt., 10c; ¼ oz., 20c; ½ oz., 35c. Postpaid.

GURNEY'S DELICIOUS GARDEN PEAS

Gurney's strains of peas are all Northern-grown and carefully selected for disease resistancy, for type and for vigor. Don't take chances with anything but the best.

Plant your smooth varieties of peas just as early as you can get in the ground in the spring. The wrinkled varieties should be planted about a week later. All varieties of peas appreciate support, even the dwarfs would like some brush or a trellis to grow on. Keep the pods up off the ground. They will give you a bigger yield, too.

For a continuous supply make several plantings, starting just as soon as you can get in the ground by planting the Alaska, and a week later follow it with other plantings of Little Marvel, Big Dakota, Yankton Main Crop.

One pound of peas is enough for a hundred feet of row, 120 lbs. enough for an acre.

SPECIAL: Be sure to inoculate your peas. A 10c packet is enough for 5 lbs. of peas and beans. Full directions for use are printed on the packet. It will pay for itself many times over.

← Edible PODDED PEAS

Eat Like Pod Beans

160—Dwarf Gray Sugar: (57 days)—The pea with pods so juicy and tender you do not shell them but eat pods and all like string beans.

The vines grow about 20 inches tall and are heavy bearers. Give these a trial, and I know you will never be without them again.

Triple size pkt., 10c; ½ lb., 25c; 1 lb., 40c. All Postpaid.

← AMERICAN WONDER

Sure Grower—Big Yields

149—Our improved strain of American Wonder is one of the earliest Wrinkled Peas grown. The dwarf vines grow about 1 foot tall and are covered with medium size pods.

This is the sweetest and tenderest pea we have ever raised. If you want quality, plant American Wonder.

Triple size pkt., 10c; ½ lb., 22c; 1 lb., 38c; 3 lbs., 87c. All Postpaid.

← BIG DAKOTA

The Big Yields for the NORTH

144—You want the most peas you can get, don't you? Then plant Big Dakota, because by actual count we have found that they yield more pods to the vine and more peas to the pod. They are of delicious quality, and luscious tasting.

If you want the largest peas you have ever raised, plant Big Dakota. Thousands say this is the finest pea they have ever grown.

Triple size pkt., 15c; ½ lb., 27c; 1 lb., 44c; 3 lbs., 98c. All Postpaid.

Some Satisfied Gurney Customers and What They Grew

Dear Gurney's:

Received your letter inquiring about who sent the picture. It was I who sent it. I often use my name to avoid confusion with another family in Stanton who have the same name as my husband. Sorry to cause you the trouble. Here's another picture of my daughter Nancy Lou where you can see her with her pets. Thanking you for your courtesies and hoping to give you another order in the spring, I am,

MRS. DELLA DACK,
Stanton, Minnesota.

We always appreciate it when our customers carefully write their names on orders, and use the same initials or first name each year. It helps to prevent confusion, and gets orders out promptly.

Gurney's,
Yankton, S. D.

Dear Sirs:

I am enclosing a picture of a carrot I found in my Victory Garden. As you can see it has grown around a man's gold ring. Don't know who the ring belongs to.

Seed of this carrot came from Gurney's, of course. Seems like every Gurney seed grows. They are "tops" with us.

MRS. MYRTLE TAYER,
Milnor, N. D.

Gurney's, Yankton, S. D.

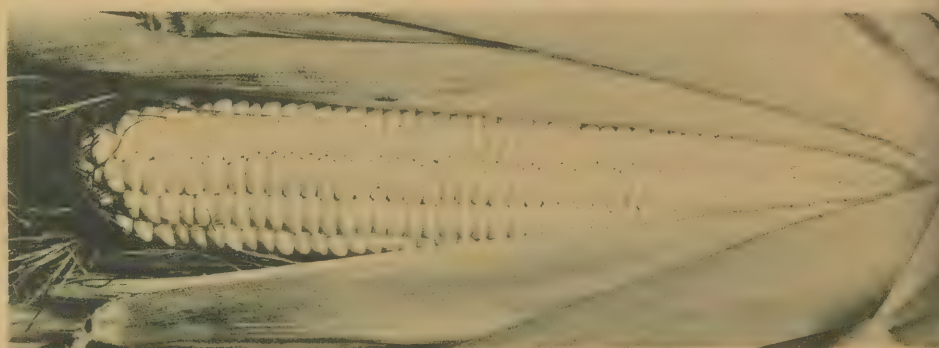

Dear Gurneys:

The apples were picked off the tree which the folks ordered from you. They think everything Gurneys sell is swell.

We all read your catalogs and especially the Planting Magazine. Please keep on sending them to us.

MISS HAZEL BASKA,
Eldora, Iowa.

GURNEY'S

GOLDEN BANTAM CORN Favorite of All

177—The standard Yellow Sweet Corn. Most popular corn in cultivation. A heavy producer of fine roasting ears, usually 2 to the stalk. Rich Golden Yellow. The standard by which all sweet corns are judged. Tender, sweet and deliciously flavored.

Triple size pkt., 10c; ½ lb., 20c; 1 lb., 36c; 3 lbs., 95c. All Postpaid.

184—STOWELL'S EVERGREEN. Here's the big main crop sweet corn—the largest, and one of the best. Immense stalks produce long 10 inch ears. Kernels deep, white, sweet and tender. It stays in condition for table use for a long time. To lengthen out your roasting ear season, plant Stowell's Evergreen. Cannors and market growers plant lots of it. Price: triple size packet, 10c; ½ lb., 20c; 1 lb., 36c; 3 lbs., 95c, postpaid.

About Sweet Corn

Some of people's fondest memories have to do with sweet corn—especially roasting ears. You should have roasting ears early, mid season and late. You never can get too many.

This year, plant sweet corn and plenty of it. Remember Gurney's Special Strains are carefully selected for vigor and vitality. You can depend on them. They have all been carefully tested. You'd be surprised at the number of roasting ears that you can grow in a small sized town garden. Sweet corn doesn't grow as vigorous as field corn, so you can space the hills as close as 15 inches apart if you work them by hand and get an abundant crop. Sweet corn is a "four way" crop. You can use it fresh, canned, frozen or dried. The main thing is to plant lots of it so that you will have plenty for yourself and some extras for the neighbors. Make several plantings about one week apart so you'll have corn coming on all season long.

One pound plants 150 hills, 8 to 10 pounds plants an acre.

Nursery House"

Gurney's Carrot Seed

Make your first planting just as soon as you can get in the soil in the spring and then successive plantings throughout the season so that you will have plenty to put away when winter comes. Cover the seed about 1/2 in. deep and the row 18 to 24 inches apart and thin them out 2 to 4 inches apart in the row if you want big carrots. One ounce of seed is enough for a hundred feet of row.

EARLY CORELESS

For Home Use or Market

634—The best carrot grown. The beautiful orange roots grow about 8 inches long, 1 1/2 inches thick, and are the same size from top to bottom. They are very sweet and tender, nearly coreless, and one of the finest carrots for bunching or for winter.

Pkt., 10c; oz., 35c; 1 lb., \$1.12. All Postpaid.

LAXTONIAN

The Vigorous, Sure to Bear Pea

141—The Top Notch Early Pea: This is a pea that just suits me, and I eat lots of peas during the season. I like them any way they can be served.

The vines of this extra early, heavy bearing, dwarf pea are very stocky and vigorous. The pods are very long, dark green and simply bursting with immense, sweet, tender peas.

Triple size pkt., 10c; 1/2 lb., 25c; 1 lb., 42c; 3 lbs., 96c. All Postpaid.

YANKTON MAIN CROP The Drought Resistant Pea

157—(65 days)—Plant Yankton Main Crop and assure yourself of green peas all season, and peas of the finest, sweetest quality and tenderness that you have ever tasted.

This hardy pea is absolutely the most drouth and heat resistant of all, bearing good crops when all others are burned and gone. The vines grow about 2 feet tall and are filled with large pods containing from 6 to 10 delicious peas.

Triple size pkt., 10c; 1/2 lb., 25c; 1 lb., 40c; 3 lbs., 95c. All Postpaid.

EARLY ALASKA Disease Resistant

146—Earliest of All (52 days to maturity)—Alaska is absolutely the earliest pea and the heaviest yielder. The slender light green vines grow about 2 feet tall and are literally covered with pods. The peas are of excellent quality, and as they all ripen at once, are easy to gather. If you want a lot of peas and want them early, plant Alaska.

Triple size pkt., 10c; 1/2 lb., 22c; 1 lb., 38c; 3 lbs., 95c. All Postpaid.

LITTLE MARVEL

The Tender, Sweet One

152—If I could have but one ind, it would be Little Marvel. Take my word for it. I've tried em all—very tender, heavy yielder, and it will be a long time until we find a better one. In yield, earliness, and quality and delicious sweetness it is tops.

Triple size pkt., 10c; 1/2 lb., 27c; 1 lb., 45c; 3 lbs., 98c. All Postpaid.

DANVERS HALF LONG For Canning or Storage

627—Danvers carrot is a Prize Winner. Medium in length, and of rich orange color, the size and type that everyone likes. Danvers is one of the best quality carrots, and is large enough to outyield almost any other variety, often yielding from 15 to 20 tons per acre.

Pkt., 5c; oz., 35c; 1/4 lb., \$1.00. All Postpaid.

EARLY PIE CARROT

The Big, Sweet and Juicy One

640—Did you ever eat a pumpkin pie? Sure you did. Good, wasn't it? Well, the next time, try a carrot pie. It will be better, and Pie Carrots make the best pies. Carrots for pies can be used from the time the small carrots start to develop until the old ones are gone in the spring. Plant Pie Carrots and raise your own pies.

Pkt., 10c; oz., 35c; 1/4 lb., 95c. All Postpaid.

STOCK CARROTS

For Stock and Poultry

631—Mastodon: This giant white stock carrot will produce as many tons of feed per acre as mangels or turnips. They grow about 2 feet long and weigh from 1 to 2 pounds each. Horses, cows, hogs, and poultry like carrots and thrive on them.

Pkt., 5c; oz., 25c; 1/4 lb., 90c. Postpaid.

OXHEART Early and Tender— The Blunt One

629—This short, broad carrot is the heaviest yielder of the table carrots, and the easiest to harvest. The roots are sometimes 5 inches in diameter and about the same length. Because of their immense yield, they are often planted for stock food, although they are really an excellent table carrot.

Pkt., 5c; oz., 30c; 1/4 lb., 90c. All Postpaid.

About Carrots

This is one root crop you can depend on every year. What you can't use for yourself for the table, the poultry and stock will enjoy. Sometimes it is a good idea to sow a few radishes in the row with carrots. Radishes come quick and mark the carrot row so you can start cultivating early.

Red Cored CHANTENAY

630—Small cored, with bright orange flesh, fine grained, tender and sweet. It is medium early, maturing in about 60 days. The tapering roots are about 6 inches long and 2 inches in diameter.

Pkt., 10c; oz., 35c; 1/4 lb., \$1.00. Postpaid.

SWEET CORN

Sweet Cross Hybrid Big Yield—Best Flavor

175—This corn means dollars to the market gardener and it means delicious roasting ears and lots of them.

Sweet Cross is one of the best yielders. The large, golden yellow ears grow about 7 inches long and are sweet and tender. Same season as Bantam.

Triple size pkt., 15c; 1/2 lb., 33c; 1 lb., 55c; 3 lbs., \$1.49. All Postpaid.

PURGOLD HYBRID

Great for Canning

171—This is a wonderful new Hybrid Sweet Corn. It has large, deep-kerneled ears with such a tasty, sweet flavor. Large, vigorous stalks and a real producer. Outyielded all other corns in our trials at Yankton. Only 5 days later than Golden Bantam.

Triple size pkt., 15c; 1/2 lb., 32c; 1 lb., 53c; 3 lbs., \$1.45. All Postpaid.

Early Giant Bantam Hybrid

Earliest of All

178—The sweetest, finest home garden corn and the earliest, too. Early Giant will give you corn long before your neighbors and nicer, bigger, sweeter ears you never tasted. A fine early market garden corn. A week ahead of Golden Bantam corn. Price: Triple Size (3 oz.) pkt., 15c; 1/2 lb., 33c; 1 lb., 55c; 3 lbs., \$1.49. Postpaid.

GOLDEN SUNSHINE

174—This large-eared variety originated by North Dakota Agricultural College for Dakota growing conditions—but does well anywhere—can take hot, dry weather. The ear is 12 rowed and 7 to 8 inches long, a heavy bearer of sweet and tender ears, larger and earlier than Golden Bantam.

Triple size pkt., 10c; 1/2 lb., 20c; 1 lb., 35c; 3 lbs., 94c. All Postpaid.

STOWELL'S EVERGREEN HYBRID

185—A big white eared, medium long, 14 to 18 rows, deep narrow kernels, very tender and very sweet. Fine for home use or market gardeners. Vigorous grower, all stalks 8 to 10 feet long, heavy yielder, grows anywhere. Price: Triple size pkt., 15c; 1/2 lb., 35c; 1 lb., 58c; 3 lbs., \$1.55. All Postpaid.

Why HYBRID Sweet Corn IS BETTER

- Heavier Yields
- Disease Resistant
- Sweeter
- More Tender
- Larger Ears

Just like most farmers are turning to HYBRID CORN in their fields, all gardeners are switching to HYBRID SWEET CORN IN THEIR GARDENS. It has proven better in every way.

By careful breeding work, hybrid sweet corn has now been made to yield many more roasting ears than sweet corn ever did before and better yet, the kernels are much more tender and so much more sweet, you can hardly believe there could be so much improvement.

Also by breeding, the ears have been made larger, the rows uniform, and the corn more resistant to disease. It is more vigorous and easier and surer to grow.

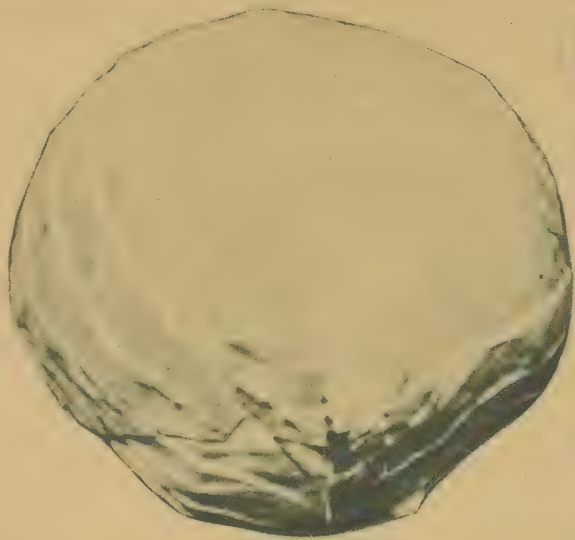

It doesn't cost more to plant hybrid sweet corn and the extra-yield, the better flavor and tenderness will make you sold on it forever. Try it this year. Varieties listed above. All season blend at right.

HYBRID SWEET CORN MIXED

Roasting Ears—All Summer

173—Here is a special blend of GURNEY'S HYBRID Sweet Corns to give you an all season supply with just one planting. Hybrid Sweet Corn is sweeter, more tender, deeper kerneled, and disease resistant. This year enjoy sweet corn each week all season. All kinds of yellow hybrids are blended together to give you roasting ears from early to late if you can plant only one kind.

Triple size pkt., 14c; 1/2 lb., 23c; 1 lb., 45c; 3 lbs., \$1.15. All Postpaid.

DANISH BALLHEAD

The Sweet and Solid One

531—Short Stemmed: This is undoubtedly the best late cabbage—desirable for kraut, for storage, and for shipping. The plants are large and sturdy with short stems. The solid round heads weigh from 7 to 10 pounds each. The flavor is very good and the leaves are very crisp and tender. This is the ideal cabbage for high quality kraut.

Danish Ballhead Cabbage will stand hot, dry weather—does not rot easily in wet seasons, and the heads very seldom burst. Yields of 15 tons per acre are not unusual.

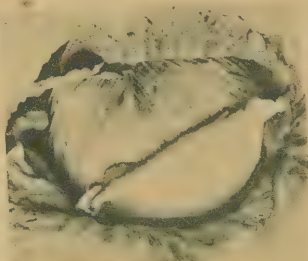

Pkt., 10c; ½ oz., 27c; 1 oz., 50c. All Postpaid.

CABBAGE

There's not another vegetable where seed quality counts for as much as with cabbage. Our strains are all sure to make solid heads as seed strains are carefully selected.

Start seeds 5 to 10 weeks ahead of outdoor planting time in the house, hotbed, or cold frame. Cabbage likes rich soil. Space plants 18 in. apart in rows 2 to 3 ft. apart. If worms should happen to bother, use Gurney's Bug Dust. More suggestions printed on packets.

LATE VARIETIES

Premium Late Flat Dutch

The One for Kraut or Storage

535—This is the largest cabbage grown. The immense solid heads often weigh more than 20 pounds, and are very white, crisp, and tender. Late Flat Dutch is a good winter keeper. One of the favorite varieties we list.

Pkt., 5c; ½ oz., 24c; 1 oz., 44c. All Postpaid.

Mammoth Red Rock

The One for Salads and Pickling

533—This is the best and largest of the red cabbage. The heads are round and extra solid. This beautiful deep red cabbage makes delicious slaw and pickles. You want to be sure and try it.

Pkt., 15c; ½ oz., 35c. Postpaid.

Gurney's BEETS

Beets are easily grown on any soil. Plant 1 inch deep in early spring. Thin the plants to 3 inches in the row. Beets for winter use should be planted about June 1st. 1 ounce seed for 50 feet, 6 pounds per acre. Gurney Beet seed comes from the leading production centers of the country. YOU CAN'T BUY BETTER SEED. Make successive plantings from real early spring to mid-summer. Beets from fall crop are of wonderful quality.

DAKOTA WONDER

The Early—Deep Red One

607—A beautiful smooth, globe-shaped beet with small neck and tap root. The flesh is an intense dark red. You may pull a dozen or a hundred beets and there will be no variation in shape. Cut them and every one will be the same glowing dark red color. Very early. Good for bunching and winter use.

Pkt., 8c; oz., 30c; ¼ lb., 90c. All Postpaid.

← DETROIT DARK RED

"World's Champion" Beet

604—This dark red beet is a winner for every purpose. It is early and the small tops and good shaped globe roots make it ideal for bunching. The flesh is very dark red with faint rings. Very sweet and tender. One of the best winter keepers. More Detroit Dark Red are grown than all other varieties combined and that is simply because year after year it does better in gardens anywhere

than any other beet variety. If you can plant but one beet, be sure it is Detroit Dark Red.

Pkt., 5c; oz., 30c; ¼ lb., 90c. All Postpaid.

Earliest of All

The Earliest

515—In our trial gardens at Yankton, this new extra early cabbage has produced the largest percentage of good heads.

The heads are nearly round, medium size, and extra solid. The home or market gardeners are always satisfied with Earliest of All.

Pkt., 10c; ½ oz., 30c; 1 oz., 60c. All Postpaid.

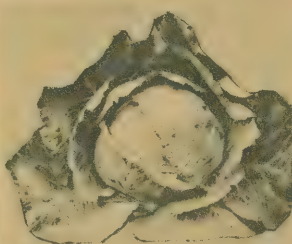

Early Ballhead

The Round and Solid One

521—We know this early summer ballhead cabbage is a winner and a money-maker for the market gardener.

The heads are perfectly round, very solid, compact form, can be planted closer than most other varieties, and will yield more tons per acre.

Pkt., 6c; ½ oz., 27c; 1 oz., 50c. All Postpaid.

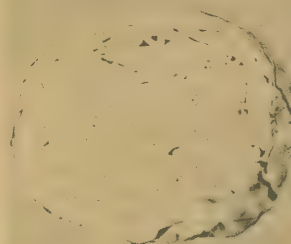

Copenhagen Market

The Sure Cropper

519—This large, solid, extra early round headed cabbage has taken the place of most of the other early varieties until now over half the early cabbage is Copenhagen Market. It is good enough for the large commercial cabbage growers in Wisconsin, Minnesota, and Iowa.

Pkt., 6c; ½ oz., 27c; 1 oz., 50c. All Postpaid.

Golden Acre

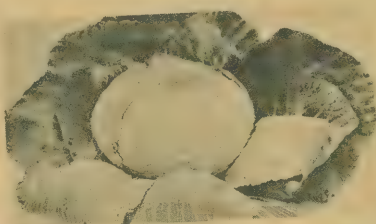

The Early and SURE One

524—Early, round-headed cabbage which closely resembles Copenhagen Market in type. As its name implies it is a money-maker. It is 8 to 10 days earlier than Copenhagen Market, but is smaller and can be planted closer. Because of earliness and fine quality it commands a higher price.

Pkt., 7c; ½ oz., 28c; 1 oz., 50c. All Postpaid.

Disease Resistant Cabbage

If Yellows or Yellow Rot has destroyed the cabbage crop in your community, plant only this Yellows Resistant seed.

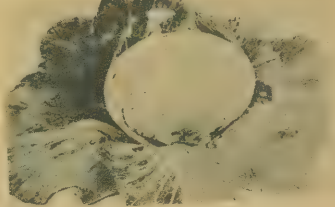

DANISH BALLHEAD YELLOWS RESISTANT

For Heavy Solid Heads

517—This is an extra fine strain of Danish Ballhead cabbage which I believe will outyield any other cabbage grown. The heads are larger. Many communities have quit raising cabbage because of losses from Yellows. With this fine Yellows Resistant seed you can again grow cabbage profitably, as the large, solid heads always bring the highest price.

Pkt., 10c; ½ oz., 35c; 1 oz., 60c. All Postpaid.

ALL SEASONS YELLOWS RESISTANT

For Sure Crop and Good Kraut

520—This fine large Disease-Resistant Cabbage can be used early or stored for your winter supply. The solid heads weigh from 8 to 10 pounds, and make extra fine kraut. All Seasons is a heavy yielder.

Pkt., 10c; ½ oz., 35c; 1 oz., 65c. All Postpaid.

CHINESE CABBAGE

A Vegetable You Should All Grow for Salads and Greens

539—This new Oriental Cabbage is excellent for salad purposes. In flavor, it resembles both celery and Cos Lettuce, but is much sweeter and more tender. Many people

prefer it to head lettuce. It is also delicious for greens.

The heads are tall and cylindrical. They reach a height of 18 inches, and a weight of 5 pounds.

For summer use, Chinese Cabbage should be planted early in a hotbed and transplanted so they will make heads before the hot weather. If you desire a fall crop, sow in the latter part of July or early in August.

Pkt., 7c; ½ oz., 35c; 1 oz., 60c. All Postpaid.

FROST-PROOF CABBAGE PLANTS

Out-Door Grown

Here they are—just what you have been looking for, thick stemmed, sturdy, husky cabbage plants, well hardened and ready for out door planting.

These are grown in the south where the seed is sown very early in the winter. They grow slowly and are tough. Set them out early. They don't mind a little frost and snow. Order now. We'll ship at proper planting time in your locality.

Postpaid prices—Safe Delivery Guaranteed.

HOW TO PLANT

Set the plants out just as soon as you get them. A light frost will not hurt them because these plants are well rooted, hardy and come to you well packed.

← CROSBY'S EGYPTIAN

For Pickles and Canning

603—This is the smoothest and best bunching beet. The tops are small and the globe shaped roots are a very attractive red. The vermilion red flesh is very sweet and tender. Exceptionally good for canning or pickling. For your early planting, try Crosby's Egyptian. Pkt., 6c; oz., 23c; ¼ lb., 75c. All Postpaid.

MANGELS

How to plant Mangel Beets: Mangel beets are easy to grow. You handle them just like ordinary beets except give them a little room. Space rows 2½-3 feet apart and when the seedlings are well established thin to 8 or 10 inches apart in the row. Sow the seed along in May after severe frosts are past. You will need around 10 lbs. of seed to plant an acre. 15 to 20 tons to the acre are common yields. Harvest before severe freezing comes on. Store the roots in a cellar or in a pit. Livestock and poultry thrive on them. Makes an ideal green winter feed. Mangel beets will give you more tons of green feed to the acre than any other root crop.

MAMMOTH LONG RED

619—The roots are very long and easily harvested as half the mangel grows above ground. They yield enormously—often 40 tons per acre. Individual roots sometimes weigh 20 pounds and are over 2½ feet long.
1 oz., 20c; ¼ lb., 65c; ½ lb., \$1.15. All Postpaid.

GIANT HALF SUGAR ROSE

616—This is a half sugar beet and is sweeter and more nutritious than mangels. The oval red roots weigh about 6 pounds each, are easily harvested, and are wonderful poultry feed.
1 oz., 20c; ¼ lb., 65c; ½ lb., \$1.15. All Postpaid.

WHITE KLEIN WANZLEBEN

620—Sugar Beet: This has the highest sugar content of any sugar beet. The long roots are pure white, and under good conditions will yield over 15 tons per acre.
1 oz., 20c; ¼ lb., 65c; ½ lb., \$1.15. All Postpaid.

SWISS CHARD

220—FOR GREENS: Swiss Chard will make more and better greens than any other vegetable. It is grown for its leaves and stems, as it does not make a bulb like other beets. It is an immense yielder and can be used from early spring until late fall.
Pkt., 10c; oz., 22c; ¼ lb., 66c. All Postpaid.

KOHL-RABI

216—EARLY VIENNA: Makes a large bulb on the stem just above the ground. Easy to raise as turnips. The sweet, fine grained, white flesh combines the flavor of cauliflower and turnip.
Kohl-Rabi should be used when about 2 inches through.
Pkt., 10c; ½ oz., 25c; 1 oz., 48c. All Postpaid.

KALE or BORECOLE

232—DWARF GREEN CURLED: Kale is easy to raise and yields immense crops. Our Dwarf Green Curled is the best of all and is delicious creamed or served as greens. The finely curled leaves are tender and delicious.
Pkt., 7c; oz., 25c. All Postpaid.

Gurney's CUCUMBERS

How to plant Cucumbers: Cucumbers will grow most any where but they like a reasonably rich soil. Plant plenty of them; you may lose some of the seedlings. Remember don't crowd them. Make the hills at least 4 or 6 feet apart, plant about a dozen seeds to the hill. Scatter them so that the hill will be at least 8 inches in diameter. Don't plant cucumbers until corn planting time, when the soil is well warmed up. You can make late plantings in June and early July. An ounce of seed is enough for about 100 hills. For good pickles use the New National Pickle; for big slicers my pick is the Black Diamond. Put up plenty of pickles. They will be hard to get another year.

↑ LONGFELLOW

Long and Dark Green

357—This is truly a magnificent cucumber. The best of the large varieties. Its dark green color, perfect shape, and firm white flesh place it in a class by itself.

This new cucumber grows to a length of 15 inches and retains its dark green color until nearly ripe. Vines are vigorous and very prolific, bearing fruit over a longer period than any other variety. The home or market gardener cannot go wrong by planting this as his main crop for slicing or for large pickles.
Pkt., 10c; oz., 30c; ¼ lb., 90c; 1 lb., \$2.70. All Postpaid.

STRAIGHT 8

Perfect for Slicing

362—AN ALL AMERICAN PRIZE WINNER. It gets its name from its size and shape. Perfectly straight, it grows about 8 inches long and 1½ inches through. Firm fleshed, nearly seedless, and dark green from end to end. A bushel of Straight 8 is an eye catcher and is always salable. For slicing, shipping, or dills, plant Straight 8.
Pkt., 8c; oz., 30c; ¼ lb., 90c; 1 lb., \$2.70. All Postpaid.

EARLIEST OF ALL

A New One That's Good

354—This prolific cucumber grows about 7 inches long and has blunt square ends. It is a beautiful dark green color with lighter green stripes at the blossom end. One of the earliest and best for the home gardener. Seed very scarce.
Pkt., 15c; oz., 37c; ¼ lb., 98c; 1 lb., \$2.25. All Postpaid.

EVERBEARING

Loads of Pickles All Summer

353—Very early, enormously productive, literally covering the ground with its fruit the entire season until killed by frost, making it the most prolific variety in existence. Fruit is medium size and rich, dark green in color. The fruits are short and blocky—perfect for small pickles.
Pkt., 5c; oz., 24c; ¼ lb., 72c; 1 lb., \$2.15. All Postpaid.

Black Diamond

King of the Cucumbers

359—1. Season—Black Diamond is early, coming into bearing right after Everbearing and New National Pickle.
2. Color—Black Diamond is an attractive dark green from end to end.
3. Size and Shape—Black Diamond grows about 7 or 8 inches long, is cylindrical in shape with blunt ends.
4. Use—Black Diamond, because of its dark green color, good shape, and earliness, is one of the finest cucumbers for small pickles or for early shipping.
FOR CUCUMBER PROFITS, PLANT BLACK DIAMOND.
Pkt., 8c; oz., 27c; ¼ lb., 80c; 1 lb., \$2.40. All Postpaid.

New National Pickle

For Early Uniform Pickles

352—This is a strictly tailor-made cucumber. The National Pickle Packers Association told the seedsmen just what they wanted in an early pickling cucumber, and the New National Pickle is the result—the answer to a pickle packer's prayer.
It is very early and very productive. A beautiful dark green color. The small pickles are rather short and thick while the larger sizes are smooth and cylindrical with rounded ends. The flesh is very thick with no hollow sides. For quantity and quality, plant the New National Pickle.
Pkt., 7c; oz., 28c; ¼ lb., 84c; 1 lb., \$2.50. All Postpaid.

THE COLORADO

All American Winner

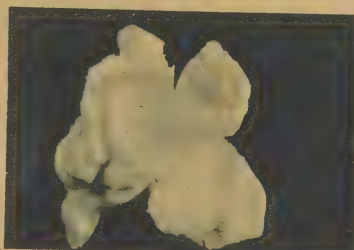

363—AN ALL AMERICAN PRIZE WINNER. This is the finest cucumber on the market today for slicing or for dill pickles.
A beautiful long, slender dark green cucumber which will always bring the highest market price. It stays green longer than any other variety, and has very few seeds. For better dills, plant The Colorado.
Pkt., 8c; oz., 27c; ¼ lb., 80c; 1 lb., \$2.40. All Postpaid.

GURNEY'S POPCORN

Pops Bigger and Tastes Better

Hybrid South American Popcorn

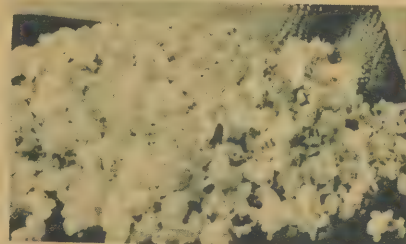

1. GREATER YIELDS—60 to 70 bushels to the acre this year.
2. DROUGHT RESISTANT—Long roots go deep for moisture and plant food.
3. RESISTS COLD—Can be planted early.
4. DISEASE RESISTANT—Vigorous dark green plants.
5. FARMER STYLE CORN—Big yields of big, round ears.
6. STIFF STALKS—Stand like a ramrod. Can be picked with mechanical picker.
7. GREATER POPPING VOLUME—Round cap kernels pop bigger—have better flavor too.
8. MULTIPLE EARS—Two good ears to the stalk.

NEW HYBRID

South American Popcorn

198—New Hybrid South American out-yields open pollinated strains. Added vigor gives this corn the most uniform ear. Has made yields of 50 bushel or better per acre, has a tremendous popping volume, seed stocks are limited.
Triple Size Pkt., 20c; ½ lb., 47c; 1 lb., 79c; 3 lbs., \$1.79. All Postpaid.

NEW HYBRID HULLESS

For Extra Yield and Flavor

193—The last word in popcorn. Originated by the Minnesota Experiment Station. Gives greater yields and much more popping volume. You can't beat Hybrid Hulleless for rich sweet flavor and tenderness. Seed very scarce.
Triple size pkt., 12c; ½ lb., 33c; 1 lb., 60c. All Postpaid.

SOUTH AMERICAN MAMMOTH

197—South American pops out about three times the size of ordinary popcorn. Giant kernels, buttery flavor, and tender quality. It will yield much more than other kinds. Try some. Triple size pkt., 10c; ½ lb., 20c; 1 lb., 33c; 3 lbs., 89c. All Postpaid.

PURDUE HYBRID No. 32

Purdue University originated this hybrid South American strain of popcorn and the seed we offer was grown by them. No. 32 is a vigorous tall grower, pops wonderfully well, has fine flavor, carries two ears to the stalk, not much seed to offer this year. It will grow wherever ordinary South American Popcorn will grow.
3 oz. pkt. 24c; ½ lb. 72c; 1 lb. \$1.20; 3 lbs. \$3.40; 5 lbs. \$5.35; 10 lbs. \$10.00, postpaid.

EARLY HULLESS

For No Hulls

195—There is always a good market for this high quality popcorn. It is a favorite among popcorn dealers as well as in the home because the long slender kernels are snowy white when popped, and absolutely free from hulls.
Triple size pkt., 10c; ½ lb., 20c; 1 lb., 35c; 3 lbs., 94c. All Postpaid.

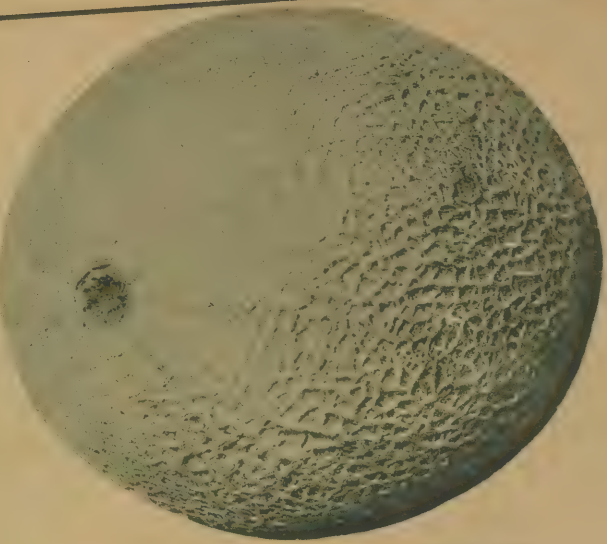

The Big Yellow Popcorn

Giant kernels, buttery flavor, and tender quality. Triple size pkt., 10c; ½ lb., 20c; 1 lb., 33c; 3 lbs., 89c. All Postpaid.

MUSKMELONS 5c^{Pkt.} Up

How to Plant Muskmelons: Muskmelons like a warm season. They appreciate a warm rich sandy soil. Plant them in hills say 6 or 8 feet apart, using about a dozen seed to the hill, right after frost danger is past, cornplanting time is about right. Give good clean cultivation and watch for bugs. Gurney's Bug Dust is the answer to the bug problem of all kinds.

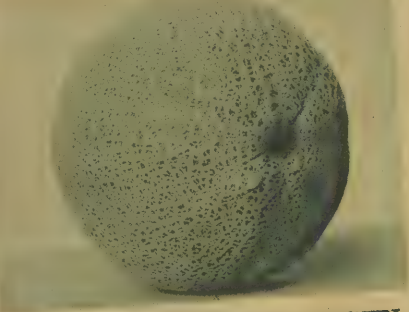

An ounce of seed is enough for about 100 hills. Most folks pick muskmelons too soon. For home use don't pick them until stem lets go of the melons easily when you turn the melon over. We are proud of the quality of our Muskmelons. All the seed we offer come from fields grown for seed purposes only, that means you get nothing but the best.

HALE'S BEST MUSKMELON

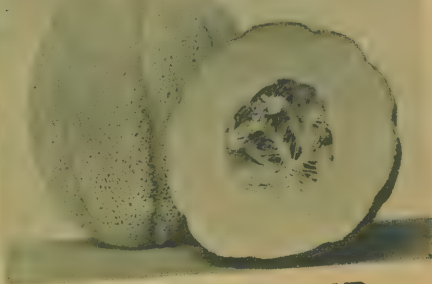

The Best All Around Melon

333—Here is the melon for you—it is a money maker. It is just the right size to serve halved. Of wonderful quality, the salmon colored flesh is very thick, and the seed cavity is small. Hale's Best is very early, heavily netted, and a good shipper. Trainloads go from California and Arizona to the Eastern markets. Make your main planting Hale's Best.
Pkt., 10c; oz., 25c; ¼ lb., 75c; 1 lb., \$2.25. All Postpaid.

PRIDE OF WISCONSIN

332—Although this fine new variety was originated in Wisconsin, it has made a great name for itself in the commercial melon district of Colorado as well as all over the middle states. Pearly gray color, very hard, distinctly netted and covered, seed cavity is small. The flesh is a very deep rich orange, very thick, very firm and of good texture. A fine shipping variety—good for home gardeners too. Price: Pkt., 7c; oz., 30c; ¼ lb., 80c; 1 lb., \$2.35. Postpaid.

HEARTS OF GOLD

Deep Golden and Sweet

345—Hearts of Gold is mighty, mighty tasty clear to the rind. Gets its name from the golden yellow flesh. The melons are almost round, heavily netted. It is medium early, very productive, and one of the best shipping melons on the market. The flesh is thick, firm and solid—the kind you like.
Pkt., 10c; oz., 30c; ¼ lb., 80c; 1 lb., \$2.35. All Postpaid.

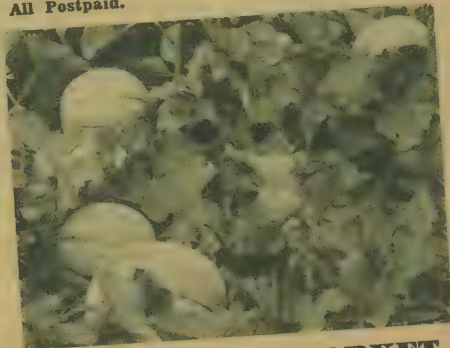

GOLDEN ICE CREAM

Sweetest of All

335—Here is the melon you want for sundaes. An ordinary dipper of ice cream just fills this melon because the cavity is so small.

An early melon—it ripens in from 80 to 85 days. Fruits are 6 to 7 inches in diameter and almost round. The Golden Ice Cream will out-sell any melon on the market because of its fine appearance, thick yellow flesh, and delicious flavor. Seed very scarce.

Pkt., 10c; oz., 25c; ¼ lb., 75c; 1 lb., \$2.15. Postpaid.

MILWAUKEE MARKET

For Home Garden or Market

337—If you want the BIGGEST BEST FLAVORED EARLY MUSKMELON for home use or the home market, plant Milwaukee Market. The melons often weigh over 10 lbs. Market. The sweet spicy golden flesh is sometimes and the spicy thick. The Milwaukee Market will stand more heat, drought, and lack of care than any other melon and still produce a good crop. It is nearly as early as Golden Champlain, and is a real quality melon as well as a large early one.
Pkt., 7c; oz., 30c; ¼ lb., 80c; 1 lb., \$2.35. All Postpaid.

GOLDEN CHAMPLAIN

The Earliest

341—This is still the earliest melon in our trial gardens. It blossoms and sets fruit as soon as its starts to run.

The melons are netted, ribs are prominent, the flesh is thick and a beautiful golden yellow. The quality is good to extra good, and above all, it is early, maturing melons in about 72 days.

Pkt., 12c; oz., 28c; ¼ lb., 79c; 1 lb., \$2.30. All Postpaid.

DAKOTA HONEY

Sweetest—Best

330—Here is without question the finest and sweetest and best flavored Muskmelon of all. It is almost honey sweet with enough of that spicy tang to make it just a little better than any other Muskmelon you have ever tasted. A good vigorous hardy grower, too. Flesh is deep rich orange, thick and firm. The price is 15c Pkt.; oz., 30c; ¼ lb., 80c; 1 lb., \$2.50. All Postpaid.

GARDEN LEMON

For Preserves, Pies, and Sauce

344—The vine is similar to the muskmelon, and requires the same cultivation. Fruit about the size of a large peach, oval shaped, and bright orange color when ready for use. For sweet pickles, pies, and preserves they are excellent.

Pkt., 7c; ½ oz., 20c; 1 oz., 35c. All pp.

MIXED MUSKMELONS

Boy's Melon Patch Special

331—Give the children a chance to enjoy their own melon patch. They will have every variety we list and many others, too. It puts real life into gardening for them.

Pkt., 5c; oz., 20c; ¼ lb., 55c; 1 lb., \$1.49. All Postpaid.

LETTUCE

How to Plant Lettuce: Lettuce is a cool season plant. It likes rich soil and does best when sown real early in the spring but you can grow a good fall crop too by seeding just before the fall rains start. Space rows 16-20 inches apart. Thin the heading varieties to 10-12 inches apart in the row. Leafy varieties may be left 3-4 inches apart in the row. Start some lettuce in a hot bed or cold frame.

Head Lettuce is a cool season plant and doesn't always head successfully unless started early. To be sure of a crop, start in a hot bed or cold frame or in the house, put on rich soil, cultivate well.

Black Seeded Simpson

Most Vigorous Grower

509—A favorite forcing variety; it does not head, but forms a compact mass of leaves, lighter colored than any other leaf lettuce; stands the summer heat well, and is very large, making immense plants over a foot across.

Pkt., 5c; oz., 20c; ¼ lb., 60c. All Postpaid.

GRAND RAPIDS

The Best Leaf Lettuce

510—This is beyond question the best leaf lettuce. The crisp, crinkly leaves are light green in color; grow very erect and do not wilt. The easiest lettuce to grow, and the best flavored. Disease resistant. The kind to sow in the early Hot Bed.

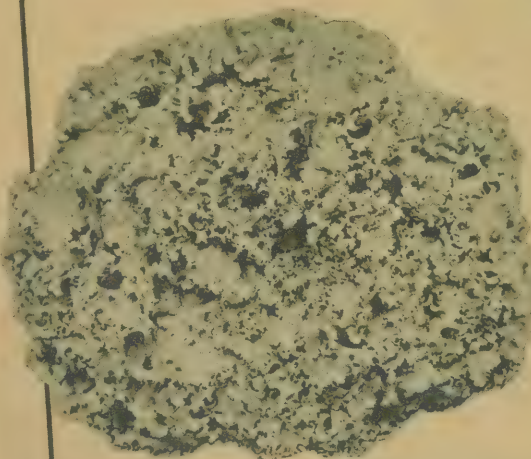

Pkt., 6c; oz., 22c; ¼ lb., 65c. All Postpaid.

CHICKEN LETTUCE

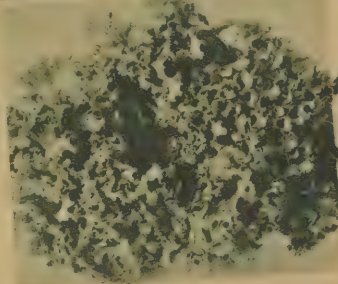

Greens for Your Poultry

508—Your poultry needs "green" food and this variety of lettuce is just the thing you will want to grow for this purpose. It is a genuine lettuce which will yield as much or more chicken or rabbit feed than any plant you may have used for "greens."

Pkt., 5c; oz., 17c; ¼ lb., 50c. All Postpaid.

Black Seeded Simpson

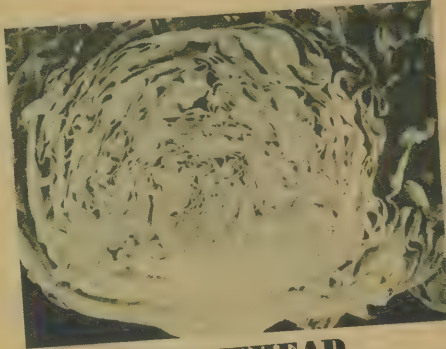

CRISP AS ICE

The Earliest Leaf Lettuce

501—One of the finest and earliest varieties of leaf lettuce grown. Give it plenty of room and you will be surprised to see how large it gets. The leaves are a silvery green, good for spring or early summer. Flavor especially good.

Pkt., 6c; oz., 29c; ¼ lb., 85c. All Postpaid.

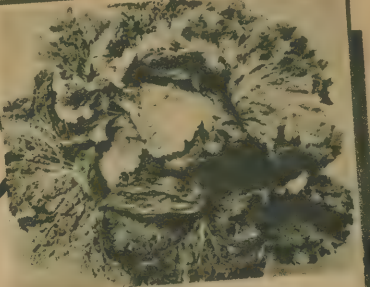

STONEHEAD

Thick and Heavy Head Lettuce

502—All of us like head lettuce, and our idea of a good head lettuce is the one that has the hardest head, one that is compact; one that will stand the hot dry weather that we have during the summer. Gurney's Stonehead Riviera Lettuce is just that and more.

Pkt., 10c; oz., 30c; ¼ lb., 90c. All Postpaid.

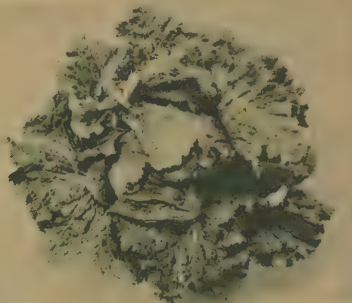

NEW YORK WONDERFUL

The Best Head Lettuce

507—Thousands of acres of this wonderful head lettuce are grown in California, Idaho, and New Mexico, and train loads are shipped to the Eastern markets. When you buy an extra good head of lettuce, it is probably New York Wonderful.

Pkt., 7c; oz., 30c; ¼ lb., 90c. All Postpaid.

GREAT LAKES

The All-America Prize Winner

500—This one heads every time. It stands heat and sun extremely well. Resistant to sun-burn, is slow to throw up seed heads. It is outstanding for home gardeners, fine for market growers too. It is a white seeded variety and one of the most outstanding in recent years.

Pkt., 10c; oz., 35c. Postpaid.

PARSLEY

Parsley seed germinates slowly. Sow 1/2 inch deep in early spring. 1 oz. plants 100 feet of row.

CHAMPION MOSS CURLED

217—A beautiful curled variety, fine for garnishing and for seasoning soups and salads.

Pkt., 7c; oz., 27c; 1/4 lb., 75c. All Postpaid.

TURNIP-ROOTED PARSLEY

221—This vegetable has the same flavor as the regular parsley, but it produces small turnip-shaped roots that are used for flavoring soups.

Pkt., 7c; 1 oz., 30c; 1/4 lb., 80c. All Postpaid.

PEANUTS

EARLY NORTHERN

219—Peanuts are easy to grow, easy to roast, and easy to eat. If you don't think so, take a pan of your home grown peanuts, put them in the oven for about 30 minutes and eat them while they are still hot. Good! Of course, they are good, and that is a good way to pass some of the long winter evenings.

We have been growing peanuts in South Dakota for a long time, and the variety we are offering is early enough to get ripe in a normal season.

Peanuts will stand lots of dry weather and still yield an immense crop of delicious nuts. Plan on planting some peanuts for the children.

With each order for peanuts, we give full instructions for planting and care. This assures you of good results.

3 oz., 10c; 1/2 lb., 25c; 1 lb., 40c; 3 lbs., 95c. All Postpaid.

SALSIFY

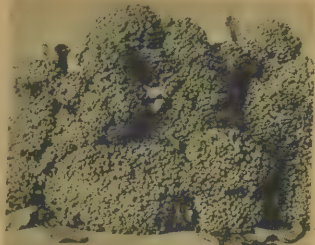

MAMMOTH SANDWICH ISLAND

205—DO YOU LIKE OYSTER STEW? If you do, PLANT SALSIFY and you can have delicious vegetable OYSTER STEW ALL WINTER. It is also delicious baked or creamed. Salsify is easy to raise.

Sow early in the spring, cultivate, harvest, and store the same as Parsnips. We handle only the Improved Mammoth Sandwich Island which we have always considered by far the best all-around variety to plant.

Pkt., 10c; oz., 25c; 1/4 lb., 75c. All Postpaid.

BROCCOLI

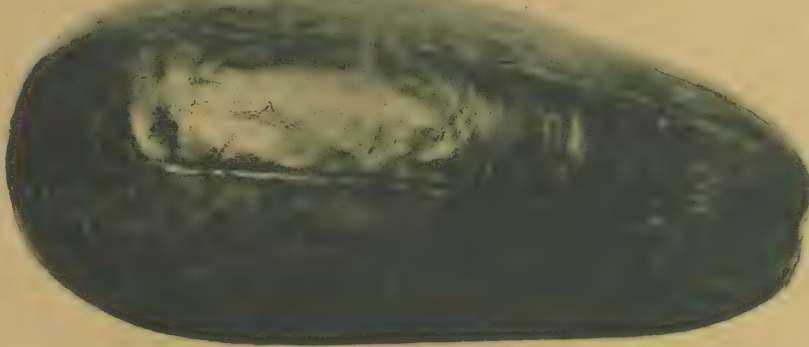

ITALIAN GREEN SPROUTING

209—Here is a Broccoli that is as easy to raise as cabbage and is as good as Cauliflower. The plants do not make solid heads but produce an abundance of light green, tender sprouts which are delicious creamed or used for greens. Use central head first. Side shoots will follow.

Pkt., 7c; 1/2 oz., 20c; 1 oz., 35c. All Postpaid.

GURNEY'S CHOICE JUICY WATERMELONS 5c Pkt. Up

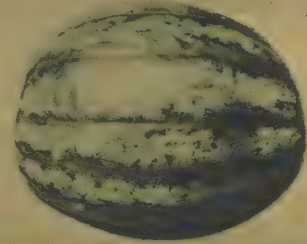

How to Plant Watermelons: Every farmer, and every city gardener, too, ought to plant watermelons. Nothing will make your family happier than a good melon patch. Watermelons like a warm loose soil. Give them plenty of room. Space hills at least 10 feet apart each way. Figure about 50 hills from an ounce of seed, two to three pounds is enough for an acre. Some of the best melon growers that we know believe in plenty of well-rotted stable manure plowed into the field before melons are planted. Corn planting time is about the right time to plant. Prepare your ground early in the spring, disc it several times to kill off the early weeds. You will save yourself a lot of cultivating later. Be sure to plant some of the new Sugar Lump this year. (See cover.) I don't think you will find any better watermelon seed anywhere in the country. Gurney's have always been fussy about melon seed quality and insist that only the best melons be selected for seed stock.

KLECKLEY'S SWEET

The Old Favorite

724—The leading watermelon for home gardens or market. For years, this has been the "yardstick" by which all other melons are compared. Melons are long and cylindrical—usually weigh over 30 lbs. Rind, deep dark green. Flesh crisp, tender and fine grained. Unbelievably sweet. Brilliant red color. Seeds white. 85 days. Pkt., 5c; oz., 15c; 1/4 lb., 45c; 1 lb., 98c. All Postpaid.

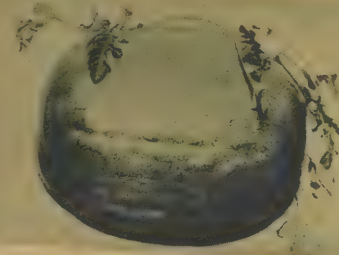

Early Kansas

or Red Seeded Hutchinson

716—This is the best of the new watermelons developed in the last few years. Large, nearly round, light green with dark green stripes. A load of them makes a real show. Early Kansas is at the head of the list for size, appearance and quality. They are fairly early, coming on the market after the early varieties are gone, and are so large and so good that they find a market at very attractive prices.

Pkt., 6c; oz., 18c; 1/4 lb., 45c; 1 lb., \$1.15. Postpaid.

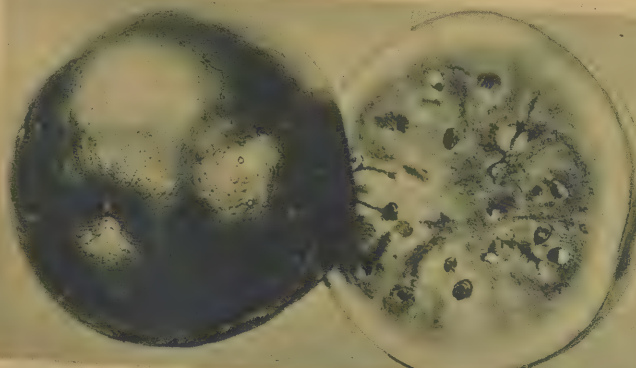

MASTODON RADIO

The Big One

707—Mastodon Radio Watermelon will produce more melons than any other variety; it also produces the largest melons; the flavor cannot be beat, and you will never find the hard core as in so many of the melons. It is not unusual to produce melons of this variety weighing ninety pounds. Its bright red flesh is of delicious flavor and the quality that calls for more.

Glossy dark green skin. Seed scarce. Pkt., 8c; oz., 20c; 1/4 lb., 50c; 1 lb., \$1.25. All Postpaid.

know. Individual sizes, 8 to 10 inches through, just right for refrigerator, very thin rind, bears fruit over a long period, and one of the finest of our new melons. You have to try them to appreciate them. Comes in three separate colors: Yellow Sugar Lump, Red Sugar Lump, White Sugar Lump. Your choice of the above 20c per pkt.; 35c per oz. or 85c per 1/4 lb.

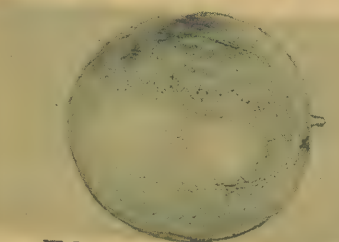

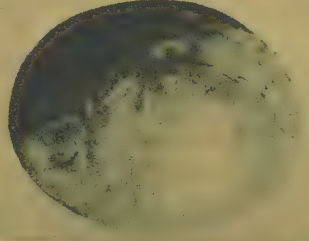

TRIAL PACKET: All 3 colors mixed. No. 729 pkt., 15c; oz., 25c; 1/4 lb., 75c, postpaid.

SCARLET WONDER

The Black Seeded Favorite

712—Did you ever see a scarlet watermelon, not just red, but a bright flaming scarlet? The black seeds and dark green rind contrasting sharply with the bright scarlet flesh makes sales for this melon. Appearance sells the first melons. The high quality takes care of resales as there is no better quality melon grown. Medium size, early, thin, tough rind—a good shipping melon as well as a melon for the home garden. Easy to raise, too. A great favorite everywhere planted.

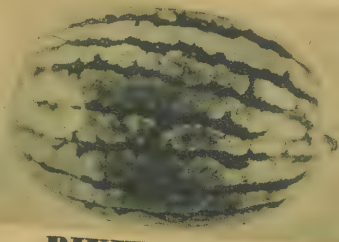

Pkt., 5c; oz., 18c; 1/4 lb., 45c; 1 lb., \$1.15. Postpaid.

EARLY CANADA

701—This new melon is earlier than any of our American melons, and we recommend this for planting as far North as melons have ever been grown. Weighs from 10 to 15 pounds. Light green skin. The vivid scarlet flesh is very firm.

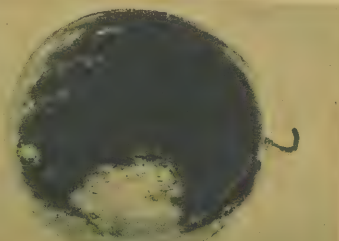

Pkt., 5c; oz., 19c; 1/4 lb., 55c; 1 lb., \$1.65. All Postpaid.

DIXIE QUEEN

722—Good; I'll say they are, AND EARLY TOO. Not as large as Early Kansas but you can expect a lot of 40 POUND MELONS. The melons are light green with narrow dark green stripes, thin rind, nearly round, very heavy bearers. And best of all, they are sweet as honey, easy to grow and very prolific.

Pkt., 7c; oz., 22c; 1/4 lb., 60c; 1 lb., \$1.50. All Postpaid.

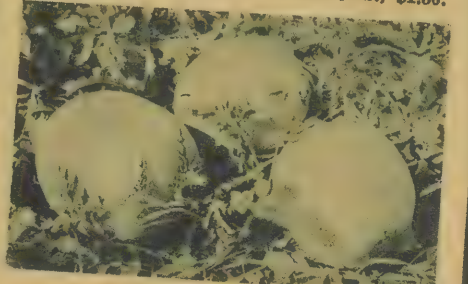

EARLIEST & SWEETEST

The Earliest

714—The melons weigh from 12 to 15 pounds, the flesh is scarlet, very sweet, and fine grained. They are very heavy bearers, often producing 10 to 12 melons to a hill.

We wish to say to our Northern customers that this is the one you should plant. There is little use in planting the large late varieties in your locality. They are only a disappointment—nearly ripe when the frost comes. You will always get under the wire with the Earliest and the Sweetest.

Pkt., 10c; oz., 25c; 1/4 lb., 65c; 1 lb., \$1.50.

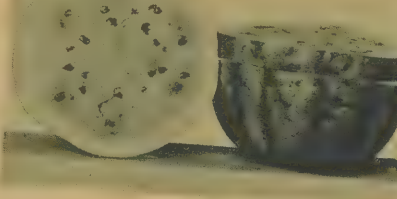

GOLDEN HONEY SWEET

Big, Yellow, Sweet as Sugar

718—A golden yellow fleshed watermelon and good. Better quality than any of the red fleshed melons. Early, large, and different. Why not raise a patch of these delicious melons? If you want to raise the sweetest melons you've ever tasted—try these! Just like with the new early Sugar Lump melons, we believe you'll find that these yellow melons are sweeter and tastier than the reds.

Pkt., 5c; oz., 18c; 1/4 lb., 36c; 1 lb., \$1.00. All Postpaid.

WINTER WATERMELON

Keeps All Winter

717—In the late Fall when all other melons are gone, go to the barn or strawstack where they are stored, get a big round Winter Watermelon so crisp that sometimes it will split wide open when you stick a knife into it.

When it is cut, it is so bright scarlet in color and so attractive, that it looks good enough to eat—and it is.

If you are a market gardener, you can lengthen your melon season out over a month, and that means more profits.

The melons are nearly white, weigh from 15 to 25 pounds, and are very heavy bearers.

Pkt., 6c; oz., 18c; 1/4 lb., 45c; 1 lb., \$1.15. All Postpaid.

CITRON MELON

For Pickles

721—Used exclusively for preserving or pickling. The rind is dark green, distinctly striped with light green. Will keep in good condition for some time after pickling. You may plant beside regular melons. It will not cross pollinate to harm your other melons.

Pkt., 5c; oz., 15c. All Postpaid.

New Sugar-Lump Melon

Comes in 3 Separate Colors

One of the earliest and sweetest melons we have to try them to appreciate them. Comes in three separate colors: Yellow Sugar Lump, Red Sugar Lump, White Sugar Lump.

MIXED WATERMELONS

Boy's Melon Patch Special

710—An especially fine mixture for the Boys who like to grow melons. Give them room for a few and they will have some real fun.

Pkt., 5c; oz., 15c; 1/4 lb., 35c. All Postpaid.

Parsnips

Hollow Crown Parsnip

271—The best and most popular variety of all. Vigorous grower, very dependable, superb sugary flavor. Roots about 3 inches in diameter and shoulders taper to a smooth point. Hollow crown, flesh white. Tender, exceptional quality. Pkt., 5c; oz., 22c; ¼ lb., 70c; 1 lb., \$1.85, postpaid.

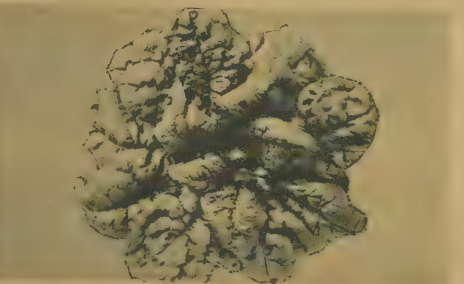

Cauliflower

EARLIEST MARKET

223—By careful selection and breeding, we have kept this wonderful Cauliflower at the top of the list. Large size, fine grain, a beautiful white color, a sure header, and above all, it is very early.

Pkt., 15c; ¼ oz., 85c; ½ oz., \$1.55. All Postpaid.

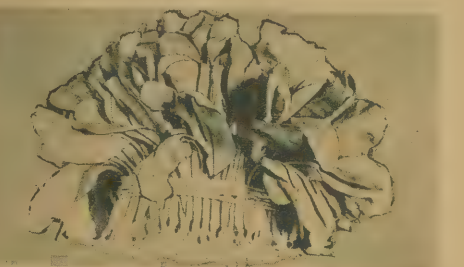

Spinach

The Long Standing Kind
Sow seed in early spring—1 inch deep
KING OF DENMARK

207—Spinach is one of the vegetables everyone should eat, and while you are eating spinach, eat the best, which is King of Denmark. This large, thick-leaved spinach is very slow to go to seed and holds its fine quality after all other varieties are gone. A fine strain for canning. King of Denmark forms large compact tufts of dark green crinkled leaves.

Pkt., 9c; oz., 17c; ¼ lb., 42c. Postpaid.

Mustard Spinach OR TENDERGREEN

222—This new vegetable is all its name implies—a very mild mustard with a creamy spinach flavor. Everyone should eat greens and here is something different and better.

Pkt., 8c; oz., 18c; ¼ lb., 45c. All Postpaid.

Egg Plant

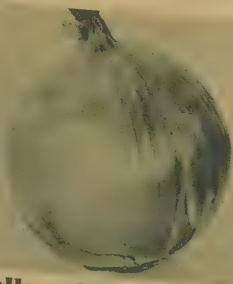

Sow in hotbeds very early in the spring and transplant to 2 or 3 feet apart, in very rich, warm ground. Hoe often and hill up gradually until they blossom.

657—**BLACK BEAUTY.** The best variety in cultivation, being early, a sure cropper and of fine quality. The fruit is large, oval, very deep purple.

Pkt., 8c; ½ oz., 28c; 1 oz., 48c. All Postpaid.

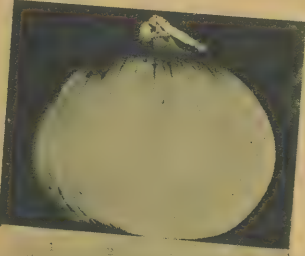

ONIONS

From SEED PLANTS or SETS

Yellow Sweet Spanish

303—Riverside (110 days). Largest and mildest onion for the north. Often weighs over 1 lb. Yields of 1000 bu. per acre are common. Very mild and sweet. Always a good market for these. Pkt., 10c; oz., 75c; ¼ lb., \$2.25; 1 lb., \$6.75. Postpaid.

Southport Yellow Globe

302—(110 days to maturity)—This beautiful pale yellow onion is the best keeper of all the yellow onions. A very heavy yielder of large, sweet, mild-flavored onions. Pkt., 10c; oz., 48c; ¼ lb., \$1.40; 1 lb., \$4.20. All Postpaid.

Southport White Globe

307—(110 days)—Here is the best white onion that you can cultivate. It is large, perfect globe, excellent quality, a good keeper, and silvery white in color. Pkt., 10c; oz., 75c; ¼ lb., \$2.25; 1 lb., \$6.75. Postpaid.

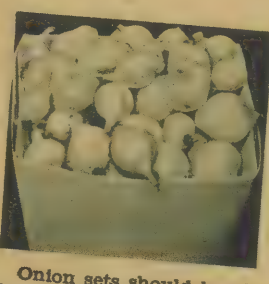

White Welch Bunching

314—This is absolutely the best green onion. The seed can be planted in the spring, and by mid-summer you can start using the onions. It is a perennial, and a bed once established will last for years. Pkt., 10c; ½ oz., 45c. Pp.

Dakota Red Globe

309—This Southport Red Globe onion has been raised in South Dakota for many years. It is a very heavy yielder and is from 10 DAYS TO 2 WEEKS EARLIER than the regular Southport Red Globe. Pkt., 10c; oz., 60c; ¼ lb., \$1.75. Postpaid.

ONION SETS

Everyone should plant onion sets for early green onions, and many prefer to grow their large onions from sets instead of from seed, as they can market them much earlier while the price is high. Our sets are small sized.
"A quart's a pound, the world around."

PRICES: Postpaid

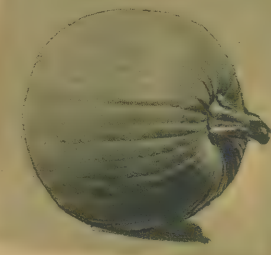

Yellow Bottom Sets: 1 lb., 35c; 4 lbs., \$1.25; 8 lbs., \$2.25. No red or white sets this year. Order yellow ones—they are the best.

Write for prices on larger quantities.

Onion sets should be planted real early in the spring. Plant them deeply if you want best green onions. The onion bulb naturally grows on the top of the soil so don't throw too much soil against them when cultivating them. One quart will set 50 feet of row. Harvest when half the tops have fallen.

PUMPKINS

FOR PIES AND STOCK FEED: 1 Ounce for 25 Hills; 4 Pounds Per Acre. Pumpkins are easily grown and profitable for stock feeding. At time of corn planting scatter seeds in every fourth or fifth hill, or for a large crop sow in May in good warm soil, in hills eight to ten feet each way.

DICKINSON

← The New Pie Pumpkin

762—The outstanding new pumpkin. Rich, golden colored flesh. So sweet that additional sugar, starch, or coloring is unnecessary. The brilliant color of the flesh makes unusually attractive pies—richer, sweeter and better than you have ever eaten before. Seed supply very limited.

Pkt., 10c; oz., 20c; ¼ lb., 45c. All Postpaid.

SMALL SUGAR

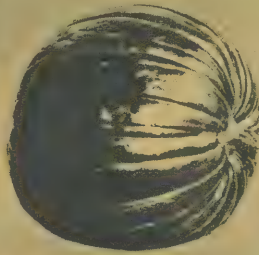

← For Finest Pies

766—This variety is smaller than the Large Field, but of finer grain, sweeter and very prolific. We recommend small sugar as one of the best for pumpkin pies. Everywhere it is planted, it becomes a favorite of the family cook.

Pkt., 5c; oz., 20c; ¼ lb., 45c; 1 lb., 98c. All Postpaid.

Small Sugar

Connecticut Field

← For Pies or Stock

764—A good keeper and an immense yielder of fine stock food because of its enormous size—often over 100 lbs. each. An old favorite. Makes fine pies, too.

Pkt., 5c; oz., 12c; ¼ lb., 30c; 1 lb., 85c. All Postpaid.

Giant Packet Pumpkins Mixed

—All Kinds, Sizes, Shapes and Colors—

Everything from pies to Jack-O-Lanterns and stock feed in this packet. If you like an assortment and haven't room for a planting of each kind, use this mixture. Plant plenty. Pumpkins thrive in the edge of the cornfield. No. 768—Pkt., 5c; oz., 15c; ¼ lb., 35c; 1 lb., 95c, postpaid.

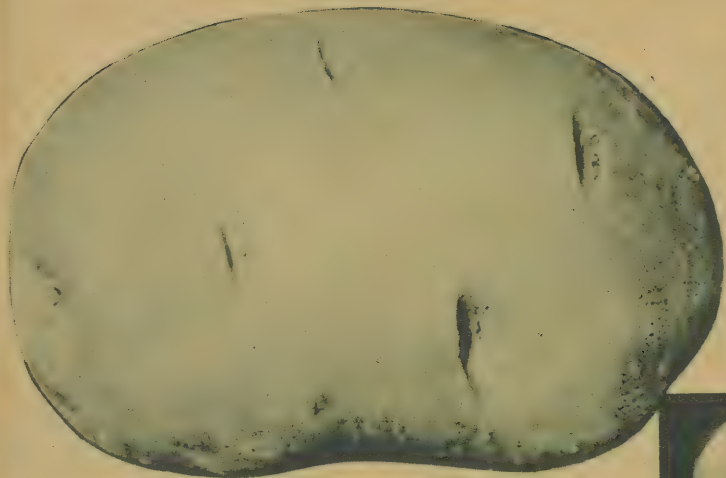

Mammoth King

← The Biggest of All

769—The largest variety ever introduced. 100-lb. pumpkins are not unusual and single vines often produce 4 or 5 large pumpkins. An enormous yielder, having produced over 100 tons per acre. The flesh is very thick, bright orange color and of fine quality.

Pkt., 5c; oz., 20c; ¼ lb., 45c; 1 lb., 98c. All Postpaid.

EARLY OHIO

Although the crop of Early Ohios in the Red River Valley was extremely short this year, we were fortunate in securing our stock from one of the more reliable growers. Smooth, firm skinned, shallow eyes, with that oblong shape and dull red color characteristic of this famous old favorite.

Price: 100 lbs.\$3.85

SEED POTATOES FROM THE RED RIVER VALLEY

These varieties will increase your potato yield per acre. Raise plenty this year. Good seed potatoes are scarce this spring. Be sure of getting yours by ordering early. **SAVE —BY ORDERING IN FULL 100 LB. BAGS.**

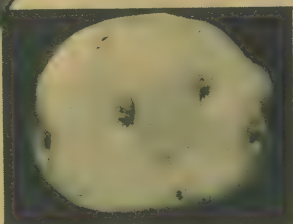

GUARANTEE—We absolutely guarantee your seed potatoes purchased from Gurney's are true to name, genuine Red River Valley grown stock. Furthermore, we believe they are superior to seed potatoes grown in any other part of the United States.

ORDER

SEED

POTATOES

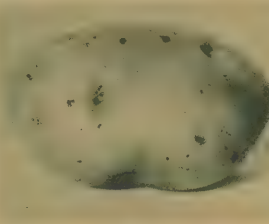

EARLY

BLISS TRIUMPH

A fine, early, round red potato. Uniform size, shape, and a good heavy yielder. Most widely planted variety in South Dakota. Unusually high quality, a very fine keeper. Plant this potato as the mainstay in the home garden. You can't miss here, as this variety will pay off for everything put into it. One of the best for digging early and boiling with the jackets on.

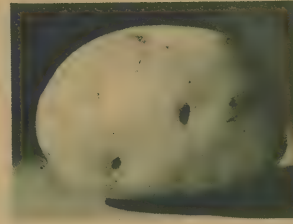

Price:
100 lbs.\$3.45
F.O.B. Yankton

IRISH COBBLER

A medium season, main crop potato, smooth and a favorite of everyone who grows it. Tubers are slightly flattened, blocky, with eyes of medium depth. An extra fine potato for the home garden. Keeps splendidly if allowed to fully mature. Cooking quality is of the highest. This old and proved variety has proved its value many times over.

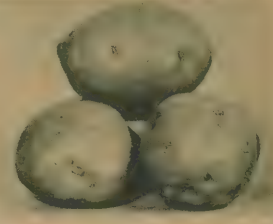

Price:
100 lbs.\$3.45
F.O.B. Yankton

PONTIAC

Pontiac is one of the newer potatoes. It is a cross between Early Ohio and Triumph, and by far the best yielder and best quality potato in the Red River Valley. It seems to be more disease free than many of the others. Be sure part of your crop this season is Pontiac and see the extra yield and finer quality you get. Our supply is limited.

Price:
100 lbs.\$3.85
F.O.B. Yankton

EARLY WARBA

The earliest potato grown today. A high yielder and of excellent quality. The eyes are pink, inclined to deepness, disease resistant and produces a crop of potatoes in hot, dry weather when others fail.

Early Warba for extra earliness, fine size and shape, excellent cooking and eating quality.

Price:
100 lbs.\$3.85

Gurney's MISCELLANEOUS VEGETABLES—HERBS

CELERY

GOLDEN PLUME

662—This new self-blanching celery is very early, a beautiful golden yellow and is always crisp and tender. Eat fresh celery from your own garden. It is better.

Pkt., 10c. Postpaid.

GIANT PASCAL

661—This is the largest celery grown. The stalks are very tall and heavy, and when blanched are yellowish white. The heaviest yielder of all, and the best winter keeper.

Pkt., 10c. Postpaid.

CELERIAC

208—LARGE SMOOTH PRAGUE: A variety of celery having turnip shaped roots which are used for seasoning soups, meats, and in salads. This is the best and largest variety, and is very easy to raise.

Pkt., 10c; ½ oz., 25c. All Postpaid.

ASPARAGUS

200—MARY WASHINGTON: Everyone likes Asparagus, and every home should have an Asparagus bed. It is easy to raise and once established will last a lifetime. Mary Washington is the largest of all and is rust resistant. Don't let another year pass without an Asparagus bed.

Pkt., 10c; oz., 20c; ¼ lb., 50c. All Postpaid.

RHUBARB

237—Rhubarb: It is easily grown and produces abundantly. It comes the first of anything in the spring, just when you want it. It will grow any old place and will thrive there for years.

Pkt., 7c; oz., 20c; ¼ lb., 50c. All Postpaid.

TURNIPS

Turnips are easy to raise. Early varieties can be sown in the spring, but most kinds do best as a fall crop. Sow 2 to 3 lbs. to the acre the last part of July. 1 oz. will drill 150 feet of row. Turnips grow until severe freezes. Store in cave, basement or pit. Purple Top White Globe is the best all-around variety.

GURNEY'S PURPLE TOP WHITE GLOBE TURNIP

For Fine Flavor

807—This all-season turnip is sweet and tender from the time it is large enough to use until the following spring. We consider this the finest table turnip on the market today, and also an immense yielder of rich stock feed.

Pkt., 7c; oz., 15c; ¼ lb., 35c; 1 lb., 90c. All Postpaid.

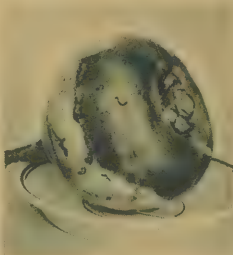

PURPLE TOP STRAP LEAF TURNIP

Good for Storage

806—Flat; fine flavor and one of the most popular varieties grown. When sown late it is one of our best varieties, an excellent keeper.

Pkt., 5c; oz., 12c; ¼ lb., 35c; 1 lb., 98c. All Postpaid.

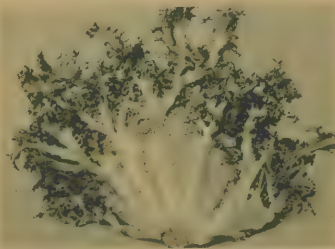

PURPLE TOP YELLOW RUTABAGA

Heavy Yielder

808—More of this variety is raised than any other. The roots are purple above and an attractive yellow below. The light yellow flesh is firm, sweet, and fine flavored. It has very small necks and no side roots. One of the best for table or for stock feed.

Pkt., 5c; oz., 20c; ¼ lb., 35c; 1 lb., \$1.00. All Postpaid.

ENDIVE

234—Easy to raise and good to eat as greens or in salads. When fully grown, tie over the outer leaves to blanch, making beautiful, creamy white heads.

Pkt., 7c; oz., 25c. Postpaid.

CHIVES

311—Chives (Schnittlauch): This perennial plant of the onion family is used for seasoning soups, salads, and stews. It is easy to get started, and once established will grow for many years.

Pkt., 10c; ¼ oz., 35c. Postpaid.

LEEK

231—Leek—September Giant: This new giant white leek is the largest and best of the leek family. The stalks are often 12 inches long and 2 inches in diameter. Soups and salads flavored with leek are delicious.

Pkt., 10c; ½ oz., 25c. Postpaid.

GARLIC BULBS

229—Garlic is always rather high in price and often you are unable to buy it when needed. Why not raise your own and supply your neighbors.

5c per bulb; ¼ lb., 25c; ½ lb., 35c. All Postpaid.

TOBACCO

235—An excellent strain for northern states. Does beautifully in Wisconsin and Minnesota and makes a fine crop in the middle states too. Grow your own tobacco, on your own farm. Cultural directions printed on the packet. Price: Pkt., 6c; ¼ oz., 20c; ½ oz., 35c. All Postpaid.

HERBS

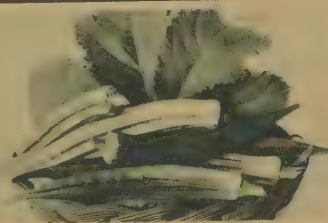

241—Caraway: Cultivated for the seed used in confectionery and medicine. Pkt., 7c. Postpaid.

245—Dill: The leaves are used in soups, and in pickles. Pkt., 5c; oz., 15c. Pp.

246—Sage: The leaves and tender tops are used in stuffing and sauces. Pkt., 7c. Postpaid.

Before BUG TROUBLE Starts
in YOUR GARDEN order a BIG SUPPLY of
GURNEY'S BUG DUST **See Page 30**

OKRA OR GUMBO

236—Extra Early Dwarf Green: Okra is delicious for stews, for flavoring soups, and for salads. It is easy to raise and yields immense crops. The pods are used when from 1 to 2 inches long. Why not try this different one?

Pkt., 5c; oz., 15c. Postpaid.

RUSSIAN → SUNFLOWER

239—Produces immense heads, as much as 20 inches in diameter, and yields of 50 bushels per acre are not uncommon. The seed is used for chicken feed, and the stalks make silage said to be more nutritious than corn.

Pkt., 5c; ¼ lb., 10c; 1 lb., 30c; 5 lbs., \$1.00. All Postpaid.

Boys and Girls → WIN CASH AND PRIZES IN YOUR SPARE TIME

IT'S EASY TO MAKE MONEY OR GET VALUABLE PRIZES

There are very few boys and girls who wouldn't like to have a chance to make some money for their very own or win one of the valuable prizes pictured on this page.

And there's nothing better for them to do than to try a small business venture of their own to learn how money is made.

So Gurney's have arranged a special business deal for children. A valuable collection sold inexpensively and the profits from the sale will go to the boys and girls either in the form of cash money or in prizes, whichever is selected.

HERE'S THE DEAL—

1. Fill out the coupon at the bottom of the page and send it to Gurney's, Yankton, South Dakota. We will send you by parcel post prepaid, at once, ten giant bargain collections of seed for you to sell. You need not send any money until they are sold, but if you do not sell them within a month, you are to return them.

2. When you have sold all ten collections, you get \$1.25 in cash for your share, or one of the premiums on this page. By buying these premiums in big quantities, we get the manufacturers' low price and we have made your share of money cover the wholesale price of each one.

3. You send us the \$4.90 you receive for the ten collections and tell us which premium you want and we will send it to you by parcel post.

4. If you would rather have your share in cash, keep the \$1.25 out and send the rest to us. We trust you.

5. In case you cannot sell all ten collections, sell what you can and return the rest by mail, keeping one fifth of the money you collect.

6. The collections must all be sold at the same price—49c. We believe in one price to everyone—it's the only fair way.

Don't put off until some other GURNEY "SEED KID" has sold your neighborhood—get an early start and you'll sell more easily. This collection is easy to sell.

Gurney's "Seed Kids" Collection 10 Giant Packets for 49c

Easy to Sell—Packets Less Than 5c Each

These collections will go like hot cakes for each one includes 10 giant packets of the most popular garden and flower seeds, all for 49c—less than a nickel apiece, or less than your customer can buy them for anywhere. The collection is put up in an attractive package which makes it easy to sell, and there's a free gift on the front of each collection so your customer is going to be very pleased. Each collection contains enough seed for a good sized Home Garden. One packet each of:

Early Scarlet Globe Radish
Early Coreless Carrott
Early Simpson Lettuce
King of Denmark Spinach
Iceberg Radish

Early Dark Red Beet
Scarlet Topper Tomato
Everbearing Cucumber
Hollow Crown Parsnip
California Giant Zinnias—Mixed colors

PLUS a Free Gift With Each Collection

To GURNEY'S,
Northwest's Largest Seed & Nursery House,
Yankton, South Dakota

Gentlemen:
Please send at once by parcel post prepaid the 10 Gurney's "Seed Kids" Collection of seeds. I'll do my best to sell them at 49c each and if I do not sell them all, will return them in good order. When they are sold I will divide the money, keeping for my share \$1.25 in cash, or send all the money to you and take one of the premiums.

Grow
White Hybrid
For Premium Prices

Gurney's **SILVER KING** White Hybrids

This is going to be another year to plant white hybrids and get the premium prices. The big mills everywhere are crying for more white corn, and with the market the way it is, you shouldn't lose out on the extra cash. Gurney's Silver King White Hybrids have been bred for conditions in Gurneyland. They're the best, highest yielding, surest white hybrids you can buy anywhere.

Here are 7 reasons why you should plant them this year:

1. They bring highest price
2. They produce highest yield
3. Most vigorous growers
4. Best quality corn
5. Most uniform ears
6. Deepest kernels
7. Healthiest roots

We offer only the two best hybrids. Our 90 is grown in our Minnesota fields where conditions are best for it. Our 100 is grown here at Yankton. Both are cleaned, graded and processed right here in our new, up to the minute plant.

Gurney's 90 WHITE Matures in 90 Days

The only successful true 90 day white hybrid offered today. Stands and yields surprisingly well—often outyielding early yellows. Bred from Silver King Rustler and Pioneer.

Gurney's 100 WHITE

Amazing yielder. Does not lodge. Good for machine picking. A cross of two lines of Iowa Silver Mine and early South Dakota Silver King.

**Best Flat
Edge Drop**

\$9.50
per bu.

**Best Round
Hill Drop**

\$7.50
per bu.

**PROPERLY GRADED
AND TREATED**

All of these white and yellow open pollinated corns will be very carefully graded just like our Northern Hybrid corn. The grading will be far superior than you used to get on open pollinated corn. Sacked in bushel bags and treated with special corn dust for quick germination as well as protection from rodents.

GURNEY'S GOLDEN HYBRIDS

Gurney's Northern Hybrids

MINNESOTA and WISCONSIN GROWN
Ideal Hybrids for the North

All of our extra-early numbers are grown on acreage contracted in Minnesota and Wisconsin and dried in our Minnesota plant. We do this to insure their earliness. The dried seed corn is then shipped in carlots to Yankton for perfect grading. These are all heavy yielding early hybrids, bred for the North country and grown in adapted localities.

Best Flat Edge Drop

\$9.25 Per Bu.

Best Round Hill Drop

\$7.50 Per Bu.

GURNEY'S NORTHERN 85

Matures in 80 to 85 Days

The earliest yellow dent grown. An amazing yielder. Stands up well, picks easily. For the farmer who wants the very earliest of all corn.

GURNEY'S NORTHERN 85-A

Matures in 85 to 88 Days

This is a new number for us this year. Does better on some soils than 85. Try both this year and see which is best for you. Slightly later than 85.

GURNEY'S NORTHERN 90

Matures in 88 to 90 Days

Best-appearing and best-yielding extra early yellow dent hybrid sold today. Has done exceptionally well for June planting in the corn belt, too.

GURNEY'S NORTHERN 90-A

Matures in 90 to 95 Days

Here is another new number that will outdo 90 in some sections. This one shows the most promise for its maturity of any one we know. We like them both.

Gurney's Golden Hybrids

SOUTH DAKOTA GROWN for Spring 1946

Here are the famous Gurney Golden Hybrids, grown at Yankton, that have become standard over the Northwest as ADAPTED NUMBERS, able to meet Northern conditions because they are bred for the North. With the largest complete hybrid corn growing and processing plant and facilities in our area we take great pride in presenting these outstanding numbers to our customers. They are bred for practical farmers and practical conditions.

Best Flat Edge Drop

\$8.50 Per Bu.

Best Round Edge Drop

\$6.50 Per Bu.

GURNEY'S GOLDEN 100

Matures in 100 Days

A good early number for late planting in the Yankton territory. Good for normal planting as far north as Southeastern North Dakota. Perfect for late planting in the Corn Belt. Big yielder—no lodging—no ear dropping.

GURNEY'S GOLDEN 105

Matures in 108 Days

This is a new number this year and already we have reports that say "the best of all the numbers I got this year." We advise you to try at least a bushel of this outstanding hybrid. If you have grown our famous Golden 112, you'll like this one.

GURNEY'S GOLDEN 112

Matures in 108 to 110 Days

This is our "best seller." Will produce more corn in fewer ways than any other hybrid on the market today. That's a strong statement, but we know 112 will come through for you. High shelling percentage—big yielder—the best feeding type.

GURNEY'S GOLDEN 115

Matures in 110 to 112 Days

Here is another new one you will want to try. It shows up best late in the season. Makes big ears, a big yield and excellent feeding quality. Easy to pick by hand or machine. Does not drop its ears or lodge.

GURNEY'S GOLDEN 118

Matures in 112 to 114 Days

We call this one our "old standby." It's hard to beat for yield and feeding. Big, long ears with a rough dent. The kind you like to brag about. And you will, too. Especially good for the farmer who operates a feed lot.

GURNEY'S GOLDEN 120

Matures in 115 to 118 Days

This is the number for the farmer who plants early to take advantage of full growing season to produce really "big corn." It's our longest maturing corn. Really capable of producing big yields of good feeding corn.

HARDY NORTHERN GROWN HYBRID

There is a reason for the growing popularity of Gurney's Golden Hybrids—it's because they are NCRTHERN GROWN. This makes them hardy against weather conditions which most other hybrids never see. Gurney's have always been known for ADAPTED NORTHERN seeds of all kinds, and the Golden Hybrids are the crowning achievement of almost 80 years of breeding and experimentation in the Northwest. When you plant Gurney's Golden Hybrids, you know they are adapted to northern conditions and will withstand the rigorous weather conditions which are often too much for unadapted hybrids.

"Gurney's No. 85 Series is as good early corn as we've ever planted," says William Koertje of Bloomfield, Nebr. His field was washed out and replanted on June 25, but it will still run over 50 bushels to the acre on light, hill land.

HYBRID SILO CORN

Here is a Gurney development which will pay dividends in the silo. It's a silage hybrid of tremendous growth, which will produce outstanding tonnages per acre. It is leafy and palatable—just what the stock like to eat.

Flat Edge Drop	\$6.50
Round Hill Drop	5.00

Better Strains Open Pollinated SEED CORN SILVER KING

The Best Early White (Pictured Above)

This wonderful white corn was introduced by the Wisconsin Agricultural College. With white corn selling now 15c bu. over yellow on the market, this is going to be our most popular variety. Get it while our supply lasts.

It is large, medium early, and the most beautiful of any white corn. The stalks grow from 7 to 9 feet tall, ears 8 to 12 inches long, and yields of 70 bushels per acre are not uncommon.

It is suitable for northern Iowa and Nebraska, South Dakota and southern Minnesota.

Price: \$4.00 per bu., \$3.90 per bu. in 5 bu. lots.

MINNESOTA 13 The Best Yellow

We got the stock seed for Minnesota 13 direct from the Minnesota Department of Agriculture. Good size stalks and the ears are large. Extra good yielder. You are all familiar with the quality and results that can be had with this old standby in open pollinated corn. It's widely known and planted. A wonderful corn for this entire section including Upper South Dakota and Central Minnesota.

Price: \$4.00 per bu., \$3.90 per bu. in 5 bu. lots.

GURNEY'S RAINBOW FLINT The Drought Resistant Corn

Rainbow Flint will stand more dry weather and still produce a better crop than any other corn we know of. It is the largest eared, highest yielding early flint corn.

Rainbow Flint is absolutely the best corn for hogging off. It is an immense yielder both of corn and fodder. Many of the ears are 12 to 15 inches long. The stalks grow from 7 to 8 feet tall, produce two ears to the stalk, and are leafy clear down to the ground.

Rainbow Flint should mature as far north as the north line of South Dakota, and is suitable for ensilage and fodder clear to Canadian line.

Price: \$4.00 per bu., \$3.90 per bu. in 5 bu. lots.

"Northwest's Largest Seed and

Home of Gurney's Golden Hybrid

Come See Us at Yankton

This is our big new corn processing plant at Yankton, S. Dakota. It's the biggest and most modern of the section, and is one of the reasons for the superior performance and popularity of Gurney's Golden Hybrid. That's the new dryer in the foreground. We had to enlarge it again this year to take care of increased production. In the background you can see the Gurney elevator and seed cleaning mills, where all kinds of field seeds and corn are processed to perfect uniformity and grading. We hope you'll find the opportunity to "come see us at Yankton." We'd like you to come, but if you can't come, write us a letter.

WHY FARMERS PREFER GURNEY'S Northern-Grown HYBRID CORN

Each year Gurney's Golden hybrids make more record breaking yields wherever planted and win new friends throughout the great Northwest. Being one of the largest northern hybrid growers, it is natural for the farmer to turn to Gurney's for the BEST in NORTHERN GROWN hybrids. And here are a few of the ways in which Gurney's Hybrid corn is superior:

1. GURNEY'S HYBRIDS YIELD 10 TO 20 BUSHEL MORE PER ACRE—Bred from the finest inbreds, they will outyield ordinary corn consistently on your farm. It pays to buy high yielding seed like this.
2. GURNEY'S HYBRIDS ARE DROUTH RESISTANT—They are bred with giant root system that goes down deep for moisture and stands high temperatures and dry weather where ordinary corn can't take it.
3. GURNEY'S HYBRIDS ARE COLD RESISTANT—You can plant them early. They are resistant to cold in the spring.
4. GURNEY'S HYBRIDS ARE GOOD FEEDING CORN—They are not hard and flinty. They are the real Reid's farmer type corn.
5. GURNEY'S HYBRIDS ARE UNIFORMLY GRADED—All seed uniform and regular, guaranteed to please you or no deal. Every bushel is treated with corn dust to protect against soil borne disease.

FLAT EDGE DROP GRADED CORN

Most farmers know and most farmers plant flat edge drop graded corn. When you buy from Gurneys you are assured absolute uniformity—corn graded to run through your planter box evenly and smoothly. The very latest and best in grading machines assure you this. If you like to plant flat kernels we can give you the best grading you've ever seen.

Perfectly Graded Flat Kernels.

ROUND HILL DROP SAVES YOU \$2.00 PER BUSHEL

You can save an extra \$2.00 per bushel on your corn by planting hill drop. It is just as regular and uniform as edge drop, only the kernels are round (they weren't squeezed as hard on the ear as the flat kernels). They stand more cold weather than flat kernels, have the same breeding, and will give you as good a crop as flats.

If you want to save more on your hybrid seed corn costs, plant "hill-drop" graded corn this year.

Perfectly Graded Round Kernels.

BOOK YOUR CORN NOW BEFORE THE PRICE RISE

We have set these low prices on Gurney's Hybrids to encourage early orders.

The low prices on Gurney's Northern Early Hybrids were purposely set low to encourage early orders. Good hybrid corn is going to be short and we want all Gurney customers to get their orders in EARLY so they will not be disappointed.

Remember, our prices rise 50c a bushel on February 23. Don't delay. Get that order in NOW.

About the Hybrid Supply This Year

You probably know better than we do how late corn was this year and how much of it was caught by the early freezes. There is lots of "soft" corn. Most of it can be feed. Some of it can't. But the hybrid SEED fields that were caught were almost a total loss as Seed. Germination went down so low they had to be turned to feed, too. All this means a SHORTAGE of Hybrid Seed. And it means that the man to order his seed EARLY will be the winner.

Nursery House"—GURNEY'S, Yankton, So. Dak.

Our Low Opening Tested Field Seed Prices Are Below

Gurney's Field Seeds Are Rigorously Cleaned, Tested and Packed by Expert Seedsmen

TESTED FOR PURITY AND GERMINATION

All Gurney's hardy, northern-grown field seeds are carefully tested for purity and germination, both when the seed comes in from the field and after cleaning. These tests are conducted in a modern laboratory by trained seed analysts. Absolutely every bit of seed must meet rigid, high standards for both purity and germination or it is not accepted for sale. You can't buy finer field seeds than Gurney's. And despite the care taken in maintaining high standards, you always save at Gurney's.

YOU SAVE BY BUYING DIRECT

You get better field seeds for less money by buying direct from Gurney's. Buying DIRECT cuts out the extra commissions, extra profits, and extra delivery charges. And these savings ARE YOURS. In many cases, Gurney's price direct-to-you is lower than wholesale quotations on the same quality seed. If you can save from \$5 to \$50 on your field seed needs this spring, it's worth doing, isn't it?

GURNEY'S SEEDS SOLD ON APPROVAL

Gurney's are so proud of the quality of their field seeds they are willing to do what few seed houses can do and that is—guarantee to please you. You have 10 days after you receive your seed to look it over, examine it, test it in any way you see fit and if it doesn't please YOU 100%, send it back for full refund or exchange. Gurney's seed always pleases. That's why we can afford to make a guarantee like that.

FREE SAMPLES

You may have samples of any field seed you are interested in buying at any time, FREE. We are anxious to have you see the superior quality of Gurney's field seeds and will gladly send you samples of any seeds you are interested in.

Because of Market Changes, all Prices on this page are quoted Subject to Change without Notice. Buy Early and avoid any Price Raise.

ABOUT SEED SHORTAGES THIS SPRING

Yes, the seed shortages are still with us and we can't get away from it. That is why the wise farmer will protect himself by buying right NOW, the earlier the better.

Seed did not set good in lots of seed producing sections again this year. Government reports show legume crops to be short—awful short.

Seed crops of Alfalfa, Alsike, Red Clover, just to name a few, won't near last out the season. O.P.A. prevents seed from going sky high, but that does not increase supply of seeds for planting.

Be wise! Don't delay! Take advantage of these opening prices, order your seed and have it shipped immediately. That is the best way to be sure of seed when planting time rolls around. The prices are right and quality good. Stocks are limited, but Gurney's have a fine line—at least to start the year.

Premium Dakota No. 12 ALFALFA

99 1/4% PURE

You can't afford to pass up this lot. The old standby and favorite alfalfa of thousands of farmers. Winter hardy, grows taller than other varieties, therefore makes more hay per acre. Adapts itself perfectly to a wide range of soil and weather conditions. Bright, clean, plump berries, free from weeds and ready to go.

We were only able to obtain a few hundred bushels of this lot of seed. Bought early and while it lasts can pass the saving along to you. ORDER ALFALFA YOU NEED NOW!

Here's a lot that won't last long at this price. Every farmer knows Grimm and prefers it.

BIG BARGAIN—97% Pure
This seed is 97% pure, high germinating, qualifies for all AAA payments. Don't pass up this bargain.

Grimm is Hardest of All
Grimm is the hardest alfalfa of all, with long branching root stocks which grow deep, preventing winter heaving and killing. Is good on hard pan or dry soil territories. Very leafy and high in feeding value.

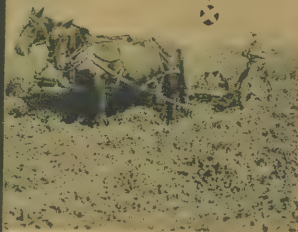

Alfalfa-Sweet Clover Low Cost Mixture

Can't Beat It for Value and Quality
The ideal mixture to sow along with Brome Grass. A natural mixture that is a "honey" in quality and very low in price. Check it with regular prices and see the saving. If you buy good unmixed seed and mix it yourself, it would cost you at least \$20.60 per bushel. Buying this natural mixture the cost is only \$16.50 per bushel and you save the difference. Mixture contains 50% hardy Northern Grimm Alfalfa along with 50% Sweet Clover. Ideal for hay and pasture. Will add lots of Nitrogen to the soil. Will stand close pasturing because of the Grimm alfalfa. All new crop seed. Plant 1 to 2 pounds per acre along with 12 to 15 pounds of Brome.

Only \$16.50 per bushel. Order early. This lot won't last long.

\$16.50
per bu.
\$27.50
per 100 lbs.

Save on Sweet Clover—Buy WHITE & YELLOW SWEET CLOVER MIXED

This mixture good for soil building, hay and pasture.

This mixture of white and yellow Sweet Clovers saves you money but still is better for pasture. The Yellow Blossom makes earlier pasture and the White Blossom makes later pasture, stretching pasturing season by several weeks. Ideal for soil improvement. Seed is cheap in this mixture but still meets all AAA requirements. The seed goes a long way and your pasture is better quality, finer stemmed, more tender than straight White Blossom.

By buying White and Yellow Sweet Clover Mixed you get good quality—but it costs you less. For many years, now, this has been one of our most popular mixtures for it does the job better, and still is a real money saver over other grades of seed.

\$9.50
per bu.
\$15.80
per 100 lbs.

NEW LINCOLN STRAIN BROME

Here is a new hardy, selected strain of smooth Brome that is perfect for the Dakotas, Nebraska, Iowa, etc. This long-lived perennial will give excellent spring, summer and late fall pasture as well as a high quality hay. Equal in protein content to alfalfa. All bright, clean, heavy weight seed. Plant 15 lbs. per acre alone or with Alfalfa. It's home grown seed and adapted in every way. Don't wait too long to order.

\$22.00
per 100 lbs.

DWARF TYPE SWEET CLOVER

More growers should know about this Dwarf Type Sweet Clover. It matures 2 to 3 weeks earlier than the tall Sweet Clover. Ripens evenly making a good type for seed. Try some of this lot this year in your oat or other small grain plantings. It will not interfere with harvesting the grain crops because of its shorter growth. We offer an extra nice clean lot 99 1/4% pure seed that's sure to please.

\$11.35
per bu.
\$18.90
per 100 lbs.

2 GOOD PASTURE CROPS

BEST NEW CROP SUDAN ALL HIGHEST QUALITY

\$8.25
per 100 lbs.

This is beautiful seed, 98% to 99% pure Sudan, absolutely noxious weed free. The heaviest, plumpest Sudan seed available.

ENORMOUS YIELDER

Sudan will carry more head of live-stock per acre than any crop we know of. Makes 6 to 10 tons per acre. High in feeding value, fine for hay, pasture, grows quickly. Plant 25 to 30 lbs. per acre, covering seed 1 inch deep. Pack seedbed well. Drill or broadcast.

DWARF ESSEX RAPE For quick—high feeding value pasture

\$18.50
per 100 lbs.

Here's a real buy in rape. Ideal for hogs, sheep, calves. All like it. Equal in feeding value to alfalfa and makes 100 lbs. gain quicker than alfalfa. Stands dry weather. Grows fast. Stands lots of trampling and comes back fast after pasturing. Every farm should have from 1 to 4 acres of rape and watch feed bills go down.

PREMIUM Tall Sweet Clover—99 1/4% Pure Extra Fancy Seed

Just think of buying Sweet Clover 99 1/4% pure, high in germination, plump new crop seed for only \$11.35 per bushel.

ALL TRIPLE RECLEANED

Our finest lot of seed—free from all noxious weeds and ready to go. Buy from Gurney's and save money.

Sweet Clover Ideal for Pasture, Seed, and Soil Building
Sweet clover is the perfect soil builder and should be used on all farms in crop rotation. Ideal green manure crop, perfect as pasture for hogs and cattle. Cash seed crop year after year.

Also high quality lot of Premium Yellow Sweet Clover if you prefer the yellow type at the same price.

\$11.35
per bu.
\$18.90
per 100 lbs.

O.P.A. Ceiling Prices

"MIDLAND" EARLY COMBINE GRAIN SORGHUM

Midland was introduced last year by the Ft. Hays Exp. Station in Kansas. None finer in any way for yields, quality and easy harvest type. Early in maturity, ripens fully before frost. Earlier than Martin's milo by 12 days. Highly resistant to chinch bugs. 50 bushel yields can easily be expected with this new combine type. Heads are compact, stalks stand up well until fully matured. Hurry your order—seed stock is very limited. Be the first to grow it in your neighborhood. In great demand for feed and manufacturing purposes. An improved selection of Kalo—so new it has just been named. We called it 617 last year.

\$750

per 100 lbs.

Northern Grown BROME GRASS

World's Best Pasture Grass
Brome Grass makes more pasture than any grass we know. Starts two weeks ahead of any other grasses and lasts two weeks later in the fall. Cattle and hogs both like it. Absolutely winter hardy—doesn't kill out. And, best of all, it's the ideal drought resistant grass with roots that go deep in the ground for moisture so it can STAND THE SEVEREST KIND OF HOT WEATHER.
HOW TO SOW—Sow early on a good seed bed, harrow or roll in well—rolling is best. Sowing with alfalfa, use 4 lbs. of alfalfa and 10 to 12 lbs. of Brome per acre. Sowing with Sweet Clover, use 10 to 12 lbs. of Brome and 6 lbs. of Sweet Clover, or sow alone, 15 lbs. per acre.

\$17.95

per 100 lbs.

For Dry Land BROME GRASS MIX

Here's a mixture made especially for permanent hay and pasture on dry land.

Over 50% Brome—Cheaper Than Brome

This mixture contains over 50% Brome with the balance in other hardy native dry land grasses such as Crested Wheat, Slender Wheat and others that do well in the drier sections of the United States. Stands the hottest summers or the coldest winters. A bushel is 45 lbs. Sow 12 to 15 lbs. per acre, early. Roll in well on a firm seed bed. Add 4 lbs. of alfalfa to the acre if you wish. Alfalfa and Brome can be pastured together with no fear of bloat.

\$6.95

per bu.

\$15.45

per 100 lbs.

SWEET SUDAN New Introduction

Sweet Sudan produces lots of sweet, juicy, palatable forage feed for all livestock. Developed after years of research by Texas Exp. Station and USDA. Very limited supply available. Sweet Sudan has far greater disease resistance and non-shattering qualities. Produces heavier growth, remains green longer. Lots more leaves. Plant some this year. Far superior to common Sudan. Plant same as common Sudan when seeding.
Special: 20 lbs. \$5.00, postpaid. Enough for 1 acre.

\$20.00

per 100 lbs.

Half and Half Permanent PASTURE MIX

Lot Half and Half is our most popular permanent Hay and Pasture Mixture where rainfall is fair to good. Is a carefully blended mixture of five grasses and five legumes in just the right proportions to grow in all types of soil and give you pasture ALL SEASON LONG. There is always something green even in the heat of the summer.

INCLUDES FIVE CLOVERS, FIVE GRASSES
To insure a good stand everywhere, this mixture includes, in proper proportions five clovers (alfalfa, red clover, alsike, Korean Clover, Sweet Clover) and five grasses (Kentucky Blue Grass, Rye Grass, Red Top, etc.).

LOT HALF AND HALF WITHOUT SWEET CLOVER
If you want us to omit Sweet Clover, we can supply the same mixture omitting Sweet Clover at only \$8.45 per bushel or \$18.75 per 100.

\$7.75

per bu. (45 lbs.)

\$17.20

per 100 lbs.

CRESTED-SLENDER WHEAT MIX

Equal Parts—50-50 Each
A Sensational Offer

WONDERFUL WINTER HARDY PERENNIAL DROUGHT RESISTANT GRASSES AT A PRICE YOU CAN AFFORD. IDEAL FOR NEBRASKA, KANSAS, DAKOTAS AND GREAT PLAIN STATES. SEED DOWN AND THICKEN YOUR TAME OR WILD PASTURES NOW.
Crested Wheat gives you results earlier with more rapid growth according to USDA Bulletin 1433. Slender Wheat used as a companion crop in this mixture is perennial and adapted to dryland conditions perfectly. Seed 10 pounds per acre for thickening and improving wild pasture and hayland. New seedings, 15 pounds per acre.

NOT INOCULATED vs INOCULATED

BE SURE TO INOCULATE

Makes Them Start Faster—Yield More

Don't spend good money for clover and alfalfa seed without inoculating it. It not only does better, but must be inoculated to take Nitrogen from the air and put it in your soil.

By inoculating, you make full use of the legume's ability to fertilize your soil by adding Nitrogen to it. Makes better clover stands and crops and better crops to follow. You should inoculate even if land was inoculated before.

When ordering, Always state name of seed

Gurney's Chicks

Gurney's Offers You Bargains in 12 Most Popular Breeds, Hybrids and Specials

Gurney's NEW HAMPSHIRE—This is often called the Leghorn of the heavy breeds, because it has heavy egg production like the Leghorn and still has the heavy weight of the heavy breeds. They mature rapidly and have vigor and hardiness of the White Leghorn and replace the White Leghorn on many farms due to their good size. They lay large brown eggs.

Gurney's WHITE WYANDOTTES—These are the deep breasted birds among the first to go to market. Very good broilers. Will reach 2 to 3 pounds quicker than most any variety. Good rustlers—pick up all waste seed on the farm. Easy to raise and mature rapidly.

Gurney's BUFF ORPINGTONS—This is Gurney's giant strain of Buff Orpingtons, especially good winter layers due to their large bodies and heavy plumage. These eggs come on the market when it is the highest. Make good heavy capons or heavy roasters. If you are interested in winter eggs and heavy meat birds, here's the variety for you.

Gurney's LEG-ROCK HYBRID Best Hybrid for Eggs

By crossing our outstanding White Leghorn males with some of our best White Rock females, we obtain this hybrid which has the egg-laying ability of the Leghorn and the size of the Rocks. But they have proved in many ways superior to both—laying earlier and more, maturing more rapidly and being very DISEASE RESISTANT. Easy to raise.

Gurney's WHITE ROCKS—One of the best of the dual-purpose breeds. Snow white plumage, fast maturing, rapid feathering, yellow colored skin, free from pin feathers. Lay large brown eggs bringing top market prices.

Gurney's BARRED ROCKS—The favorite on many farms. Barred Rocks are large in size, fast maturing, rapid feathering, make good broilers or heavy roasters. They produce large brown eggs. Gurney's have improved these by careful culling and mating with pedigreed males.

Gurney's Famous WHITE LEGHORNS

Our famous White Leghorns have proven to be one of the most popular breeds for our customers to raise. These are the large type (not beefy) and are full of vigor and are great rustlers. Don't make a mistake in thinking all White Leghorns are alike. They're not. Gurney's have worked for years to perfect a better laying strain and these EXTRA EGGS mean EXTRA PROFITS to you at no increased expense.

Gurney's AUSTRA-WHITE The Laying Hybrid

The famous cross of the champion egg laying breed of Australia, Black Australorps, with America's best egg breed, White Leghorn. Gets heavy egg production WITH MALES WEIGHING FROM 7 to 8 lbs. Try some this year. You'll want all your flock of this profitable breed next year.

Gurney's HEAVY ASSORTED—These are assorted chickens left over from the day's shipping in the heavy breeds. Often they come from the very top grades so it is a bargain you can't afford to miss.

Gurney's ALL BREEDS ASSORTED (40% Heavies). These are chickens selected from those left at the end of the day's shipping and often times of the very best breeds. We guarantee to ship 40% of the heavy breeds with this lot. You can't go wrong and will really save you money.

Gurney's BLACK AUSTRALORPS—This breed is famous for its massive size, early body maturity and great egg laying ability. They're good rustlers and the black plumage means good insurance against loss from foxes and hawks. If you try them once you are convinced for good.

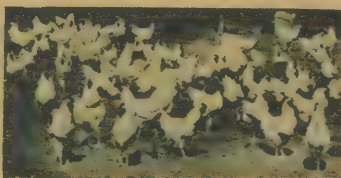

Quality at a Fair Price

"Quality at a Fair Price" is the Gurney pledge to you chicken growers. This is a clear cut policy with us, and it has brought us increased business and new customers to the point where this year we had to acquire an entirely new and immensely bigger Hatchery, with all the latest equipment, that will produce the best baby chicks that can be had.

We here in Gurneyland believe that 1946 is going to be another big year for chickens. We say this in spite of the lifting of food restrictions, because we know that it has always been cheaper to raise food than buy it. Prices are rising on almost everything. They are going higher. And this means that the producer, the man who has something to sell or something to eat he need not buy, will be out in front.

Chicks from Culled Flocks

Every egg set in the new large hatchery comes from flocks inspected, culled, and approved by our own hatcherymen. Every flock is carefully culled to retain only those birds of perfect body type, high-producing laying ability, and good health and vigor. When the males heading the flock are not from superior strains, they are replaced with males from flocks with high egg records. This blood counts in making Gurney's chicks superior.

This is one of the Gurney Breeding Flocks. These are all pedigreed chickens, and every male in this flock has an individual R.O.P. Pedigree of 250 to 300 large brown eggs. Such breeding stock means real value to you growers.

Note the extra large boxes in which we ship baby chicks.

Here's Where We Produce the Finest Baby Chicks in All the Northwest

New home of Gurney chicks. It is furnished with all new, modern equipment. The finest Hatchery in the Northwest. And it means better chicks at a better price for you. Drive in if you can. Plenty of parking space. And everything in chicken remedies and feeds on display for you to see.

Better Breeding Means Bigger Profit

It costs you no more to raise a high-producing chick than a scrub chick, but where the scrub chick often loses you money or makes only a small amount of profit, a high-producing strain will make you good profits.

Don't waste your time and feed on chicks of doubtful origin. It isn't worth it. This year, insist on Gurney's guaranteed high-producing strains and pocket EXTRA PROFITS.

Gurney's Chicks Guaranteed to Arrive 100% Alive

We guarantee our prices to be lower, quality considered, than others. All of our baby chicks are exactly as represented in the grade and variety ordered, and guaranteed to reach you 100% alive. Extra chicks are included in each box so when chicks arrive, count the live ones and if you don't have full count of live chicks, or they are in bad condition, simply have your delivery agent sign a statement and mail to us within 24 hours and they will be replaced FREE.

SEXED PULLET GUARANTEE—90% true to sex guaranteed on pullets. If more than 10% are males, we will make an adjustment on all over 10% not true to sex. This applies both to hybrids and pure breeds. All sex complaints must be made within 60 days from the date the chicks are received. In case of complaints proper forms will be sent you. In no case are we liable for more than the original purchase price of the chicks ordered.

GIVE YOU MORE EGGS SOONER MORE MEAT EARLIER

Here are some of the finest chicks you can buy—all from eggs from carefully culled, high-producing flocks—superior bred to please Gurney's customers who want the best at a fair price.

No expense has been too great for us in bringing in high-producing blood lines, culling our hatching flocks, and supervising these flocks—all done so that Gurney's chicks would be **SUPERIOR CHICKS IN EVERY WAY.**

Good Chicks Cost No More to Raise

IT COSTS YOU NO MORE TO FEED A HIGH-PRODUCING CHICK than it does a scrub chick, and that high-producing chick will make you a nice profit while scrub chicks often actually lose you money.

And Gurney's high-producing chicks cost you no more. Don't be satisfied with anything this year but Gurney's Better Bred Chicks.

Take Advantage of Extra Discounts by Taking Early Delivery

We aim to give our customers every possible "break" on price. One of the things that bothers every hatchery is delivery date. Too many people want their chicks at the same time. Even when it is to their advantage to order early, they seem to put it off. February is one month when we can take more orders. So, we are going to give every Gurney customer a \$1.00 DISCOUNT PER HUNDRED CHICKS, if he will take delivery in February. Remember this offer is for FEBRUARY delivery only.

Buy Sexed Chicks and Save Money

Buying cockerels early for the high spring markets and then following with a flock of pullets uses your brooder house double and makes you extra money. Besides cockerels and pullets do better, if raised separate. They cost you little more than straight run chicks, but make you real savings in raising.

Deposit Only \$1 for Each 100 Chicks Wanted

This holds your order for any delivery date you wish. Send balance 10 days before shipment. Send cash in full for immediate prepaid shipment.

C.O.D. Plan

Send \$1 for each 100 chicks or less wanted. Pay balance plus transportation charges on delivery. Be sure to specify on your order if wanted this way.

Make 2nd Choice

Getting chicks to our customers right at the time they want them is one of our greatest problems, and we do the best we can always. To help us here, we'd appreciate it, if you can, to make a second choice in breed. It isn't necessary to do this, but if you are only half decided between one and the other, please give us a choice. We'll always ship first choice when we can.

Save \$1 to \$3 Per 100 Chicks

High producing blood is used in our matings for high egg production. GURNEY'S SAVE you \$1 to \$3 per 100 chicks. Order now and save most.

Dollar for dollar you'll get better chicks from GURNEY'S. Quality for quality you'll save money at GURNEY'S.

NORTHERN GROWN FLOCKS NORTHERN HATCHED CHICKS

Come and visit our modern Hatchery right here at Yankton where we will hatch 1 1/2 million chicks for our friends and customers this year.

These Low Prices Are for
EARLY ORDERS ONLY
To Encourage You to Book Your Order Now!
Prices Will Be Higher!

ORDERS MUST BE BOOKED EARLY!

Because of the heavy demand for baby chicks, your reservation should be in 2 months or more ahead of the date you want chicks. Those not reserving chicks early may be disappointed. Gurney's.

High Quality!

Gurney's Laying Grade
Strong, healthy standard bred chicks, far superior to ordinary hatchery chicks, such as Grade A, etc. They are all from rigidly culled, properly fed and mated parent stock. Every breeder has been individually culled for health, general quality, type, and egg production. 23 oz. eggs or larger set to hatch these fine healthy chicks.

Higher Quality!

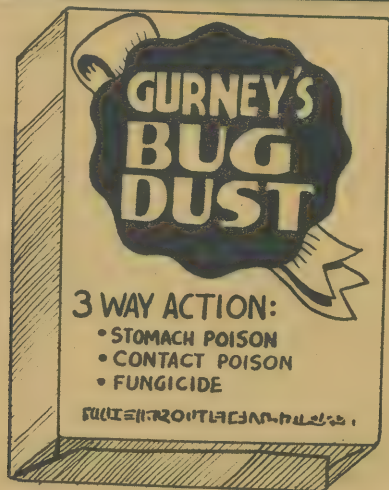

Gurney's Special Egg Grade
Just what you're looking for in a superior bred chick, yet cost very little more than the Laying Grade. More rigidly culled for quality and high egg production. Many highest egg grade cockerels are used in this Egg Grade mating. Get extra eggs with this grade.

Highest Quality!

Gurney's Highest Egg Grade
More eggs, more profit from the same feed. This grade is our finest bred chick, both for eggs and meat. It costs you no more to raise 200 egg hens than a 90 egg hen, but you make 5 to 6 times the profit.

Gurney's Extra Farm and Garden Aids

Gurney's New Formula Powerful BUG DUST

Gurney's Great Aid to Gardening

Here's a powerful new Insecticide and Fungicide, all in one dust, that gardeners all over the Northwest are talking about. No need to buy several dusts when one will do.

● **MARVELOUS THREE-WAY ACTION DUST.** This dust works three ways, not only as a STOMACH POISON, but also a CONTACT POISON and FUNGICIDE—all in one dust. No need to buy three dusts—use our Bug Dust.

● **SAFE TO USE**—Gurney's New Formula Bug Dust does not harm the most delicate plants when used as directed.

● **ABSOLUTELY GUARANTEED**—Bug Dust absolutely performs to your entire satisfaction or we will refund your money without any obligation to you, and no questions asked.

● **MANY USES.** This dust is a combination of several powerful Insecticides and Fungicides mixed together by a secret formula, so in one dust you have the nearest to an all purpose dust we know.

Gurney's BUG DUST does NOT contain DDT

ALL POSTPAID TO YOU
SPECIAL OFFER: 2 POUNDS AND DUST GUN \$1.15 POSTPAID

DUSTERS

43¢

This is the gun we recommend for use with our Gurney Bug Dust. Strong and powerful. Supply very limited. We hope it will last to supply all of our customers. 43¢ each, postpaid.

LARGE DUSTER

Bigger gun. Holds about 1 lb. Bug Dust. Long extension nozzle for getting under plants. Now only 98¢ each, postpaid.

USE IT ANYWHERE

Dust your flowers and shrubs against bugs and disease.

Dust your garden crop against bugs and disease.

Dust poultry and animals to help control mites and lice.

Dust around ant hills to stop them.

Dust your houseplants against bugs and disease.

Make water solution and use as fly spray.

NOTE: By above we do not mean that Bug Dust will control every garden pest or every fungus. No dust can do that, but we do claim that it is the nearest to perfect dust that we have ever sold. It is guaranteed 100% or your money back.

GURNEY'S HOUSE PLANTS

Fern Collection "B"—Five interesting, different Table Ferns that do best in shade, all 5 for \$1.48. A real bargain.

Fern Collection "C"—Your choice of four Springerii or four Plumosus Ferns for only \$1.29.

Any 2 ferns of collection "A" for 82¢
Any 2 ferns of collection "B" for 78¢
Any 2 ferns of collection "C" for 69¢

Gurney's Ivy Collection—We offer the finest Ives you can buy. Two Gurney's Branching, both different, one Grape Ivy, and one Mexican Ivy, all 4 for \$1.31 or any 2 for 72¢.

Mums—The large greenhouse type. They are easy to grow. Plant the early part of June. We offer a collection of 6 different colors. You should have the whole collection: Red, White, Yellow, Bronze, Pink and Lavender. All for only \$1.98. Any two for 72¢.

Foliage Plants—A whole bed of fine foliage plants (your choice), 10 of them, for only \$1.49; 5 for 84¢.

Calla Lilies—The pride of all lilies. One pure white and one rich golden yellow, both for 91¢, or 49¢ each.

Sultanas Collection—Three improved everblooming Sultanas in three different colors. They are always in bloom. A most delightful collection: Red, Pink and Salmon. Direct to you for 91¢, or 2 for 69¢.

Dish Garden and Cacti Collection—A special selection of ten interesting plants for only \$1.27.

Petunia Plants—Large hybrid California Giants, the king of all bedding plants. These plants are very scarce, so send in your orders early and we will send when ready to plant. \$1.10 per doz.; 2 doz. for \$1.98.

Lantanas—A truly everblooming shrub loaded with blooms until frost. Four fine, clear colors: Red, Orange, White and Lavender. One of each color for \$1.27; 2 for 71¢.

Surprise Plant Collection

10 Plants or more.

New and interesting

All different—

Our Choice.

98¢ Postpaid

Selected Bedding Plants—Pink and blue Petunias, also mixed colors. Also Mixed Lilliput and Giant Zinnias, Mixed Asters, Sweet Alyssum, Mixed Verbenas. 62¢ per doz.; 2 doz. for \$1.10.

Special Bedding Plants—Scarlet Salvia, Rust-proof Snapdragons, Border Carnations and Flaming Velvet Petunias. 79¢ per doz.; 2 doz. for \$1.39.

Surplus Plant Collection—We give you the benefit of any surplus plants that accumulate. Ten plants, our selection, only 98¢. Worth much more.

SPECIAL NOTE: All plants listed under "House and Bedding Plants" will come to you in a separate package direct from the greenhouses. They will be shipped when planting conditions and plants, weather, etc., is most suitable. So send in your orders early and we do the rest. Sometimes we run out of certain plants and, rather than hold your order for next season, we will substitute, and always give you a bigger value, unless you say no.

"GROW-AID"

The Sensational New Seed and Plant Stimulant
Hormone-Vitamin Concentrate

Here is the miraculous new seed and plant stimulant in concentrated form. A combination of the recently discovered, very beneficial root stimulator—Hormones and the better known Vitamins that have made plants and seeds GROW FASTER, YIELD MORE, AND PRODUCE LARGER FLOWERS AND FRUITS. Tests by state colleges everywhere approve it. In one test, Dr. J. C. Ireland of Oklahoma Experiment station showed increases of 37 to 47 per cent in yield when used on corn. Often, number of roots on a plant are doubled when GROW-AID is used.

This miraculous dust multiplies roots, speeds up root growth and stimulates and makes larger plants when used on vegetables, plants, shrubs, seedlings, trees, or flowers.

USE AS DUST OR SOLUTION—Very Easy To Use
Can be used either as a dust on seedling roots or sprinkled on your vegetable seeds or may be used as a solution (about 1 teaspoonful to a gallon of water) to soak roots before planting or to water plants already established. (Full instructions for GROW-AID on each package.)

1. Use it on All Your Plants and Seeds For Better Results
2. Dust it on flower or vegetable seeds before planting.
3. Soak nursery stock roots in solution before planting.
4. Dust Seedling roots before transplanting.
5. Use as spray for trees. KEEPS FRUIT ON TREES UNTIL RIPE.
6. Use as solution to water growing SHRUBS AND TREES.
7. Use as solution to water HOUSE PLANTS.
8. Use as solution to water ROSES, SHRUBS, LAWNS.

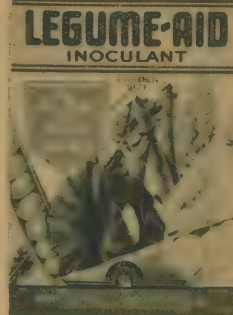

A General All Around Product Every Gardener Should Have
PRICES: ½ oz. (enough to treat 17 lb. garden seed, etc.), 25¢, postpaid; 3 oz. (for large gardeners, planters, etc.), \$1.00, postpaid.

INOCULATE YOUR PEAS and BEANS for BIGGER YIELDS

All your garden peas, beans, and sweet peas should be inoculated. Inoculation helps the plant take nitrogen from the air and fertilize your soil—giving you bigger yields, faster growth and garden soil that's not worn out.

Just takes a minute to dust it on your seed—no trouble at all but it makes a world of difference in your yield.

There's enough in this 10¢ packet to inoculate 5 lbs. of seed. That's enough for most of you. Full directions on each packet. Be sure and everybody order it. Garden size packet, 10¢, postpaid.

GIANT PKT. 3"x4"
Inoculates 5 lbs. seed. Pkt. 10¢

DOGS-ZA-WAY

Dogs ruin shrubs and evergreens. Protect them with DOGS-ZA-WAY. Guaranteed not to harm plants but extremely offensive to animals. Lasts several weeks. Simply spray it on places you want to protect. Full direction on can. Season's supply 39¢, postpaid.

MOLE AND GOPHER KILLER

Drop a cake in the mole run or gopher hole and your troubles are over. Acts as a stomach poison. Gets them quick. Can't harm poultry, domestic pets or animals. This mole and gopher killer has become one of the most popular sellers, because IT DOES THE WORK and is easy to use. Large box (90 pieces), 50¢; 2 boxes, 90¢. Postpaid.

RAT KILLER

Here's the REAL WAY TO GET RATS. We guarantee it 100%. Won't harm any domestic animals, or poultry, BUT GETS THE RATS. It's the one rat killer we've found that GETS THE RATS where other poisons fail. Easy to use. Full directions on package. Large box (enough to kill 70 rats), 50¢; 2 for 90¢. Postpaid.

ANT KILLER

This is the ant killer that always surprises people by its speed in really killing out those ants that get in pantries, kitchens and gardens during the summer. Simply punch several holes in the top of the can and set on shelf or wherever ants are and—no more ants. Absolutely guaranteed. 4 cans 98¢, postpaid. Single can 35¢, postpaid.

4-LEAF

GOOD LUCK PLANT

10¢

Each

Here is a real good luck omen for your Victory Garden. Giant size 4-Leaf Good Luck Plant, often with leaves 1 to 1½ inches across. Very prolific with its 4-Leaf Good Luck leaves. Have several of them in your garden, for good luck omens from day to day, or to give to your friends. Price: One bulb 10¢; 3 bulbs 25¢, postpaid, if ordered with other items.

Seed Disinfectants

Many times increased stands and yields can be obtained with some seeds and bulbs by treating them with disinfectants. Because so many of you have asked me about them, I'm listing the best here for you in case you want them.

New Improved CERESAN—For treating seed borne bunt or stinking smut of wheat swat of oats, some smuts and stripe of barley, sorghums, and rye, etc. Easily applied. Does not reduce drilling rate or harm drill. 1 lb. treats 32 bu. of grain. Price 1 lb. 80c, postpaid.

SEMESAN—for combating many diseases carried on seeds, bulbs, roots of flowers, vegetable and nursery crops. Reduces seed rotting and damping off of seedlings. Use dry or liquid, as liquid helps control brown patch of lawns. Full directions included. 2 oz. pkg. 40c, postpaid.

SEMESAN BEL—For treating potatoes to help reduce scab and Rhizoctonia, ring rot, bacterial wilt, stem rot, seed-piece decay, etc., thereby increasing yield. Quick and easy. 2 oz. treats 7½ bu. seed at about 2c bu. 2 oz. pkg. 30c, postpaid.

"Stim-U-Plant" Fertilizer Tablets

Feed your house plants, roses, shrubs, etc., the modern way with TABLETS of plant food. No muss, clean and odorless, won't burn.

Prices: 10 tablets 10c; 30 tablets 25c; 100 tablets, 75c, postpaid.

Arsenate of Lead

General, popular spray for fruit trees against disease and insects. ½ lb. 25c; 1 lb. 35c; 4 lbs. 80c, all postpaid.

Black Leaf "40"

All around spray for aphids, lice, delousing poultry, sheep dip, etc. Full directions with bottle. Oz. 50c; 5 oz. \$1.20, postpaid.

Bordeaux Mixture

The famous compound for control of black rot, blotch, etc. 1 lb. 45c; 4 lbs. 80c, postpaid.

Roach Killer

One of most effective preparations against roaches, bed bugs, etc. 4 cans 98c; 35c each, postpaid.

Evergreen Spray

A concentrated spray, effective against most plant pests. Full directions included. Oz. 45c; 6 oz. \$1.20, postpaid.

Gurney's PLANT BALLS

Grow by Adding Water Only

19c Each

If you want to have some real fun, try growing some of these unusually different plant balls. No muss, no fuss, no soil—simply dampen the ball and water from time to time, and watch the plants grow.

Each ball is made up of tested seeds, packed with a special growth stimulant and fertilizer in a ball of choice sphagnum moss which, when watered, will force wonderful vines and plants. You should have several of these—they're all lovely.

Choice of trailing vines, nasturtiums, parsley or lettuce.

"CLIPPER" Cleaning Mills

We're really glad to tell you that we again have a supply of the famous 2-B Clipper Cleaning Mills, built by the A. T. Ferrell Co. We've always listed this handy farm cleaning mill, but last year we just couldn't get enough of them to supply demands. Our supply this year is going to be limited again. So get your orders in early. The mill comes this year supplied with 12 Gurney Screens.

Price: \$52.00 F.O.B. Yankton.

(This price is subject to change without notice.)

DO YOU HAVE FURS FOR SALE?

Ship Your Furs To Gurney's -WE'LL PAY YOU MORE!

For a number of years now, the Gurney Fur Department has been your best market for the furs caught in this section.

You have known Gurney's for a long time. We are closer to you than most other markets and, no doubt, your father marketed his furs through Gurney's. We should need no further introduction. You know us very well and can feel safe about all the furs of all kinds you may send us here at Yankton. You know that you will get full market value for every fur that you send in and get prompt returns. No long waits for your money.

We are giving out no prizes to just one or two shippers over this large territory, but do still better than that, when we pay each and every shipper the full market price for each skin he may send in to us.

This means more cash to every Gurney shipper and certainly helps much more than a few prizes scattered over several states, that benefit so few shippers.

As the 1946 fur season is upon us again,

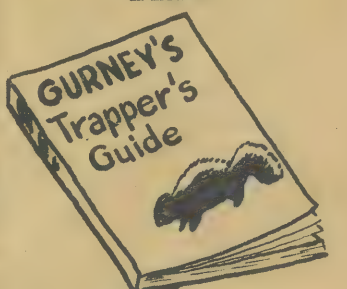

the Gurney Fur Department is again soliciting your shipments of Raw Furs to us here at Yankton. We will give you that same market pricing and liberal grading and see that all remittances go out promptly. If you live within driving distance of Yankton, it will pay you to bring in your Furs, Rabbit Skins, and Pelts. We always like to see you around our fur warehouse here.

Please write us, Postcard or Letter, and ask us for your copy of the free Gurney Trapper's Guide. You will get many tips on trapping, for the different fur bearers, skinning and putting your furs up for market. It is free for the asking and postpaid to your mail box.

Our price list and shipping tags will be sent on request.

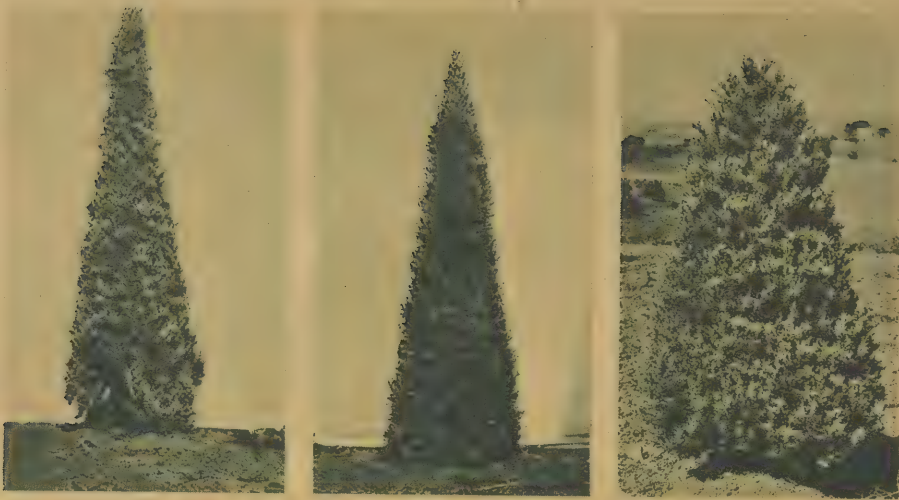

Do not be misled by any trick advertising, high-priced circulars, or other methods to mislead, but tie a Gurney tag to your fur package and start it on its way to the Gurney Fur Department at Yankton, South Dakota.

FREE

Write today for your free copy of Gurney's Trappers Guide. Gurney's Fur Department, Yankton, South Dakota.

"Northwest's Largest Seed and Nursery House"—GURNEY'S Yankton, So. Dak. 31

THE UPRIGHTS

SILVER JUNIPER

Really an ARISTOCRAT among Evergreens. They are compact in growth and are sheared into upright specimens. One of the hardiest and most drought resistant trees that grow. Vary in color, from plum to a rich green in winter, turning to silver blue in the spring. May be trimmed to most any height desired.

Size	Each	Per 2	Per 5
18-24 in. B&B...	\$3.05	\$5.35	\$11.35
24-30 in. B&B...	4.50	8.25	17.50
30-36 in. B&B...	5.73	10.75	24.75
3-4 ft. B&B...	7.35	13.90	32.75

GRAFTED SILVER JUNIPER

These are grafted trees and are therefore exactly alike, holding their rich color pretty well throughout the year. Stand severe pruning. A pair of these as entrance trees cannot be equalled.

Size	Each	Per 2	Per 5
18-24 in. B&B...	\$3.67	\$6.54	\$14.35
24-30 in. B&B...	4.92	9.14	20.50
30-36 in. B&B...	6.36	11.92	27.75
3-4 ft. B&B...	7.98	15.16	35.75

VIRGINIANA JUNIPER (SHEARED)

These trees are kept sheared so they are shaped like narrow cones, and are Extremely Attractive when planted in Pairs one on each side of your house entrance. Perfectly hardy and resistant to Drouth.

Size	Each	Per 2	Per 5
18-24 in. B&B...	\$3.05	\$5.30	\$11.25
24-30 in. B&B...	4.30	7.80	17.50
30-36 in. B&B...	5.73	10.66	24.65
3-4 ft. B&B...	7.36	13.92	32.80
4-5 ft. B&B...	9.49	18.18	43.45

See Page 33 for Windbreak Evergreens

EVERGREENS

These evergreens are all EXTRA-HARDY, giant-rooted trees grown for you here in our own nurseries in Yankton. Every one is a perfect specimen you will be delighted with.

All evergreens are listed "balled and burlapped" ("B&B"). This means they are dug with a ball of soil on the roots just as they grew in the nursery row and carefully wrapped with burlap. We are going to give you the advantage of a lower price if you wish to order your evergreens "Muddled." All except the Blue Spruces which are sold only "B&B." "Mudding" means that the roots are dipped into a thick mud as soon as they are dug, to protect them. Muddled trees have an immense root system and we have had good results in planting all sizes. This method saves you in express bills as balled and burlapped trees weigh from 25 to 30 lbs. Deduct the amount indicated in the chart from the regular B&B price if you wish to take advantage of the lower muddled prices. Order your trees in pairs. We will pick out matched specimens. All varieties are hardy. You can plant with assurance of success.

MUDDLED EVERGREENS

This chart indicates the amount you are entitled to deduct from the "B&B" prices quoted if you wish to have your trees come to you muddled.

12 to 18 in.	\$0.60
18 to 24 in.	.75
24 to 30 in.	.95
30 to 36 in.	1.30
3 to 4 ft.	1.60
4 to 5 ft.	2.30

EVERGREEN SEEDLINGS

Ideal Evergreen Windbreaks

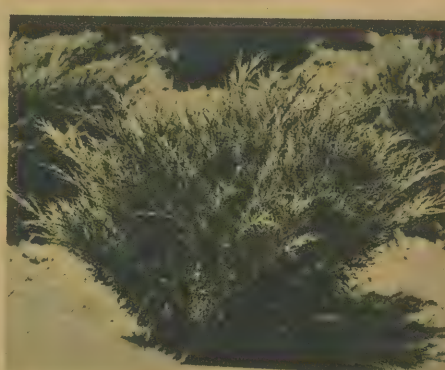

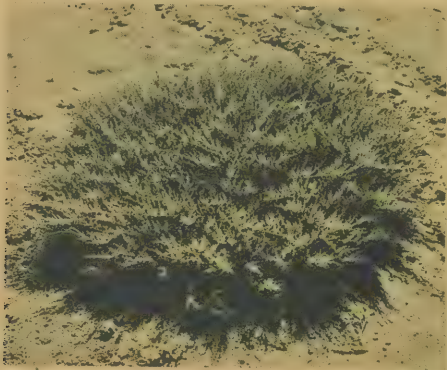

Everyone has been having marvelous luck with our Evergreen Seedlings. Plant these where they will have good care. Keep well cultivated. Make ideal windbreak as they give you good winter protection.

Variety	Per 25	Per 50	Per 100
Bull Pine	\$1.90	\$3.30	\$5.60
Jack Pine	1.55	2.60	4.20
Scotch Pine	1.90	3.30	5.60
Bl. H. Spruce	2.25	4.00	7.00
Colo. Blue Spruce	2.50	4.50	8.00
Red Cedar	2.85	5.20	9.40

SPREADING DWARF JUNIPERS

Plant in front of taller plants, along low porches or under windows. Set 3-5 ft. apart and out away from other plants.

ADMIRABILIS

The Perfect Ground Cover

One of the extra fine creeping varieties, rapid in growth, hardy, drought resistant. Excellent for planting on slopes or for grave coverings, or for other locations where it is difficult to grow grass.

Spread	Each	Per 2	Per 5
12-18" B&B...	\$2.88	\$4.96	\$10.40
18-24" B&B...	3.75	6.70	14.75
24-30" B&B...	4.81	8.82	20.00

PFITZERS JUNIPER

Most Popular Spreader

A fine handsome Juniper. It has arching, spreading branches—feathery, gray-green foliage—a broad picturesque form. It is hardy everywhere, and does well in shade as well as sunshine. This Evergreen is three or four feet at maturity, and is the best seller of its type. This is the variety everybody admires. Transplants easily.

Spread	Each	Per 2	Per 5
12-18" B&B...	\$2.86	\$4.92	\$10.30
18-24" B&B...	3.68	6.56	14.40
24-30" B&B...	4.68	8.56	19.40

SAVINS JUNIPER

Dark Green, Fan Shaped

A beautifully wide-spreading, hardy Evergreen shrub, attractive in color, hardy, and drought resistant. This Juniper is excellent for mass planting in beds or along foundations.

Spread	Each	Per 2	Per 5
15-18" B&B...	\$3.13	\$5.46	\$11.65
18-24" B&B...	3.68	6.56	14.40

MUGHO PINE

Perfect Ball Shape

This picturesque Dwarf Pine forms a bushy, compact ball growing as broad as it does tall. Grows about 3 feet tall but can be kept trimmed back. It has long stiff needles that are a dark, rich green. Very hardy and beautiful for borders and foundations.

Spread	Each	Per 2	Per 5
12-15" B&B...	\$3.99	\$7.18	\$15.95

THE SPRUCES AND THE PINES

Black Hills Spruce

The Compact Perfect Shaped Spruce

What made the Indians call the mountains of South Dakota "Paha Sapa" or Black Hills? It was this beautiful Spruce that imprisons the shadows and from a distance gives the hills a black shade. Its new growth is Silvery. Extremely hardy. Its compact growth makes it beautiful for Landscaping and Windbreak.

Size	Each	Per 2	Per 5
12-18 in. B&B...	\$2.49	\$4.18	\$8.45
18-24 in. B&B...	3.43	6.26	13.65

3-4 ft. B&B...	6.13	11.66	27.65

Colorado Blue Spruce

Select Specimens

These trees are select blue specimens and are plenty good enough for anyone. You will be well pleased with them. They are exactly the same as the Extra Select Shiner excepting they vary slightly in color. A windbreak row or a row along the driveway of your place will improve it more than any other tree you can plant. Remember these Blue Spruce are hardy and very drought resistant.

Size	Each	Per 2	Per 5
12-18 in. B&B...	\$3.00	\$5.80	\$14.00
18-24 in. B&B...	3.60	7.00	17.00

 For Grove—Plant a thousand Siberian Elm seedlings this spring and in three years you can have a grove fifteen feet high. In five years you can cut fence posts or fire-wood. The wood, when dry, is so hard it will dull your knife.
 For Hedge—During the past few years, the Chinese Elm has come into use as an ornamental hedge plant. Everywhere you see the Siberian type of Chinese Elm hedges, trimmed and neat. Many are ready for trimming the first year. If you want a quick hedge with heavy foliage clear to the center, plant Chinese Elm—Siberian Type.

OTHER WEEKLY FEATURES YOU'LL LIKE

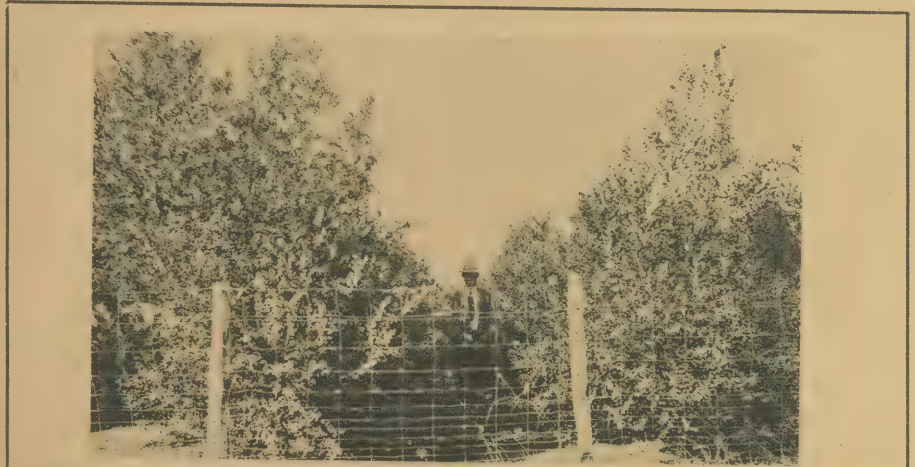

Under the Dome, Weekly Washington Letter
 —Forecasts of the future with a full page of important late items. The how, why and probable effect of what is happening in Washington. Keeps you up-to-the-minute on things you and your family want to know about.

Americana—Lots of one- and two-paragraph human interest items with photographs to give a picture of modern America. News about people—some big people, some movie stars—but in the main, about average people, the ones who make America tick as a democracy.

The Family—News of general family interest—cooking, new home gadgets, fashions—news items in Religion, Education and Health that affect the home. Also interesting letters from readers on various subjects. Radio, Movies, New Records and Book Reviews. The young folks, too, will get a lot of fun from brain teasers, puzzles, cartoons and jokes.

Four Great WINDBREAK EVERGREENS

Just the right size for windbreak and shelterbelt purposes. Transplant very readily at this particular size. These trees will be dug in the nursery, immediately dipped in mud which will insure their getting to you in good condition. All of these trees will grow with the branches clear to the ground, thus shutting out the wind in winter when a windbreak is desirable. There is nothing that will increase the value of your property more than an evergreen windbreak. Plant 8 to 12 ft. apart in the row, rows at least 12 ft. apart. These trees are transplants, and have a good root system. For further description, see page 32.

COMMON CEDARS: This is the tree planted so extensively for windbreak. Rapid in growth, hardy, drouth resistant, very ornamental, makes excellent fence posts.

CHINESE ELM PROVES DROUGHT-RESISTANT—HARDY IN NEBR.

Lushton, Nebr.

Dear Sir:—I thought I would let you know how your Chinese Elms were doing in dry Nebraska. We bought some seedlings of you. I am sending you some pictures. These trees have stood 4 summers and are 15 feet high and some even taller. They have not been irrigated. I think they are a wonderful windbreak. Not a single one has been frost-killed or drought-killed. We took this picture early this spring just when the leaves had come out. They grew a lot this summer.

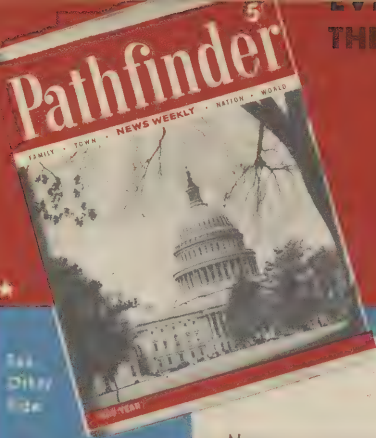

Yours truly,
 John C. Siebert,
 Lushton, Nebr.

EVERY WEEK—NEWS OF THE FAMILY

THE TOWN—THE NATION—THE WORLD

Gurney's Hardy Siberian Type of CHINESE ELM

The Most Useful Tree for the North

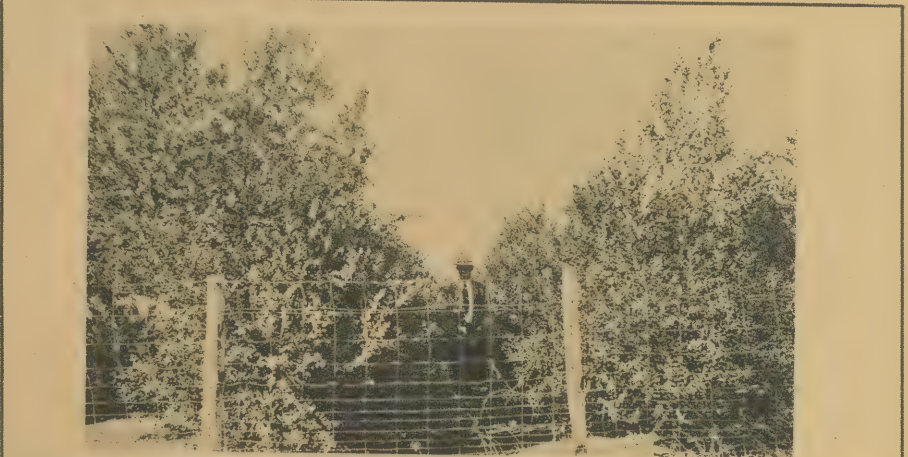

Our Chinese Elm were not damaged by the severe freeze of November 11, 1940, as were many other trees throughout the Northwest. We still believe the CHINESE ELM IS ONE OF THE MOST USEFUL trees we are offering, due to its ability to give shade in less time than other trees, and make a rapid growth under extremely dry and adverse conditions.

For Real Shade—If you are like most of us and don't want to wait forever for shade, the Chinese Elm is hard to beat. Every State throughout the Plains Area needs more of these wonder trees. They're heavy rooted, heavy calipered, and well branched. Plant a 6 to 8 foot tree on your lawn this spring and in five years, under ordinary conditions you can have a shade tree you will really be proud of—can even reach a height of 20 feet. They give the kind of shade you want IN LESS TIME. Don't fail to plant a few this year if you want the finest.

For Windbreaks—This Siberian Type Chinese Elm is hardy and tough. We gather hundreds of pounds of this seed in the Dakotas. . . . The Mother Trees came through years of drouth and the coldest winters on record. They thrive and grow FASTER THAN ANY OTHER TREE.

For Grove—Plant a thousand Siberian Elm seedlings this spring and in three years you can have a grove fifteen feet high. In five years you can cut fence posts or fire-wood. The wood, when dry, is so hard it will dull your knife.

For Hedge—During the past few years, the Chinese Elm has come into use as an ornamental hedge plant. Everywhere you see the Siberian type of Chinese Elm hedges, trimmed and neat. Many are ready for trimming the first year. If you want a quick hedge with heavy foliage clear to the center, plant Chinese Elm—Siberian Type.

Beautiful, Hardy FLOWERING TREES

HOPA RED FLOWERING CRAB

A blaze of RED in the spring. Hopa Crab is a beauty. The spring bark and leaves are reddish in color. The flowers are bright red, and the fruit like clusters of rubies. The fruit is edible for jellies and the tree is perfectly hardy. Get at least 2—supply is limited.

Size	Each	Per 2
3-5 ft.	98c	\$1.79

BECHTEL'S DOUBLE PINK FLOWERING CRAB

Imagine a tree covered with extra large pink flowers—ALL FULLY DOUBLE—and you have a picture of this beautiful flowering tree. Add to that, its heavy green foliage as a background to its mass of flowers and you see a 'Giant Brides' Bouquet. It blooms at two years in the Nursery and is perfectly hardy.

Size	Each	Per 2	Per 5
18-24 in.	74c	\$1.45	\$3.60
2-3 ft.	89c	1.75	4.30

DOLGO CRAB

This Crab is both useful and ornamental. For additional information and prices see above and page 7. See Crab Apples.

FLOWERING CHERRY

Prunus Tomentosa

The FLOWERING CHERRY is a tree or bush that will CHARM AND DELIGHT. It is splendid and showy with flowers scattered along the branches. Stands close pruning and makes an excellent Hedge. Fruit is attractive red and juicy, size about 1/2 inch, good quality. Edible. A good cherry for pies and canning. Very productive.

Size	Each	Per 3
Strong Budded Tree.....	\$1.15	\$3.00

PURPLE LEAF PLUM

Prunus Cistena

Here is a tree so beautiful that it looks like a picture. It has gorgeous, bright, PURPLISH leaves that stay bright and colored all season. The tree is very hardy. Dainty white flowers early. May be allowed to grow in shrub form or may be trimmed to tree form, but in any case, you will welcome its beautiful purple leaves as a contrast in your planting.

Size	Each	Per 2	Per 5
2-3 ft.	79c	\$1.50	\$3.45
3-4 ft.	98c	1.90	4.40

RUSSIAN OLIVE

This is the beautiful silver leaved tree. Very hardy and drought resistant. Grows 25 ft. Branches from ground up. Perfect for a silver windbreak or specimen tree.

Seedlings	Per 25	Per 50	Per 100
6-12 in.	\$1.20	\$2.10	\$3.95

8-10 ft.	1.19	2.28	5.40	10.00	

LOMBARDY or Black POPLAR

This is the Poplar that is so much used for avenue or background planting. They form tall, stately columns of dark, shiny-green leaves. It succeeds on soil too poor for other trees, and grows rapidly. Widely used for screening and windbreak purposes because the foliage grows close to the ground.

Size	Each	Per 3	Per 10	Per 25
3-4 ft.	\$0.39	\$1.10	\$3.40	\$6.89
4-6 ft.59	1.69	4.90	10.75

UMBRELLA CATALPA CATALPA BUNGEI

These trees are often planted in pairs, one on either side of the front walk. They have a spreading, compact head about 6 feet from the ground, dome-shaped, with large, dense leaves, making it look like a big green umbrella. They will be trimmed for planting before shipment. Many people will have no other tree in their lawns and parking other than these regular, compact, ball-shaped "umbrella" trees.

4-5 ft., \$1.99; 2 for \$3.50.

BASSWOOD

(Linden): A beautiful, hardy tree, with round compact top, large heart-shaped leaves that give dense shade; fragrant flowers. Rapid in growth and a very desirable tree for street or yard planting.

	Each	Per 3	Per 10
4-5 ft.	\$0.98	\$2.79	\$ 8.75
5-6 ft.	1.29	3.59	11.00

GREEN ASH

You MUST PLANT GREEN ASH in your windbreak and grove. It is drought resistant, hardy, and vigorous in growth. The branches are strong and the wood hard. Uniform shape. An excellent shade tree.

**FOR OTHER
ORNAMENTAL
AND
WINDBREAK
TREES
SEE PAGE 33**

MOUNTAIN ASH

Red Berried—One of the most ornamental trees you can possibly plant. The foliage is a beautiful green. Light, smooth bark, a broad head very compact, with gorgeous creamy white blossoms in the spring, followed by the many, many clusters of scarlet and carmine berries in the late summer and fall. It grows very rapidly.

Size	Each	Per 3	Per 5	Per 10

8-10 ft.	1.49	4.29	6.95	13.40

SCHWEDLER MAPLE

This tree can really "do things" for that lawn of yours. The leaves are a beautiful purplish-red in spring, thereby contrasting with all of the green foliage. Gradually these high-colored leaves soften to bronze and finally to a deep waxy green. It has a round symmetrical head. A long-lived tree that will be permanent and add beauty for years to come.

Size	Each	Per 2	Per 5
5-6 ft.	\$1.49	\$2.85	\$6.95

DIAMOND WILLOW

Hardy native willow excellent for windbreak and ornamental purposes. A close second to Red Cedar in lasting quality when used as fence posts. After these willows become large enough for posts, they can be cut close to the ground and they will renew themselves in a surprisingly short time.

Size	Per 10	Per 50	Per 100
2-3 ft.	\$.98	\$4.40	\$7.79
3-4 ft.	1.29	4.95	10.50

GOLDEN WILLOW

Rapid growing willow with interesting, bright yellow bark. In mass plantings, they are very beautiful. Make good, hardy windbreaks. Half an acre of these trees cut to the ground every few years keeps an ordinary family in firewood for a whole year.

Size	Per 10	Per 50	Per 100
2-3 ft.	\$1.50	\$4.75	\$9.98
3-4 ft.	1.89	6.69	12.98

LAUREL LEAF WILLOW

This is a beautiful tree with chestnut-brown bark and deep green lustrous foliage. Grows quickly, is one of the most valuable willows for windbreaks, firewood, etc. They do well even on high, dry land.

Size	Per 10	Per 50	Per 100
12-18 in.	\$.89	\$3.25	\$5.95
18-24 in.	1.00	4.25	7.95

A NEW VINE

Everblooming "Orange-Glow"

Honeysuckle

A honeysuckle vine that we believe has almost reached perfection. Try it and see if you don't think so, too.

The flowers are almost indescribably Beautiful!!! A coral-orange—A color we have found in NO OTHER flower. And it's **EVERBLOOMING** from spring to frost producing large flowers in long spikes.

If you like blooming vines, have the best of all. Try "Orange-Glow."

79c

Each 2 for **\$1.39**

BITTERSWEET

Native of the Northwest. Produces an abundance of bright red berries that are used for decorative purposes in the home. Grow Bittersweet in your own back yard and have this beautiful winter bouquet. You must have at least two to get berries.

2 for 69c; 3 for \$1.59.

BETA GRAPE

This grape is a favorite for covering walls, etc., because it grows rapidly, is very hardy and does produce excellent fruit.

35c Each; 4 for \$1.29; 8 for \$2.50.

The New Red Clematis

Madam Edouard Andre

Now, A RED CLEMATIS! This has been called the Crimson Jackmanni. It is a very good hardy vine like Jackmanni but with simply exquisite bright crimson flowers that bloom very freely and are very luxuriant. The vine is a strong vigorous grower.

79c Each; 3 for \$2.15.

TRUMPET VINE

You are probably all familiar with this beautiful vine. It produces immense, orange-red, trumpet-shaped flowers. Very fragrant and will climb anywhere. The foliage is odd shaped and very beautiful. Wonderful vine for porches and trellises.

35c Each; 5 for \$1.35.

HONEYSUCKLE

HONEYSUCKLE (Halleana): Flowers an intermingling of white and yellow, extremely fragrant, a hardy fast-growing flowering vine for Porch or Arbor. They are perfectly hardy and cover themselves with flowers.

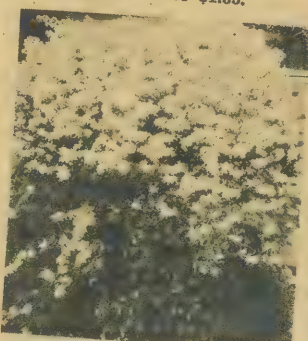

39c Each; 3 for 98c.

WISTERIA

This is a common variety that everyone knows and likes. In May and June it bears a great profusion of pea-shaped flowers in huge clusters, and is hardy in sheltered locations. Our plants sure to bloom.

49c Each; 3 for \$1.35.

MAIDEN'S BOWER

(Clematis Paniculata): Maiden's Bower is a perfectly lovely vine. Just the thing you will want. It is a handsome, hardy climber. It grows strongly and rapidly and has dense, small, bright, green foliage and dainty, pure white, fragrant flowers in August and September, followed by silvery seed pods.

74c each; 2 for \$1.39.

Engelman's Ivy
You will be amazed at how rapidly this grows and how well it clings. A handsome five-leaved ivy, with very thick foliage. Thrives well in sunshine or shade. The foliage is green, and turns to a brilliant red color in the fall. Clings to Brick or Stucco. 35c Each; 5 for \$1.35.

SUGAR OR HARD MAPLE

One of the finest and most rapid growers of the hard maples. For street and lawn planting it can't be beat. The foliage is a beautiful green color in the spring and as summer turns into fall, the foliage turns beautiful copper, yellow and orange colors.

Size	Each	Per 2	Per 5
5-6 ft.	\$1.49	\$2.85	\$6.95

WHITE BIRCH

A graceful, medium sized tree with deep green foliage, white bark. The winter effect is excellent, especially when planted near Evergreens. Gives a contrast in your lawn that is very beautiful.

Size	Each	Per 3	Per 5
4-5 ft.	89c	\$2.48	\$3.99

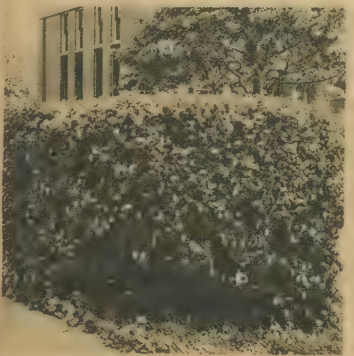

NIOBE

WEEPING WILLOW

Here is a tree which is very hardy and VIGOROUS. A handsome weeping tree with golden-yellow bark, narrow green leaves, and long drooping branches. For the first year, wrap the trunk with three-inch strips of paper wound around and overlapped.

Size	Each	Per 2	Per 5
3-4 ft.	\$0.45	\$0.85	\$1.85
4-5 ft.	.65	1.25	3.05
5-6 ft.	.99	1.80	3.50

CARAGANA (Siberian Pea Tree)

The miracle tree for the north. Grows rapidly to a height of 12 ft. making an almost **SOLID WALL** to stop winds. Drought, hot winds or grasshoppers cannot stop it. **ABSOLUTELY HARDY ANYWHERE.** Also, makes **IDEAL HEDGE**—very tight and neat. Beautiful locust-like leaves.

Weigela-Rosea

This round, dense shrub with hundreds of pink blooms in June grows 4 to 6 ft. tall. It is one of the most beautiful shrubs that grows. We do not recommend it north of the Minnesota-Iowa line. But where it can be grown successfully, it is one of the shrubs that draws envious comments both when in bloom and all summer long as its foliage is dark green and heavy.

49c Ea.; 3 for \$1.29; 5 for \$1.98

Red Flowering Quince

Blooms Before Leaves Appear
(Fire Bush)

Bright red flowers borne in profusion on sturdy, black-barked branches. A flame of color that is strikingly beautiful in the shrub border or for specimen planting. The fruit is used in preserves. Grows 3 to 5 ft. One of the first shrubs to bloom in the spring.

Size	Each	Per 3	Per 5
12-18 in.35c	\$1.50	
18-24 in.45c	2.10	

Tamarix Hispida

The Long Blooming Variety

A very hardy Tamarix. Grows 10 to 12 feet tall if not pruned, but it can be kept any height. Grows in sun or shade and in wet or dry locations. Foliage is very fine, feathery, and dense, and is of a silvery-blue color. Bright coral-pink flowers.

Size	Each	Per 3	Per 5
18-24 in.34c	\$0.87	\$1.37
2-3 ft.39c	1.05	1.50

Fernleaf Sumac

A rapid, robust grower, produces cones of bright red fruit. Leaves beautifully formed rivaling the most delicate fern. Can be cut to the ground each season and a mass of beautiful foliage will result. In the fall, the leaves turn to the most beautiful pinkish-red. Every planting should have some sumac.

18-24 in., 49c ea.; 3 for \$1.35; 5 for \$1.90.

Rose Tree of China

(Prunus Triloba)

The Rose Tree of China when in full bloom is breath-taking. It is covered with Bright Pink Double Flowers which somewhat resemble a rose. The tree blooms in May of the first year after planting. Grows 6-8 ft.

Size	Each	Per 3
2-3 ft.69c	\$1.98
3-4 ft.79c	2.25

BEAUTY BUSH

This is rightfully named—truly a beauty bush. You will like it. A Chinese shrub covered in June with a mass of arching sprays of pink, tubular flowers. One of the most grace-

ful of shrubs and in the spring when in bloom, its branches sweep clear to the ground in a mass of bloom that is breath-taking in its beauty.

69c each, 3 for \$1.89

EVERYONE LOVES LILACS

STANDARD LILACS

BUTTERFLY BUSH Hartwegi

Blooms All Summer

(New Summer Lilac)—The lovely shrub with flower spikes 12 to 15 inches long, of beautiful true lilac color and fragrant. Blooms continuously all summer and fall. A really wonderful sight among shrubs and in the flower garden. Grows 3-5 ft. tall.

Field Grown Plants, 39c each; 3 for \$1.10; 5 for \$1.70.

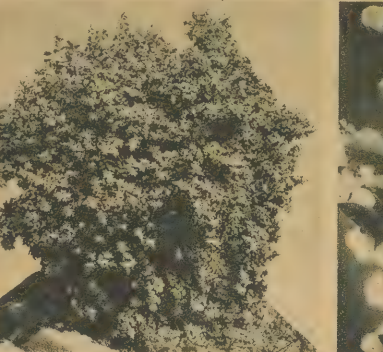

HYDRANGEA A. G.

Early Summer Snowball

Snowball Hydrangea: This magnificent perfectly hardy shrub has snow-white blossoms. One of its most valuable characteristics is its coming into bloom just after the passing of all early spring-blooming shrubs. Does better planted in partially shady places—such as the north and east sides of buildings. Grows 3 to 5 ft. tall.

Size	Each	Per 3	Per 5
18-24 in.....	69c	\$1.89	\$2.98

DOGWOOD (Red)

Crimson Twigged Shrub

A sturdy, beautiful shrub with heavy foliage and bright red bark. In the winter the red bark shines in the snow and adds a touch of brightness to the dark season. Plant a mass of fire. Covered with White blossoms in summer. Grows to 4-6 ft.

Size	Each	Per 5	Per 10
18-24 in.	35c	\$1.49	\$2.79
2-4 ft.	39c	1.78	3.29

HYDRANGEA P. G.

Late Summer—Massive Flowers

Hardy Shrub producing panicles of white flowers, as large as 10 inches across, changing to shades of pink in the fall. Blossoms hold on well into the winter. Excellent for foundation or shaded plantings. Grows 3 to 5 ft. tall.

Size	Each	Per 3	Per 5
18-24 in.....	59c	\$1.69	\$2.79

SNOWBERRY

For Winter Beauty

A lovely shrub with dainty, rose-colored flowers, followed by large, clustered, milk-white fruits which remain far into winter. Does well in shade. Grows 3 to 4 ft. tall.

RED CORALBERRY

Similar to White Snowberry but has RED berries after blooming (white blossoms). Very hardy. Likes hot dry spots. 3 to 4 ft. Excellent for foundation planting.

Price of both above:

Size	Each	Per 3	Per 5
12-24 in.....	39c	\$1.10	\$1.69

BUSH BITTERSWEET

Wahoo or Strawberry Bush: Shrub or small tree to 15 feet. Purple flowers in June. Leaves have splendid fall coloring. A fiery rich red. Has clusters of red berries in fall like vine bittersweet. An unusual shrub that will make you the talk of the town. This shrub is extremely hardy.

12-24 in., 35c Each, 3 for \$1.00.

HEDGES

How to Plant

Hedges are the cheapest kind of fence you can have, and they are so much more attractive they add much to the value of your property. You don't have to repair this kind of fence and they're ideal for making your lawn private. They're easy to plant, too. About 1 ft. apart is the usual distance except with barberry usually set 18 in. apart and honeysuckle and Spirea Van Houttei usually set 2½ to 3 ft. apart. Some like to stagger the planting in zig-zag lines to make hedge tighter but straight line is just as good. Cut back to within a few inches of the ground to make the hedge bush from the ground.

CHINESE ELM

The Quick Grower

If you want a hedge in a hurry, plant Chinese Elm. Can be trimmed to any height you wish from 1 ft. to 10 ft. Makes one of the tightest hedges possible. Very hardy and drought-resistant. Leaves out early and holds leaves late. Set 12 in. apart.

Size	Per 25	Per 100

TARTARIAN HONEYSUCKLE

For Tall Screening Hedge

This is one of the most popular hedges because it grows fast, grows tall for screening purposes, has beautiful foliage, and in the spring is covered with beautiful pink flowers followed by shiny red berries. Set 3 ft. apart.

Size	25	50	100
12-18"	\$2.98	\$5.59	\$10.50
18-24"	3.98	6.98	12.25

PRIVET HEDGE

(Amur River North)—Foliage glossy green, holds its color well into late fall. Will stand shearing to any extent. This is a strictly first-class ornamental hedge plant for southeastern S. Dak. and like climates. Plant 10 inches apart.

Size	Per 25	Per 50	Per 100
12-18 in.	\$2.78	\$5.25	\$9.98

RUSSIAN MULBERRY

For Clipped Hedge

This makes an ideal clipped hedge—a little darker than Privet. Grows rapidly. Can be trimmed to any height desired. Not quite as nice in habit as Privet or Chinese Elm for hedge, but still good and best—very economical.

PRICE: 1-1½ ft., 50 for \$2.24; 100 for \$4.25.

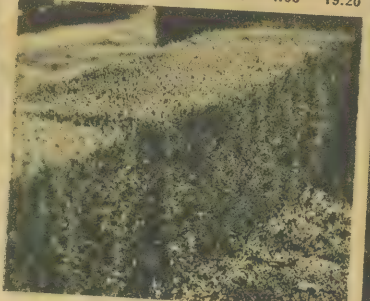

1½-2 ft., 50 for \$2.99; 100 for \$5.85.

COTONEASTER

Acutifolia: A high quality hedge and a beauty. Dense growing. By pruning or will make a hedge 4 feet high. The dark glossy leaves appear very early in the spring. Flowers are white and in clusters. Produces very conspicuous black fruit. This shrub thrives in almost any soil. The leaves, in fall, turn to striking red and yellow. Attractive to birds.

Seedlings	Per 5	Per 50	Per 100
8-12 in.	65c	\$5.40	\$9.60

18-24 in.	.48	2.15	4.05
			19.20

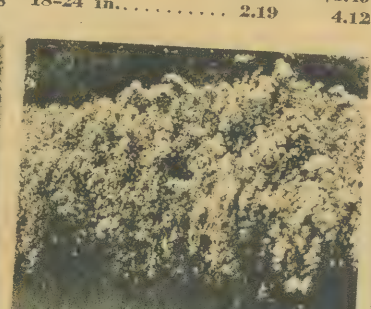

CARAGANA

The Drought Lover

(Siberian Pea Tree)—One of the hardiest of all hedges—drought, hot winds or grasshoppers can't stop this plant. Pea-green color, locust like leaves. Very compact grower gives you a tight hedge. Can be trimmed to any height from 1 ft. to 10 or higher.

Size	Per 50	Per 100
12-18 in.	\$1.89	\$3.49
18-24 in.	2.19	4.12

SPIREA VAN HOUTTEI

(Bridal Wreath)

Beautiful As Untrimmed Hedge This is an outstanding hedge plant. Extremely hardy, it will grow and live where other plants don't do well. Loaded with bloom in the spring—it makes a sight that's unforgettable. Good foliage all summer. Grows about 5 ft. high untrimmed, but may be trimmed if desired. Set 2½ ft. apart.

Size	Per 25	Per 50	Per 100
1-1½ ft.	\$2.98	\$5.69	\$10.75
1½-2 ft.	4.19	7.98	15.50

Giant Dahlia Flowered Zinnias *The Weather-Proof Flower*

These giants grow as large as dahlias. Big, full double flowers in a wide array of colors. Grow and bloom anywhere. Thrive in hot dry spots.

1257—CRIMSON MONARCH: A deep rich crimson.

Pkt., 9c; ¼ oz., 17c. Postpaid.

1258—Royal Purple—Deep, beautiful new shade.

Pkt., 9c; ¼ oz., 17c. Postpaid.

1254—GOLDEN YELLOW—Clear golden yellow.

Pkt., 9c; ¼ oz., 17c. Postpaid.

1259—Old Rose—Charming Shade of Clear Pink.

Pkt., 9c; ¼ oz., 17c. Postpaid.

1263—DAHLIA FLOWERED MIXED: All of the above colors and many more.

Pkt., 7c; ¼ oz., 17c; ½ oz., 25c. All Postpaid.

California Giants

The Largest Zinnia Grown

Big loose petals. Huge flowers often as large as dinner plates. Bloom all summer. Does well on poor soil.

1260—Narcissus—A golden yellow. Pkt. 9c

1261—Red Coat—Deep Red. Pkt. 9c.

1262—Peach Blossom—Clear Pink. Pkt. 9c.

1405—Giant Mixed: The California Giants are brighter colored than other Zinnias. They come in all colors from pure white to the deepest crimson.

Pkt., 9c; ¼ oz., 17c; ½ oz., 25c. Postpaid.

LILLIPUT or BABY ZINNIA

Finest Zinnia for Bouquets

1253—You've never seen such a free blooming plant. Most as many flowers as leaves—and pretty ones, too. Blooms are an inch! A grand assortment of bright, snappy colors.

Pkt., 5c; ¼ oz., 15c; ½ oz., 25c. All Postpaid.

NOVELTY ZINNIAS

1252—Dwarf Mexican (The Most Colorful Zinnia). Small 1 inch flowers by the thousands. Lend themselves to bedding or bouquets. Blooms are brilliant combinations of yellow-orange, mahogany, red and in-between shades. Pkt., 10c. Postpaid.

1265—FANTASY BRILLIANT MIXED: A rich dazzling Zinnia of the Shaggy petaled type. In our trial gardens this year, Fantasy attracted more attention and more Oh's and Ah's than any other flower. Brilliant mixed colors.

Fantasy Zinnias with their narrow interwoven petals are a great addition to the Zinnia family. Pkt., 15c; 2 for 25c.

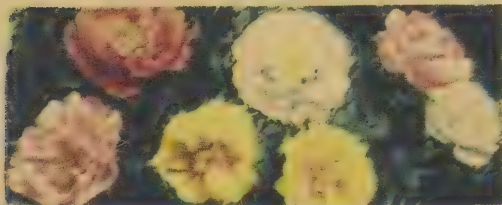

1264—PINCUSHION ZINNIAS—Also known as Scabiosa Flowered. Flowers look a lot like Scabiosas. Very full, well rounded on good stems. A mixture of color. Easy to grow. Pkt., 15c. Postpaid.

Dwarf Mexican

Pincushion Zinnia

Portulaca—ROSE MOSS

Likes Hot Dry Location

No other flower makes such a dazzling display of color and beauty as a bed of many hued Portulaca. Height, 4 inches. The hotter, dryer and poorer the place—the better Rose Moss blooms. Fine for borders.

1195—DOUBLE FINEST MIXED: A select strain of fully double flowers in every color imaginable. Packet, 12c. Postpaid.

1196—SINGLE MIXED: Our best rainbow mixture. Pkt., 10c; ¼ oz., 25c. Postpaid.

ANNUAL PHLOX

For Brilliant Colors

Plant Annual Phlox for a dazzling, unflinching display of color. They bloom early and last until severe freezing. Height, 6 to 12 inches.

1194—DRUMMONDI GRANDIFLORA MIXED: This fine new strain has largest flowers and most vivid colors imaginable. You'll like the dazzling reds, as much as the brilliant pinks. The bi-colored ones and the fringed ones. For beds, borders or cut flowers. Pkt., 12c. Postpaid.

GIANT PETUNIAS

PETUNIAS California Giants

1190—The fluffy Ruffled Giants. Big ruffled single and semi double flowers. All shades and color combinations. Most flowers as large as saucers you'll be specially proud of the big bi-colored or two-toned ones.

Pkt., 20c; 2 for 35c. Postpaid.

DWARF GLOBE MIXED

1175—If you want lots of color and endless numbers of blooms plant plenty of this Petunia mixture. Can't begin to picture it. Wonderful pinks and white—dazzling velvety reds—plenty of blues too. These form a perfect ball a foot in diameter, and are completely covered with bright colored blossoms.

Pkt., 10c; 2 for 17c. Postpaid.

Balcony Petunias

These are larger and the flowers are brighter colored than any other. Trailing growing habit makes them ideal for ground covering, rockeries or hanging baskets. Fine for cutting, too.

1187—Balcony Crimson: A rich crimson that pleases everyone.

Pkt., 15c; 2 for 25c.

1186—Balcony Blue: Giant blossoms of a rich deep velvety blue.

Pkt., 15c; 2 for 25c.

1189—Balcony Queen Mixed: A choice mixture of these magnificent bright colored giant Petunias.

Pkt., 10c; 2 for 17c. Postpaid.

DWARF PETUNIAS

A race of dwarf, erect growing Petunias with smaller, brighter colored flowers. Grow in a small, compact ball only, about 1 FOOT in height and literally covered with beautiful petunias. We list, what we believe is the best variety of all—Celestial Rose.

1174—Celestial Rose: Some times called Rose of Heaven. Better than Rosy Morn. The brilliant RICH, SATINY ROSE FLOWERS completely cover the dwarf compact plants. Blooms freely. Wonderful border plant. Pictured below.

Pkt., 15c; 2 for 25c. Postpaid.

ALYSSUM

Popular for Border or Edging

1001—Carpet of Snow: This compact dwarf Alyssum only grows 3 or 4 inches tall, and literally smothered all summer in a mass of snow white flowers. For borders or edgings it beats all others.

Pkt., 8c; ¼ oz., 18c. Postpaid.

AGERATUM

Dwarf Grower for Borders

1004—Little Blue Star: This fine new Ageratum grows only 6 inches tall and is covered with rich azure blue flowers. Very good for borders or window boxes. One of the most popular and most satisfactory, easy-to-grow flowers of our entire list.

Pkt., 9c. Postpaid.

BALSAM or LADY SLIPPER

Bush Balsams Are Different

1036—The New Double-Bush Balsam: This new bush Balsam is entirely different. The large double flowers are not hid under the leaves like common Balsam. They cover the dwarf, bushy plant. Plant likes rich soil and a sunny location. Flowers are full double and of all colors.

Pkt., 15c. Postpaid. Not available this year.

1037—Camellia Flowered Mixed: The Old Fashioned kind. A large flowered Balsam, easy to raise, and produces solid spikes of double bright colored flowers. An old favorite from grandmother's garden. This strain has many variegated blooms.

Pkt., 7c; ¼ oz., 15c. Postpaid.

BACHELOR BUTTON

The Hardest Annual

1070—Corn Flower—Jubilee Gem: The vivid Cornflower blue blossoms completely cover the sturdy plants, and make a mass of blue in your garden from early summer until frost. Height, 1 foot.

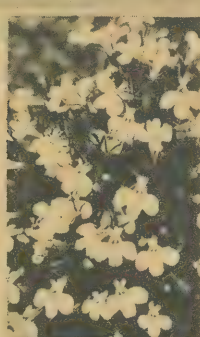

Pkt., 9c; ¼ oz., 25c. Postpaid.

SWEET SULTAN

1240—The bushes are about four feet high and covered with beautiful, fluffy double flowers. Extra fine for cutting and delightfully fragrant. Will keep for over a week in water if cut when about to open.

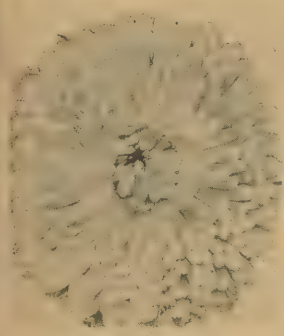

Pkt., 9c; ½ oz., 25c. Postpaid.

LOBELIA

1051—Crystal Palace. One of the finest bedding plants. Our strain grows only 4 inches high, making a compact plant, covered all summer with deep blue flowers. A favorite for edging. Stands sun but prefers shade.

Pkt. 10c; 2 for 18c. Postpaid.

CALENDULA

For Brilliant Blooms

1046—Chrysanthemum Flowered Mixed—The flowers resemble a large Chrysanthemum, and are on extra long stems, making them ideal for cutting. Height, 18 in. Long curving outside petals. Incurved center petals. Pkt., 8c; ½ oz., 20c. P.P.

1048—Orange King: Very double, dark orange with darker center. Perfect form—double clear to the center. Flowers often measure 4 inches across. Pkt., 8c; ½ oz., 18c. P.P.

COSMOS—Tall, Stately, Graceful

1077—Early Klondike Orange Flare: An All American Winner—vivid orange flowers. They bloom early, and if kept picked continue until frost. For cut flowers or for show and color in the yard, plant Orange Flare, 3 feet. Pkt., 6c; ¼ oz., 18c. Postpaid.

1083—Early Flowering Single Mixed: This new race of early Cosmos grows about 3 feet tall and produces immense flowers 3 or 4 inches across 50 days from the planting of the seed. Long flower stems. Good cut flower. Colors are Red, Rose, Pink and White, mixed. Pkt., 6c; ½ oz., 18c. Postpaid.

1078—Early Flowering Double Mixed: Double Cosmos of the early type are more popular every year. The attractive flowers with an outer row of petals and a large crested center are very beautiful. The stems are long and the flowers last for days when cut. Pkt., 10c; 2 for 18c. Postpaid.

CASTOR BEAN

Tropical Giants

1346—Zanzibarensis: I want everyone to enjoy some of the tropical beauty of these Giant Zanzibarensis Castor Beans. These Giant plants often grow nearly 20 feet tall and the leaves are sometimes 2 feet across. For quick shade or windbreak, you can't beat these Giant Castor Beans. Some claim you'll not be bothered by mosquitoes if you plant castor beans around the yard.

Pkt., 8c; oz., 17c. Postpaid.

CLARKIA

Likes It Hot and Dry

1074—Double Finest Mixed: One of the best low-growing Annuals. The pretty little double flowers completely cover the long slender stems. A good cut flower. Height, 18 inches. Will grow on poor, thin soil. One of the sure-fire, easy-to-grow annual flowers.

Pkt., 8c; ¼ oz., 20c. Postpaid.

CALLIOPSIS

Always Sure to Bloom

1056—Finest Mixed: A very showy border plant, producing flowers in nearly every shade of yellow, orange, crimson red and brown. Plants have many branches and bear an abundance of flowers. Height, 8 inches.

Pkt., 8c; ½ oz., 20c. Postpaid.

COCKSCOMB

The Giant Kind

1084—Giant Mixed—The largest and most beautiful of the Cockscomb. The immense heads are frilled and corrugated like a Cockscomb. Can be dried for Winter bouquets. Brilliant mixed colors. They are sometimes over a foot long and borne on strong plants.

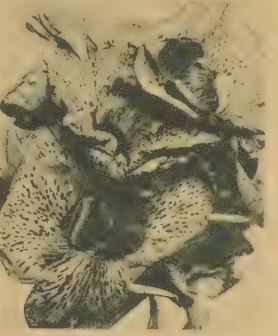

Pkt., 10c; 2 for 18c. Postpaid.

Chinese WOOLFLOWER

1072—Height, 3 feet. The giant flower heads are from 4 to 6 inches in diameter, very light and fluffy, resembling a ball of brightly colored wool. They come in all shades of pink and red. A few plants will furnish cut flowers all summer.

Pkt., 8c; ¼ oz., 20c. P.P.

CANNAS from SEED

You Can Grow Cannas From Seed!

1067—Extra Choice Mixed: Grow Cannas from seed. Produce new varieties. Height, 2 to 10 feet. They come in all shades of red and orange. Many bloom the first season. Seedlings are interesting and different.

NOT AVAILABLE.

CANDYTUFT

Fragrant and Attractive

1063—Giant Flowered Mixed: These pretty little flowers only grow 8 inches tall, and are fine for beds or borders. The flowers completely cover the plants and come in many colors. Nice for hanging baskets, pots and borders, too.

Pkt., 5c; ¼ oz., 15c. Postpaid.

DAHLIAS

Grow Them From Seed

1090—Finest Mixed: Dahlias from seed will bloom the first year. The flowers will be of many colors and sizes, some of them perhaps, 6 or 8 inches across. This mixture will give you dozens of kinds of Dahlias—singles and doubles of various forms and colors. Directions for growing—printed on the package.

Pkt., 10c; 2 for 15c.

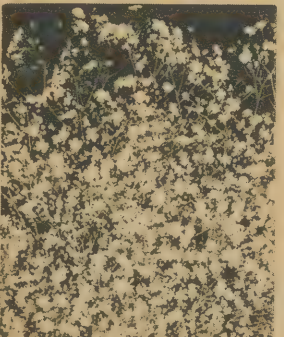

STRAW FLOWER

For Winter Bouquets

1112—Helichrysum Mixed: Everyone likes winter bouquets which add a touch of color to the home. These beautiful straw flowers come in many beautiful colors, and if picked when buds are opening, will retain their beauty for years. Height, 3 feet. Large double flowers. All colors including yellow, orange, pink and red.

Pkt., 7c; ¼ oz., 18c. Postpaid.

BABY'S BREATH

Blooms—First Season

1107—(Gypsophila): The flowers are small, star-like and borne on feathery sprays, which are highly esteemed for cut flowers, as they lend a most graceful effect when combined with other flowers in bouquets.

Pkt., 7c. Postpaid.

GOURDS

1104—Large and Small Varieties Mixed: Gourds are grown for ornaments and for use such as Nest Eggs, Dippers, Bowls, Pipes and Bird Houses. They come in all colors. Some produce small egg-shaped fruits, others grow to be ten feet long. They can be forced into strange shapes by tying them. Over 25 varieties in this mixture.

Pkt., 9c; oz., 17c. Postpaid.

PINKS

An Old Favorite

1204—(Dianthus)—Mixed: This old-fashioned flower is always satisfactory. It comes in many colors and forms. Many of the flowers are beautifully fringed. They bloom the first season and last until frost.

Pkt., 7c. Postpaid.

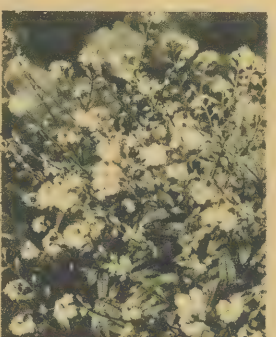

FOUR O'CLOCK

For a Flower Hedge

1093—Giant Mixed: Anyone can raise Four O'Clocks, and everyone likes them. They grow about 2 feet tall and make good hedges, and are covered with a mass of flowers in the afternoons and evenings. Hundreds of funnel shaped flowers—red, yellow, pink and white.

Pkt., 10c. Postpaid.

FORGET-ME-NOT

1075—Victoria Blue: This charming little blue flower succeeds best in damp, shady situations, but will thrive in almost any soil. Victoria Blue is the largest flowering of any. NOT AVAILABLE.

1076—CHINESE FORGET-ME-NOT: A new flower from China, of the easiest culture, forming strong plants 2 feet high, and producing sprays of sweet scented blue flowers.

Pkt., 7c. Postpaid.

GERANIUM

1094—Double and Single Mixed: Did you know you could grow Geraniums from seed? You can, and you may produce new and valuable varieties. This fine seed will produce both double and single flowers in many colors. It is surprising the number of good plants you will get from 1 packet of seed.

NOT AVAILABLE.

GURNEY'S Packets Go Farther—Seed Does Better

GURNEY'S GIANT ASTERS

All My Varieties Are WILT RESISTANT

SUPER ASTERS

NORTHERN SUN MIXED

1351—A super strain of magnificent giants. Early and vigorous. Immense double blooms on long strong stems. Wonderful cut flower variety. Can be planted directly in garden and you'll have lovely flowers in July. Giant packet of all colors mixed.

Pkt., 9c; 2 for 16c. Postpaid.

GIANTS OF CALIFORNIA

The Largest of All

1341—Double Mixed: Asters as big as saucers on stems 2 feet long. Sounds big, but these giant Asters are that size. The long curled and interlaced petals make this the grandest flower of all. Height, 3½ feet. Seed should be started in boxes.

Pkt., 10c; ½ oz., 25c. Postpaid.

ABOUT ASTERS

Some folks stopped growing Asters years ago because the flowers were then susceptible to wilt. Since then, they've missed the gorgeous blues and reds of the lovely Asters.

There's no need to be afraid of Asters now. Made wilt resistant they will bloom and bloom, and now are one of the most lovely flowers for your annual garden.

Special Aster Trial Offer 10c

All the above kinds and many more trial ground varieties mixed together into the finest aster mixture we've offered—including some of all varieties. Giant pkt. No. 1354, 10c, pp.

EARLY AMERICAN BEAUTY

For Brilliant Bouquets

1357—Mixed: Wilt Resistant—This new American Beauty Aster is larger and more beautiful than the old American Branching and 3 to 4 weeks earlier and it is resistant to disease. Large blooms. Pkt., 9c; ½ oz., 20c. Pp.

CREGO'S GIANT MIXED

The Shaggy-Frilly Asters

1025—Wilt Resistant—With their long, twisted, curved petals they resemble the choicest of Chrysanthemums. Flowers measuring five inches in diameter, fully petaled and very deep with long interlaced and twisted petals. Lovely in the garden or bouquets. All colors mixed. Pkt., 9c; ½ oz., 20c. Postpaid.

QUEEN OF THE MARKET

Earliest of All

1015—An aster that's new and different. Extremely early. Grows only 18 in. tall but every plant will carry 6 to 8 big double 4-inch blooms on strong stems. Plants are of non-lateral branching type. Excellent for cutting. Pkt., 9c. Postpaid.

MORNING GLORIES and MOON FLOWERS

HEAVENLY BLUE

1135—The Genuine Early Flowering Kind: Will climb to top of a tree in 1 season, and completely cover it with a mass of foliage and giant heavenly blue flowers over 4 in. across. Pkt., 9c; ½ oz., 25c. Postpaid.

SCARLETT O'HARA

1136—Gold Medal Winner: A deep RICH SCARLET-CRIMSON FLOWER nearly 4 inches across, produced on fast growing vines. The red twin of Heavenly Blue. Pkt., 10c; 2 for 17c. Postpaid.

ROSE MARIE

(Double Flowered)

1133—Something new and different. Clear Pink Color and prolific bloomer, but this one is VERY DOUBLE. You must grow it. Pkt., 15c. Postpaid.

ORIENTAL MORNING GLORY
World's Largest
1137—Imperial Fancy Fringed: Exceptionally large flowers, beautifully fringed and ruffled. Beautiful bronzes, Chocolates, Reds, Blues, Purples and Variegated. Pkt., 9c. Postpaid.

VINCA ROSEA

For a Beautiful Flower Bed

1251—The best flower for hot dry weather. The large pink and white flowers nearly cover the glossy green foliage. Height 1 ft. Blooms continuously all summer. You'll be delighted with it. Incidentally one of our biggest sellers.

Pkt., 9c. Postpaid.

VERBENA

The Big Flowered Kind

1247—Gurney's Mammoth Mixed: These new giant Verbenas are over an inch across and are borne in large clusters. They come in every color from pure white to the deepest crimsons and purples.

Verbenas are one of the best flowers for ROCK GARDENS or WINDOW BOXES.

Pkt., 9c. Postpaid.

LARKSPUR

The New Double Flowered Kind

1124—Giant Imperial Mixed: A new strain with giant double flowers closely packed on long strong stems. Fine for cutting—all colors mixed—3 to 4 feet tall.

Pkt., 10c; ¼ oz., 25c. Postpaid.

1123—Giant Rosamond: This is the most beautiful rose-pink Larkspur I have ever seen. The long stems are a mass of double flowers from base to tip. Pkt., 10c; 2 for 18c. Postpaid.

MARIGOLDS—For Beauty and Color

1127—Golden Treasure: The largest of the new Marigolds. Mammoth flowers, full double in all shades of yellow and orange. Sweet scented. A real show flower. Pkt., 10c. Postpaid.

1142—Early Harmony: The deep orange centers are surrounded by broad velvety maroon outer petals, making this new dwarf Marigold one of the finest flowers ever introduced. Very early, blooms continuously. 18 to 24 inches tall. Fine border plant. Pkt., 8c. Postpaid.

1146—Carnation Flowered Mixed: The loosely ruffled lemon-yellow flowers are very large and completely cover the tall plant. Flowers of the true carnation type. Pleasantly fragrant. Pkt., 9c. Postpaid.

1129—African Tall Double Mixed: Many prefer the African Marigolds because of their vigor and all around goodness. They'll grow anywhere. All shades. 3 ft. Pkt., 9c. Postpaid.

POPPIES—Brighten the Garden

1390—CALIFORNIA POPPY (Escholtzia) Single Mixed: This is a mixture of all the colors from pure white to crimson. Escholtzias are easy to raise, grow anywhere. 8 to 10 inches tall.

Pkt., 9c. Postpaid.

1392—DOUBLE SHIRLEY MIXED. Big double silky flowers. Look like peonies. All brilliant colors mixed.

Pkt. 10c, postpaid.

ANNUAL VINES

1065—Cardinal Climber—The Rapid Grower: This rapid growing climber will completely cover a building with a dense mat of dark green foliage, set off with countless fiery scarlet flowers over 1 inch across. Pkt., 9c. Postpaid.

1040—Balsam Apple—A Great Novelty: A very beautiful cut-leaved climbing vine, producing beautiful flowers, followed by scarlet apple-like pods seed bursting open and showing the bright crimson interior. NOT AVAILABLE.

1114—Hyacinth Bean—For Screen Plantings: Makes one of the most desirable climbing vines, grows rapidly, produces clusters of beautiful flowers, and then covers itself with the bright pods. Pkt., 9c; ½ oz., 18c. Postpaid.

SALVIA

For Bright Red Masses

1207—Volcano—Scarlet Sage: This sturdy, well branched flower grows about 18 inches tall. From mid-summer until frost it is a glowing mass of flaming scarlet blossoms. A good house plant. It may be potted and will bloom all winter.

Pkt., 15c; 2 for 25c. Postpaid.

SALPIGLOSSIS

Easy to Grow

1208—Giant Emperor Mixed: This has always been one of our favorites, for it is so easy to grow, and comes in such a variety of delicate colors. The blue and gold combinations are especially beautiful. The reds and purples are nice, too. Velvety Petunia-like flowers 2 inches wide. Height, 3 feet.

Pkt., 9c. Postpaid.

FLOWER MIXTURES

Long Seasons of Bloom

1205—Wild and Tame Flower Garden: This is a mixture of the best Annuals. Plant in beds where you want a quick showing of bright colors. Fine for Naturalizing—Cultural directions on packet. Pkt., 5c; ½ oz., 15c. Postpaid.

1206—Cut Flower Mixture: Our mixture of Annual Flowers is carefully selected. Varieties with long stems that make a great show of colors, and will last for many days after cutting. Allow plenty of room. Some of these are big. All are good. Pkt., 5c; ½ oz., 15c. Postpaid.

1213—Pin Cushion Flower—For Lovely Graceful Bouquets: This old-fashioned flower is one of our best cut flowers. The sweet scented flowers are borne on 18 inch stems. Wide range of colors. Showy in the garden. They thrive in the hot sun. Mixed. Pkt., 7c. Postpaid.

Gurney's HARDY PERENNIAL FLOWER SEED

Start your own perennials. Full planting directions printed on each packet. Every variety in this list is hardy and dependable.

Columbine—Aquilegia—18 inches to 3 feet tall, and are covered with brilliant flowers of every color.

1275—Dobbies Long Spurred Hybrids with spurs 3 inches long. Pkt., 10c; 3 for 25c. Postpaid.

1280—Coreopsis—Double Sunburst: Two feet tall. Covered with large golden yellow, fully double. Pkt., 9c. Postpaid.

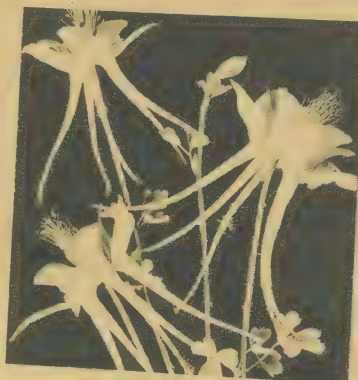

1278—Canterbury Bell—Single Mixed—The tall, showy plants are covered with beautiful bell shaped flowers of various shapes and colors. Mixed colors, packet 10c; 3 packets 25c. Postpaid.

1286—Chinese Bell Flower—Platycodon: Very hardy and easy to raise. They are covered with bell-shaped blue and white flowers about 2 inches across. Height, 1 to 2 feet.

Pkt., 9c. Postpaid.

1474—Gaillardia—The Bremen: A new Gaillardia. Twice as large as the common kind. The immense coppery-scarlet flowers with narrow golden edges completely cover the plants from early spring until fall.

Pkt., 9c. Postpaid.

COLUMBINE

Hollyhock—Hollyhocks grow from 6 to 10 feet tall, and make beautiful background for gardens, or can be planted in front of outbuildings.

1301—Single Mixed. Pkt., 9c; ¼ oz., 25c. Postpaid.

1300—Double Mixed. Pkt., 9c; ¼ oz., 25c. Postpaid.

Larkspur—Delphinium—These tall stately flowers come in colors ranging from the lightest lavender to the deepest indigo blue. Height, 4 to 5 feet, with flowers covering the entire plant. The best cut flower.

1288—Gold Medal Hybrids: A mixture of beautiful dark and light shades. Singles and doubles are included in this wonderful blend.

Pkt., 10c; ½ oz., 25c. Postpaid.

1485—Linaria—Perennial Yellow Snapdragon: A beautiful golden yellow flower resembling Snapdragons, borne on 3 foot plants. Easy to grow.

Pkt., 9c. Postpaid.

1487—Peony Seed: Peonies can be raised from seed, and you may produce new and valuable varieties this way. They come in all colors and all forms from the giant singles to the finest doubles.

Pkt., 10c; 2 for 17c. Postpaid.

1488—Poppies—Oriental Red: The brilliant glowing red flowers on 2 foot stems often grow 8 inches across.

Pkt., 9c. Postpaid.

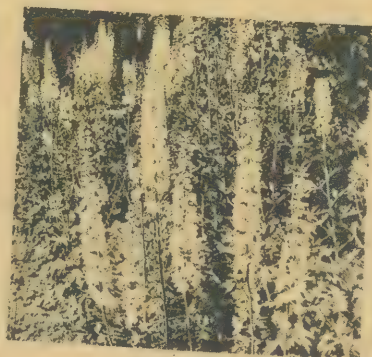

1490—New Hardy Pinks—Grass Pinks—Dianthus Plumarius: Double, deliciously clove scented flowers in many colors. They are perfectly hardy, and flower from spring until fall.

Pkt., 9c; ¼ oz., 30c. Postpaid.

1269—Sweet William—Dwarf Mixed: These seldom grow over 6 to 8 inches high. Profuse bloomers; excellent for borders or edging.

Pkt., 12c. Postpaid.

1304—Sweet Peas—Perennial: Hardy vines resembling Sweet Peas, but the

DELPHINIUM

flowers are not fragrant. Height, 4 feet. Colors—white and pink.

Pkt., 9c. Postpaid.

1492—Snow in Summer—Cerastium Tomentosum: A spreading plant with silvery white foliage and star shaped blooms. A perfect rock garden plant. Will stand any amount of heat and sun. NOT AVAILABLE.

LILIES

The aristocrats of the garden. You should have these 5 hardy, easy to grow Lilies in your garden. It pays to buy the best.

REGAL LILY

Rare and wondrous beauty. Experiments prove it harder than most kinds. Flowers are white, slightly suffused with pink with a beautiful glow of canary yellow in the center. Plant the bulbs 8 to 10 inches deep. We offer large bulbs that bloom the first season. Price: 29c each; 3 for 75c; 5 for \$1.19, postpaid.

TIGER LILY

Well known, old-fashioned, very popular lily. Grown extensively in all gardens because of its extreme hardiness. One of the most showy of the lilies. It grows 3 to 5 feet tall, with many flowers on one stem. Flowers are orange with black spots. Plant the bulbs 8 to 9 inches deep. We offer you your choice of either the single-flowered or the double-flowered variety.

Prices for Both: 29c each; 3 for 75c; 5 for \$1.19, postpaid.

RED RUSSIAN LILY

This is one of the easiest of all lilies to grow, and one of the most brilliant of all garden lilies. Grows from 18 inches to 3 feet in height, with clusters of dainty red-orange large flowered lilies borne erect on the top of the stem. Plant 8 to 8 inches deep.

Price: 35c each; 3 for 79c; 5 for \$1.29, postpaid.

DAY LILIES (Hemerocallis)

HYPERION—Giant, lemon-yellow on stems 4 feet high. Delightfully fragrant, perfectly hardy, grows in dry, wet, sunny or shady places, blooms July and August. Price: 59c each; 3 for \$1.49, postpaid.

OPHIR—Giant, golden yellow star-like flowers, 4 feet tall. Brand new. Price: 59c each; 3 for \$1.49, postpaid.

MINNESOTA 'MUMS

Hardiest of All Chrysanthemums

Minnesota has just been a few jumps ahead of others in producing early blooming hardy mums. We are listing some of their best varieties. All of these are early blooming, productive, hardy, and do well in the north. They are all outstanding in size and quality. These are hardy perennials and will produce flowers year after year and are as easy to grow as any for us.

These new mums begin blooming early in August with us and continue until freezing weather, giving a long period of bloom at a time when few other perennials are doing very much in this line.

Price on Minnesota Mums: 40c each; any 2 for 69c; any 3 for 98c, postpaid.

(See Front Cover for Minnesota Mums in Color)

DULUTH—Very first yellow variety to bloom—produces thousands of blooms. Season is August 12th until severe freezing weather as frost doesn't hurt Mums. Height 18 inches—spreads 2 to 3 feet of beauty.

HARMONY—Large, double flowered. A lovely combination of rose and yellow, mixed with bronze and red. Blossoms extremely early. Height 18 inches, spreads 2 to 3 feet.

REDWOOD—Almost double. Beautiful dwarf, bright red, very free flowering and early. Height 15 inches—spreads 2½ feet. A gorgeous fall variety.

WELCOME—Another early blooming, bright mellow purple, producing a tremendous number of flowers at one time. Height 20 inches—spreads 2½ to 3 feet.

GLACIER—Snow white mounds of gleaming golden-centered flowers. One of the best white chrysanthemums we have ever seen, and one of the hardiest. A comparative low grower. Growing about 15 inches high and 2½ feet across. A very early bloomer.

BUTTERBALL—A butter yellow variety with myriads of small pom-pom flowers. Quite different from the open flowers of Duluth, but just as good. Height about 18 inches with a 2½ ft. spread. All of these Minnesota Mums will grow into full size plants the first year.

SUNRED—A brilliant combination of autumn bronzes and reds and yellows. Quite a tall variety growing about 2½ ft. tall with a 2 to 3 ft. spread.

PURPLE STAR—Double medium size purple blooms borne in great abundance from late August until freezing weather.

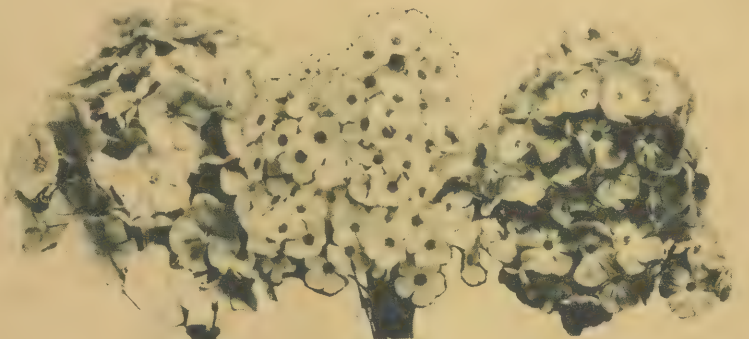

MINNESOTA MUM BARGAIN

SECOND COLLECTION

1 Duluth, 1 Redwood, 1 Purple Star, all for 89c, postpaid

Three Brilliant New Phlox Tall Growing, Hardy Beauties

From the great many varieties of new Phlox now being offered we have picked three which we think best because of their clear colors, freedom of bloom, and strong growing habits. Here are some things to remember when planting these Phlox: Never let plants go to seed, never water overhead, always keep blooms and foliage dry, letting hose run slowly on the ground. Pick up and divide every 3 or 4 years.

STARLIGHT—A beautiful lavender purple with a bright white star center.

EVA FORESTER—Immense flowers of clear salmon pink with a white star eye.

LEO SCHLAGETER—A brilliant scarlet. Seems to glow with fire. This impression is heightened by the fact that there seems to be a decided orange cast to the bloom. One of the most brilliant of all Phlox. One each of these three newest and finest Phlox for \$1.00, postpaid.

Two New "CREEPING" PHLOX

BRILLIANT RED—A new one with flowers of bright red instead of the well known pink. Just as hardy and rapid growing. Makes a great mass of foliage which is covered with these bright red flowers in the spring blooming season. This is a great one for planting on banks, over graves, around the edges of flower beds, and for large plantings on lawns. Price: 35c each; 2 for 65c; 3 for 89c, postpaid.

VIOLET ROYAL ROBE—A glorious new variety of tremendous vigor and beauty with delicately fragrant flowers borne in great quantities on long stems above husky plants which quickly make up into big clumps. Deepest violet blooms. Wonderful for cuttings. Price: 49c each; 3 for \$1.29, postpaid.

South Dak. "Hybrid" Chrysanthemums

South Dakota Hybrid Chrysanthemums—Two fine chrysanthemums originating in South Dakota.

Price: 40c each; 2 for 69c; 3 for 98c, postpaid

DEAN LADD—Large double glowing reddish bronze flowers borne in great masses on the tops of the plants. 2 to 3 ft. high with long stems for cutting.

DEAN KAY—Large double bright rose-pink bloom. Blooms early and lasts late.

A New Bright Red Butterfly Bush

Red Flare—A Lovely Thing

The new reddest of the red in Butterfly bushes (not illustrated). It is a strikingly brilliant plant, which bears its long clusters of red lilac-like flowers all summer long. It will make a bush 3 feet high and 3 feet broad, loaded with brilliant blossoms the first year. Price: 45c each; 3 for \$1.19; 5 for \$1.89.

**PINK
BLAZ-O-MUM**

BLAZ-O-MUM PINK

This miracle Mum starts blooming the first year and in late summer and early fall it covers itself with beautiful pink flowers with yellow centers—literally hundreds of blooms grow on a single plant. By actual count over 500 blooms the first year, and thousands the second year. They grow in bushy form from 2 to 4 feet in diameter.

GAILLARDIA

The Blanket Flower

Dazzler: These are the flowers that love drought and hot weather. Bloom all summer—hot or not. This is Dazzler the bright yellow with the large deep maroon center. A fine new variety that is making friends all over the country. If you want lots of flowers year after year, but with little effort, plant Gaillardia.

SHASTA DAISY

Large 4 to 5 in. Blooms

This is one of the easiest flowers to grow and so lovely. This strain is the extra large one—some getting 4 to 5 in. across. You'll always have blooms if you have these lovely daisies. They range from the fully double to the single; white to pale, lemon-yellow.

PAINTED DAISY

Pyrethrum: These are like the Shasta daisies at left but are painted pink to red and give color to your daisy patch. Always in bloom. The plant grows 2½ feet tall with fern-like foliage, excellent cut-flower and very showy in the garden. We can furnish these MIXED and PINK.

Daisy COLLECTION

2 each of Gaillardia, Shasta Daisy and Painted Daisy, 8 in. all. A whole summer of flowers, pp. **\$1.79**

Gurney's GIANT PHLOX

MORGANROOD—Very attractive rose-pink with deep eye—a strong grower.
BRIDESMAID—Pure white flowers with crimson eye. Pretty enough to be a bride.
MRS. JENKINS—One of the old standbys. Strong growing, pure white, late flowering.
PAINTED LADY—Silvery pink with salmon shadings and cherry-red eye. Strong upright growth and large masses of flower heads. A beauty.
MRS. VON BERRINGER—Large, rich salmon-red flowers—a brilliant effective self color without eye. Robust grower of medium height. A good Phlox.
R. P. STRUTHERS—Rich salmon-red with scarlet eye.
STARLIGHT—Brilliant violet with distinct white star in center. Outstanding color combination.
EVA FORRESTER—Large heads of 30 to 40 individual flowers at one time. Flowers clear pink and 1¼ in. across. This is one of the finest of all Phlox.
LA VAGUE—Huge conical heads of lovely lavender pink. Strong stems bear huge clusters of pink beauty and fragrance.
AFRICA—A brilliant carmine-red with blood-red eye. Large florets. Good strong stem and not subject to mildew.
BRILLIANT—Large trusses of fiery scarlet with deeper eye.
Prices: 35c each.; 3 for 98c, postpaid.

3 DELPHINIUM 79c

1 each of below

Light Blue Belladonna: Literally a "Beautiful Lady." A lovely delicate blue defies description. Tall, sturdy, and many tall spikes of flowers. Blooms June to frost.
Dark Blue Bellamosum: As dark blue as the evening sky, tall and strong. Its flowers grace the garden and dominate its color.
Mixed Hybrids: Extra tall, many colors.

COREOPSIS

Golden Beauty

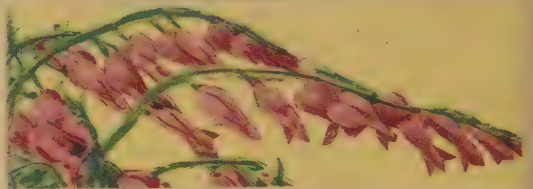

The Golden daisy-like flowers from early summer till fall. The New Gold Double—a bright yellow, Double, Daisy-like flower with long stems and a long blooming period is the best of all Coreopsis. Perfectly hardy and drought resistant.

CARNATIONS

Your garden needs the bright colors and spicy fragrance of these hardy Carnations. They come year after year, always adding beauty and fragrance. These are as lovely as greenhouse carnations and easy to grow in your own garden. Very fragrant—so spicy and clean. You'll love them. They keep coming year after year. Red, White or Pink.

Hardy Carnation Collection

1 each of Red, White and Pink —All three pp. for only **79c**

BLEEDING HEART

The shade-loving plant with drooping clusters of bright pink heart-shaped flowers. It's the favorite of everyone's garden—blooming as it does the first thing every spring. Lives from year to year. A beauty when planted with other perennials, especially Peonies. 55c each; 2 for 98c.

Indian Chief

HARDY FERN

For Tropical Foliage

Ferns are one of our most popular perennials because they do so well on the north or east of a house where other things don't do as well. Beautiful tropical foliage.

A shade and moisture loving plant with long, graceful leaves making a beautiful, bushy border. Everyone should have a few of them around his foundation.

COLUMBINE

Here is where you get the soft colors for your garden. These are special selected strains for long spurs and delicate colors. You may choose either: **Dwarf Alpine:** Grows about a foot high, beautiful dark blue flowers or **Long Spurred Mixed:** Many colors including yellow, pink and blue on long dainty stems. Bloom for all of six weeks.

PERENNIAL PRICES

**39c each
2 for 65c
3 for 89c
Postpaid**

(Unless otherwise priced)

Please order at least 2 but you may choose 2 different varieties if you wish.

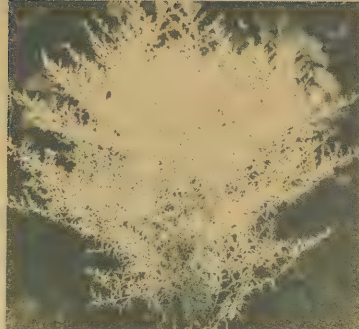

SWEET WILLIAM

Everblooming

This has been a garden favorite for years and you get your choice of 2 varieties:

Dark Crimson Beauty: It supplies your garden with the color it needs in early summer, faithful and long blooming . . .

Double Choice Mixed: A riot of color, white, pink, red, and an assortment of these colors in the individual flowers. A beautiful cluster flower.

SILVER KING

(Ghost Plant)

The ghost plant! Looks like it was dusted with silver dust. Grows anywhere. Use it for contrasts, background, hedge etc. where relief from green foliage is needed. Hardy. 2 ft. high. Dry foliage makes wonderful winter bouquets!

DAINTY PINKS

The Fragrant Flower

Here's the flower that made your grandmother's garden such a fragrant delight. Very lovely spice fragrance. Blooms profusely. And, best of all, these pinks are **ABSOLUTELY HARDY** and they'll grow easily anywhere.

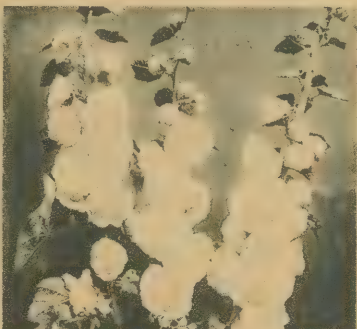

GYPSOPHILA

(Baby's Breath)

Dwarf Pink: Pink flowering dwarf for borders or Rock Gardens.

White Baby's Breath: Of course you want it. Every gardener does. You can't get the most out of your garden without the misty sprays of White Baby's Breath.

DOUBLE BABY'S BREATH: Bristol Fairy. This large, double beauty is more costly because every one must be grafted. It's worth the price because it's beautiful and there is nothing quite like it. Great clusters of double white flowers borne on long stems. 69c each; 2 for \$1.29, pp.

DOUBLE HOLLYHOCKS!

For Your Garden

Here's a grand mixture of color for your garden in the new "dressed-up" hollyhocks—the new **DOUBLE CHARTERS.** Mammoth flowers and all double. Comes in all colors of the rainbow. We sell as mixed only. Regular perennial price.

BLUEBELLS

Mertensia: These are the lovely hardy blue bells that come so early in the spring. They will grow on the north side of the house where nothing else will do well and they love it.

PENTSTEMON: Commonly called the Native Blue Bell—Hardy, faithful, and a beauty. It is blue, but still it's cheerful. Its tall stems carrying many bells of lavender-blue is a gardener's delight.

PANSIES

Here's the easiest way to get your pansies started. Plant these strong, healthy plants all ready to bloom. We include some of the new Red ones in each shipment. Giant, ruffled strain gives you immense pansies. All colors imaginable.

1 Doz. \$0.75 pp.
3 Doz. 1.98 pp.
100 Plants 4.49 pp.

PLATYCODON

The Balloon Flower

The buds of this beauty are little balloons, but when they open they are blue four-petaled flowers that you must see to really believe. Blooms from mid-June until September. Everyone loves them. They're medium growing and easy to raise. Be sure and include these in your garden.

LILY OF THE VALLEY

The Lily of the Valley thrives and throws up its beautiful, modest, fragrant white bells in almost any kind of soil. Will also adapt itself to pot culture in winter. Its delicate, permeating fragrance makes it especially desirable. It is especially loved for the wonderful corsages it makes. Plant plenty of them.

5 plants 30c, 10 plants 50c pp.

HARDY SWEET PEAS

New Perennial Sweet Peas!

Lathyrus: These sweet peas are really perennial sweet peas and keep coming year after year! They grow rapidly and bloom continuously all summer. Splendid for covering arbors or trellises. Many people put them on the garden fence where they bloom year after year. You may have them in the **Pink Beauty**, the **Red**, or **Mixed**. Your Choice of color.

YUCCA

Adam's Needle

A hardy Evergreen plant with long leaves; a tall stalk producing as high as 200 flowers of pure white. Blooms about June and July. The leaves remain green the entire year. Very hardy, excellent for sunny, hot, dry places along foundations. Grows almost anywhere. Also called **Candles of The Lord!**

HARDY VERBENAS

One of the easiest grown and most satisfactory perennials we know. It's a favorite everywhere. Rose magenta in color, it blooms profusely in May. Verbenas are easy to grow and they're hardy, too. Even if you're a gardening amateur, you can have plenty of bloom with Verbenas.

24c each, 3 for 69c, Postpaid

Florida: Pure yellow.

Spring Skies: Dainty blue white dwarf.

Gurney's ROYAL ROSE OFFER

The aristocrats of the rose world pictured here all in a grand collection at a bargain price. You get 1 each of the choice varieties pictured. All 7 Choices at left. All long stemmed, varieties only free bloomers. Very hardy.

1. CHAS. K. DOUGLAS: Dependable, sturdy, red rose. Very free flowering and holds its color well in the summer heat.

2. BETTY UPRICHARD: A real beauty. Brilliant copper-red buds opening to brilliant orange-carmine.

3. RED RADIANCE: Big blooms of deep rose-red on strong canes. The plant blooms freely until frost. One of the finest and most fragrant roses.

4. GOLDEN OPHELIA—Fine well shaped golden yellow with an outstanding tea rose fragrance.

5. TALISMAN: A remarkably colored rose . . . A combination of shadings of gold, apricot-yellow, and deep pink. Vigorous, blooms constantly.

6. PINK RADIANCE—Best drought resister of all pink roses. Flowers big. Disease resistant.

7. AMI QUINARD—Largest Deep Red Rose grown. Rich fragrance. Hold color well. Very Hardy.

You may buy the varieties in this collection separately or in small groups at 93c each; 3 for \$2.67.

Gurney's HYBRID TEA ROSES

Here are the choice varieties of giant, 2-yr. old hybrid tea roses. All are extra-large plants guaranteed to bloom the first year planted. All are carefully graded to insure extra-heavy root system and strong canes. These are the everblooming type of hybrid teas that give you bloom all summer long.

You may buy the varieties below or the ones at left in our Royal Rose collection at the same low individual price of 93c ea., 3 for \$2.67, 6 for \$4.98.

ALL ROSES Unless Otherwise Priced 93c Ea.

3 for \$2.67
6 for \$4.98
10 for \$7.39

HARDY ROSE OFFER
The 3 hardiest roses you can grow. Best bloomers, too.

1—Red Radiance
1—Pink Radiance
1—White K. A. Victoria

All 3 for only **\$2.49**

GRUSS AN TEPLITZ
Produces hundreds of fiery-red, fragrant flowers. Hardest grown.

GOLDEN DAWN
The long, handsome buds open into a very double bloom of gold flushed with a bit of orange.

DAME EDITH HELEN
Produces huge shapely blooms of clear dazzling pink, sweetly fragrant.

E. G. HILL
The disease-free red rose. Color grows deeper as petals open. Very hardy. Fragrant.

PRES. HOOVER
Has the longest bud of all. Gorgeous 2-tone rose. Perfect for cutting.

ALL COLOR ROSE OFFER
1 of each of the beautiful colors of roses—red, pink, white and a two-toned in a bargain offer. All 4 **\$2.98**

CLIMBING ROSES

Prices: 85c each; 3 for \$2.39; 6 for \$4.48.

The hardiest and freest blooming climbers for your trellis or fence. Set 6 ft. apart. Will grow anywhere.

PAUL'S SCARLET: The big flowers, a vivid scarlet, semi-double, are very freely produced in clusters of from 3 to 20 flowers each on heavy branched canes. The plants are literally covered from top to bottom with bloom.

PINK DOROTHY PERKINS: Clear shell pink with flowers borne in clusters; full and double. This is without question one of the very finest of all climbing roses. Extra hardy.

CRIMSON RAMBLER: The famous crimson-cluster climber, so extremely effective when grown on pillars and trellises, makes shoots 8 to 10 feet long in a season. Flowers are produced, from ground to tip, in large pyramidal clusters of thirty to forty.

BABY ROSES Dwarf Polyanthus

These are the extremely hardy, dwarf roses that are absolutely covered with bloom all summer. Very compact growing. Same price as hybrid teas.

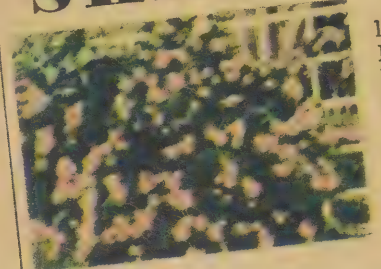

GOLDEN SALMON: Bright orange-salmon flowers in huge clusters. Growth vigorous and bushy. First really orange Polyantha.

IDEAL: Dark velvety crimson blooms. Compact and bushy with glossy leathery leaves and shapely trusses. Blooms profusely.

GRUSS AN AACHEN: Flowers almost like hybrid tea roses. Deep creamy pink. Always in bloom.

CECIL BRUNNER (The Sweetheart Rose): Small exquisitely formed buds and flowers of light pink with a yellow base. Blooms all summer. Fine for massing and in the rose garden.

SHRUB ROSES

These are roses that grow like shrubs. Free bloomers. Ideal in shrub borders. Price: 85c each; 3 for \$2.39; 6 for \$4.48.

F. J. GROOTENDORST: This hybrid has the beauty and freedom of bloom of the Baby Ramblers, plus the rugged foliage and hardiness of the Rugosa. The grandest of the red flowered blooms continuously all summer. Splendid for low hedges or edgings. Hardy.

PINK GROOTENDORST: The beautiful pink counterpart of F. J. Grootendorst. Same in every particular including everblooming. A fine compact shrub to plant around the porch.

HUGONIS (Golden Rose of China): Beautiful fine cut foliage and an abundance of bright yellow saucer-like flowers in early summer. Hardy and fine in every way.

HYBRID PERPETUALS

The Super-hardy roses. Grow anywhere. Big double blooms. Very hardy. Same price as hybrid teas.

AMERICAN BEAUTY: Generally conceded to be the most beautiful rose in size, form, and color. Rich red, changing to crimson, delicately veined and shaded, and surpassingly fragrant.

FRAU KARL DRUSCHKI: Pinkish buds and magnificent, snow-white blooms with deep, firm petals. Best white rose in any class. Very strong and blooms freely throughout the summer and fall.

GENERAL JACK: Deep glowing red. Always loaded with flowers.

PINK NEYRON: Bright ruddy pink blooms of immense size, very double, remarkably fragrant; vigorous; leathery foliage. Blooms from June to November. One of the finest hardy roses.

NEW! BROWNELL ROSES

A NEW RACE OF HYBRID TEA ROSES

SO HARDY—We Guarantee Them To Live 1 Full Year—Despite Your Climate

These are the new BROWNELL ROSES you'll hear lots about—they're the new SUPER-HARDY hybrid teas that absolutely won't kill out even temperatures that dip to 25 degrees below zero (tops not covered were not injured). Think of that. Because they are so hardy, we GUARANTEE THEM UNCONDITIONALLY TO LIVE THROUGH ONE YEAR AND NOT TO WINTERKILL!

Best of all they are free blooming, long-stemmed, with flowers that last a long time. Give more bloom than ordinary hybrid teas.

Choice of Many Colors

Prices: \$1.50 each; 3 for \$3.75; \$14 per dozen.

ANNE VANDERBILT—Pat. No. 504—Red buds opening to red-dish orange flowers. Very large. Very fragrant.

BREAK O'DAY—More blooms than any hybrid tea. Large and very double. Light apricot shade.

LILY PONS—Pat. No. 420—Hardest. Pearly white with yellow centers.

V FOR VICTORY—Pat. No. 543—Pure yellow. Holds color. Very large and double. Exhibition size and form.

PINK PRINCESS—Pat. No. 459—Holds foliage well. Bud red, flowers deep pink. One of first hybrid teas not to defoliate early.

SHADES OF AUTUMN—Pat. No. 542—Inner side of petals rose red. Outer side glowing yellow.

Climbing Brownells

GUARANTEED TO LIVE OVER WINTER WITHOUT WINTER PROTECTION—Immense Blooms Like Hybrid Teas

GOLDEN GLOW—Pat. No. 263—Rated as one of world's best yellow climbers. Blooms in clusters. \$1 each; 3 for \$2.50; \$10 doz.

COPPER GLOW—The very much desired coppery orange shade. \$1.50 each; 3 for \$3.75; dozen for \$15.

FREDERICK S. PECK—Pat. No. 419—Grenadine red buds open and are overlaid with orange and yellow. \$1 each; 3 for \$2.50.

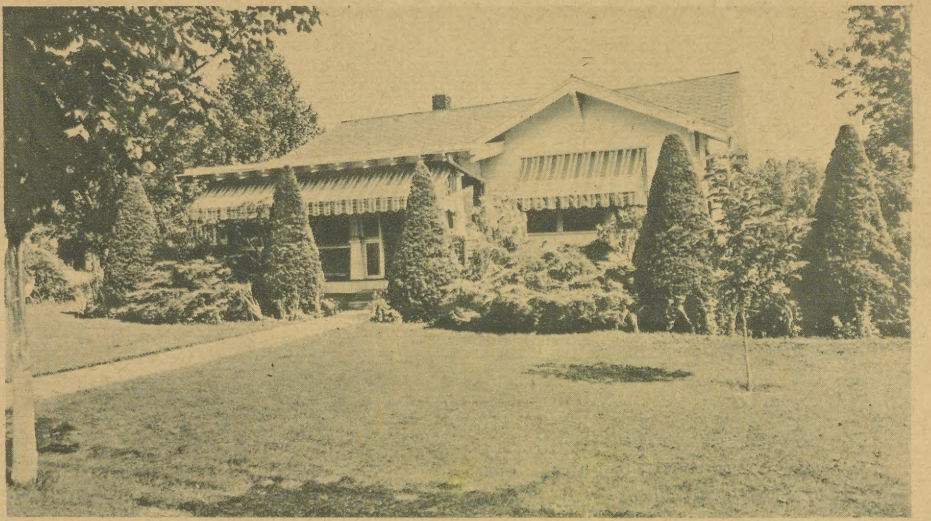

WE SHIP BROWNELLS NEXT FALL

Our Brownell roses have become so popular with you customers that we are entirely sold out for this spring. We'll have plenty next Fall, however, so we are listing them here for FALL DELIVERY ONLY.

GURNEY'S Northern-Grown LAWN SEED

IT'S EASY TO MAKE A LAWN THE GURNEY WAY

All of Gurney's lawn seeds and mixtures are of the highest quality. All fresh tested, new crop seed. Heavy seed means weed free seed—and that's what we use. Figure on 1 lb. of lawn seed for every 200 to 300 square ft.; White Dutch Clover 1 lb. to 1000 square ft.; and Buffalo Grass 1 lb. to 5000 square ft. Write for our complete Lawn Leaflet telling how you can have a beautiful, permanent, rich green lawn by using Gurney's Lawn Seed. The leaflet is FREE; ask for it.

SUNSHINE MIXTURE Lawn Seed

More Kentucky Blue Grass, plenty of Red Top and Rye Grass for nurse crops and to give you a quick early lawn. Enriched with Red Fescue and White Dutch Clover to provide permanency and rich greenness to your lawn.

Early spring is a wonderful time to start a lawn. Latter August and September is also a good time. Sow the seed evenly, roll thoroughly and water liberally.

1 lb., 75c; 3 lbs., \$2.10; 5 lbs., \$3.40; 10 lbs., \$6.50. All Postpaid.

Postpaid **65c** in 10 lb. lots

CAPITAL MIXTURE For Lawns

Best lawn mixture for the Northwest. Half Kentucky Blue Grass, balance White Clover, Rye Grass, Red Top and Crested Wheat. The best mixture known for places where rainfall is light and artificial watering impossible.

To be sure of a good stand of this seed, roll the ground firmly after the seed is planted.

1 lb., 65c; 3 lbs., \$1.75; 5 lbs., \$2.95; 10 lbs., \$5.75. All Prepaid.

Postpaid **57½c** in 10 lb. lots

NORTHERN KENTUCKY BLUE GRASS

Finest Extra Heavy Seed

Heavy seed means weed free seed. Start your new lawn this spring early while you have plenty of moisture. Although Blue Grass is a slow starter, once established it lasts for years. We have true Northern grown, Northern harvested Blue Grass of extreme hardness. 1 lb. for 200 square ft. rolled in.

1 lb., 75c; 3 lbs., \$2.10; 5 lbs., \$3.40; 10 lbs., \$6.50. All Postpaid.

5 lb. bag

\$3.40

Postpaid

NEW BENT GRASS

Everybody likes Bent Grass for Lawns. This is the true creeping variety and is harder and more drouth resistant than any other we know of. Bent Grass does require more care and more moisture than other types of lawn seed, but is well worth the cost and trouble because of its unusual beauty. 1 lb. plants 400 square ft.

1 lb., \$1.25; 3 lbs., \$3.25; 5 lbs., \$4.95; 10 lbs., \$9.50. All Pp.

lb. **\$1.25** Prepaid

WHITE DUTCH CLOVER

This is the 3 and 4 leaved lawn clover. It is hot weather resistant; grows nicely and quickly from seed. It is also an excellent pasture grass; 5 lbs. per acre for pasture. Add 1 lb. to every 5 lbs. Blue Grass if you want to improve the beauty of your lawn, or sow alone in the lawn at the rate of 1 lb. per 1000 square ft. Roll it in.

½ lb., 75c; 1 lb., \$1.45; 3 lbs., \$3.75; 5 lbs., \$5.95; 10 lbs., \$11.50. All Postpaid.

lb. **\$1.45** Postpaid

All About DDT

One of the great things that came out of the war was the amazing chemical known as DDT. You know what it did for our soldiers overseas. How they sprayed whole islands with it, deloused civilian populations, and even prevented contagious diseases. It's all been in the news. You've read as much about it as we have.

Now it's available for general distribution, and we here at Gurney's have two forms which we think the most useful. First, is the "Wettable Dust." You mix it with water according to directions and the purpose you are using it for. It comes very inexpensively this way, and where you use lots of it, like on the farm, be sure to buy it in big quantities and save. Second, we have it in a concentrated, 25% solution form. This is the easy way to use it. You can keep the bottle on the pantry shelf, and use as little as a teaspoonful at a time with water if you wish.

For getting rid of flies, mosquitoes, ticks, fleas, clothes moths, carpet beetles, ants, roaches, etc., you can't beat it. For gardens its use is limited. We need to study it more, and we still recommend Gurney's BUG DUST.

50% Wettable Dust

(Has no odor, no fire hazard, relatively harmless to people or animals if used with ordinary care.) Can be used in either dust or liquid form of mixture. Just add any kind of neutral dust (ordinary flour is good) to reduce it 8% or 10%—or if you prefer to use it in liquid form, simply add at rate of 1 lb. dust to 1 gallon of water (this wettable dust mixes easily with water) and you have a 5% liquid suspension to use in sprayer. 5% solution is advised to use for most household or barnyard insects. 10% dust for ants, roaches, body lice, and bedbugs. For spraying cows, horses, pigs, etc., we used 2½% liquid.

PRICE: 8 oz. package (makes 4 pints of full 5% spray), only \$1.00; 2½ lbs. (makes 3 gal.) \$3.25; 25 lbs. \$30.00.

25% Liquid Emulsion

(Mixed readily with water.) Very convenient for mixing small amounts for quick use. For 5% mix 1 part of this with 4 parts water. For 3% use 1 part with 7 parts water. For 10% use 1 part with 1½ parts water.

PRICE: 4 oz. bottle (makes over a pint of 5% spray) 59c, postpaid.

Write Us a Letter

We'll enjoy hearing from you and we'll be glad to help with your garden, flower, or field seed questions as well as nursery, or baby chick problems. Our advice is Free. Write us any time.

If you have a snapshot or picture of yourself, and garden, crops, etc., send it with your letter. We like pictures, too.

Gurney's SHADY SPOT LAWN MIXTURE

We all know it is hard to grow good lawn grass under trees and in the shade. Where the lawn is shaded half the time or more, Gurney's Shady Spot Lawn Mixture is the grass to use. Very similar to the famous Sunshine Mixture except it contains ample Fescue for the shady spots. Sow 1 lb. to every 200 square ft. Get it in early and roll thoroughly into the ground.

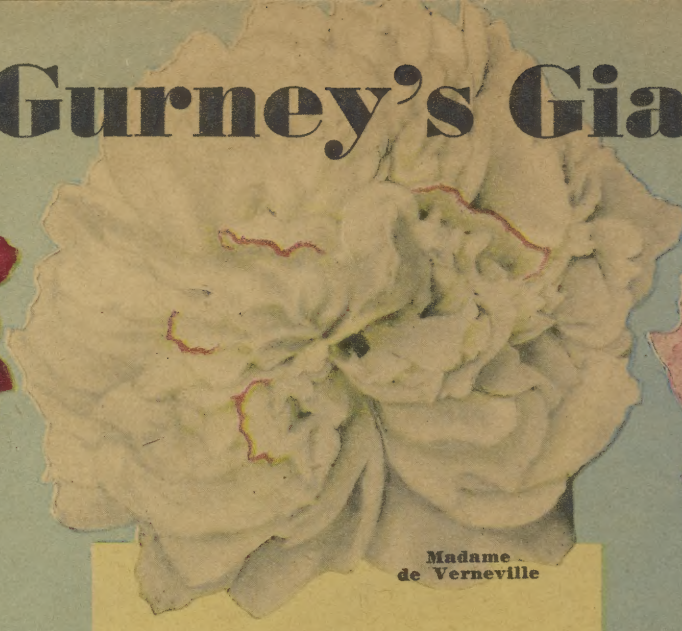

1 lb., 75c; 3 lbs., \$2.10; 5 lbs., \$3.40; 10 lbs., \$6.50. All Postpaid.

\$2.10 3 lb. bag Prepaid

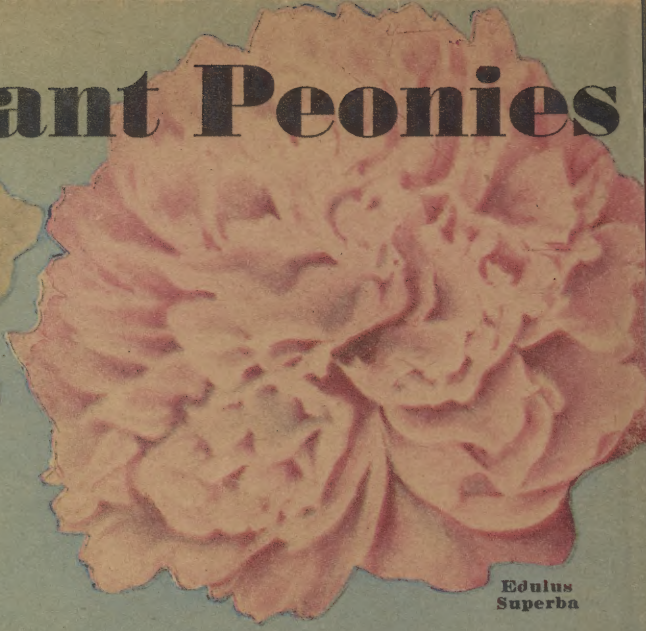

Gurney's Giant Peonies

Karl Rosenfield

Madame de Verneville

Edulus Superba

DECORATION DAY PEONY COLLECTION

The best of early-blooming varieties for cemetery planting and the ones which bloom early—usually for Decoration Day. You get in this bargain offer:

1 Red
1 Pink
1 White

\$1.19

FREE! 1 Beautiful blue Delphinium.

AVALANCHE: Late mid-season. Pure snow white with a touch of carmine in center. 79c Each.

MADAME DE VERNEVILLE: Large, full, bomb type; perfect white. Center petals touched carmine. Long stems. Drouth resistant, productive. The best for any garden. 69c Each.

ASA GRAY: Semi-rose type. Mid-season. Very large. Well built. Cup shaped blooms. Pure white. 79c Each.

EDULUS SUPERBA: Crown type. Very heavy. Called Decoration Day peony by some. A most beautiful bright, clear pink with silvery reflex. Has rose fragrance. 69c Each.

MONS JULES ELIE: Early mid-season. Immense flowers of ideal glossy lilac-pink, shading to deeper rose at base. Entire flower overlaid with a sheen of silver that fairly shimmers in the sunlight. 79c Each.

FELIX CROUSSE: Rose type; late mid-season. Flowers are a rich, brilliant, dazzling, ruby-red. Exceptionally fiery, bright and effective. 69c Each.

KARL ROSENFIELD: Semi-rose type. Mid-season. Tall, compact, heavy bloomer. Dark velvety crimson. Excellent both as a garden plant and as a cut flower. 69c Each.

LOUIS VAN HOUTTE: Semi-rose type; late mid-season. Very fine, shapely bloom; medium to large flower; color bright red of dazzling effect. 69c Each.

The Famous Early SUGAR LUMP MELONS

We were fortunate again to get a limited supply of the famous new Sugar Lump Melons. It has caught on like "wild fire." They are the EARLIEST melon we know and absolutely the sweetest. Small individual size—about 8 to 10" through with very thin rind. Come in 3 colors, Red, Yellow (very sweet), and White. Grow anywhere. Ripe by July 4th. Trial Packet some of all 3 colors mixed: No. 729—Pkt., 15c; oz., 25c; ¼ lb., 75c, postpaid.

Yellow Sugar Lumps

The sweetest of all three colors. It will be your favorite. Try it. Pkt., 20c.

White Sugar Lumps

A delicious treat. Looks cool and sweet and is. Almost no rind. Pkt., 20c.

Red Sugar Lumps

The favorite color of most people. As sweet as they look. Pkt., 20c.

Gurney's Doorway Evergreen Collection

Here's a bargain. An entire doorway planting for only \$2.89. You get 2 tall pyramidal junipers for each side of your doorway and 2 low spreading junipers for planting beside these. Pyramids are dandy trees, 1½ ft. tall. The spreaders—12 to 15 inches across. Makes a beautiful planting for both summer and winter beauty. All 4 evergreens \$2.89. Free—1 Colo. Blue Spruce for lawn planting.

\$2.89
